

My husband used the same bus when he attended school 32 years ago. The bus took the same route until approximately 2 years ago. The bus route now follows another bus for approximately 15km and the back tracks 6km, it picks up two teenaged passengers who's bus stop is not really at a safe location.

We live approximately 13km out of town on the bitumen. Our children have one short run and one long run per day. So if they are early on the bus they are early off. Early is 7:35am pickup with 3:18pm drop off, late run is 8:15am pickup and 4pm drop off. Our children are aged 4,6 & 7 years old.
