Subject: No to shooting animals in WA

Dear Ms Mesiti,

Dear sir, I genuinly belive the culling of introduced species in state forrest will have a dramatic affect on the damage caused by introduced animal populations foxes, ferrel cats and wild dogs cause havock and kill many native animals and maim and kill many farm and working animali.. Culling these animals is a must to ensure the future of native animals.

Regards Dan McMahon

Sincerely,

Dan McMahon
