

Dear sir,

My name is Shannon Quinlan and I would really like my submission to be updated to include the extensive trauma informed therapy I receive currently.

This therapy is invaluable.

It is important for my submission to include this as the therapy is not cheap, yes I get 10 subsidised appts through the government mental health Care plan. It costs \$265 upfront.

Medicare reimburses \$130.

After 10 of these subsidised appts I have to find the funds to pay for the full amount as 10 subsidised sessions a year is an insult.

I receive therapy fortnightly, I am on a disability pension, I cannot afford this but I need this so somehow I have to find the finances and when the government promise fully funded therapy...

It really as you can imagine a massive slap in the face and I believe needs to be added to my submission, I am sorry if this is not the right area to email and would appreciate if possible a point in the right direction.

Sincerely

Shannon

Quinlan
