Subject: No to shooting animals in WA

Dear Ms Mesiti,

Feral animals are out of control in this state, I have been driving down mandurah road and seen herds of deer at 3am near secret Harbour, feral pigs run rampant in our forrests, foxes and feral cats are devastating our native fauna, not to mention the livestock, time to wake up and let the people who really care about the future of the environment take care of the problem, hunters don't just sit in a room and talk about the problem, they fix the problem!

Sincerely,

Michael Barry
