

B & C FITZGERALD

10 th July 2015

To the Select Committee into the Operations of the Royal Society for the Prevention of Cruelty to Animals Western Australia Inc.

We make our submission to the Committee as a concerned livestock farming family, with 3 young & keen children under 18 years that are very passionate about the livestock & farming Industry.

Three points that concern us are:

1. The funding from Government and Public Donations need to be transparent for all to see.
2. What it intends to do with this war chest.
3. Money buys power. Power equals trouble and we know the Devil makes work for Idle Hands.

Thank you for the opportunity to express our concerns with the right decision making.

For the future we hope our family can look forward to a future in farming without small groups of people muddying the waters & raising unnecessary concerns in the wider community, generally giving the wrong idea about farming.

Yours sincerely,

Brett, Christine and Family.
