**Subject:** End Of Life Choices Joint Select Committee

I nursed my dying wife for 8 months and observed her pain and distress She died at age 52  
Im 80 and still working but when i become totally blind and incontinent etc i want the end date to be hastened

My father in law came home to die an agonising cancer death and  
were able to increase the morphine levels and he went to his make painless and in reasonably quick time  
Pressure should be taken away from doctors and nurses and plans put inlace whist the patient is lucid to  
have a more hastened end

Kind regards

[John D Pascoe FCPA](#)
