**Subject:** please don't do this

Dear Ms Mesiti,

I am a young person who absolutely knows the difference between right and wrong, and to shoot animals for leisure is WRONG! I urge you please look beyond money and realise that without these animals, our ecosystem will perish. Not only that, but it is an unnecessary act. If people want to shoot something, set up a range with moving fake targets for them to shoot, not real animals. Please

Sincerely,

moira mrowinski
