Subject: Do NOT shoot animals in WA

Dear Ms Mesiti,

As if culling sharks and live exports weren't enough, now the government is considering allowing recreational shooting as well. Surely animals everywhere deserve a break from this culture of cruelty. It was Immanuel Kant who said, 'We can judge the heart of a man by his treatment of animals.' Where are the hearts of those who promote or condone this slaughter? Sometimes I'm ashamed to be a citizen of this state and this country.

Sincerely,

Josephine Norman
