

We live in a rural community called Wagin. Wagin does have a district high school but over the years the high school population has gone down significantly. The school does the best with their available resources however the high school is very small. This is the reason I decided to send my eldest daughter to narrogin. The school bus from Wagin to narrogin is full. I have to drive my daughter approximately 20km to highbury to catch the highbury bus to narrogin. I have to do the same trip in the evening. The Wagin bus is still full and we have been on the waiting list since the beginning of the year there are 3 other families who do the same so we have organised a car pool. There is at least another family also doing another car pool to highbury - there is at least 8 kids catching the bus from highbury.

It would be great if another bus could be put on for the Wagin to narrogin kids.
