Subject: WA Freal Animal shooting

Dear Ms Mesiti,

Hi and thanks for the opportunity

I have lived in WA for 14 years and have been steadily appalled at the growth of feral animal populations. I am delighted to tell you of my efforts at managing destructive pest populations of pigs goats rabbits and other exotic species that are not WA in origin so if you REALY CARE about WA animals let me know otherwise I will like so many others assume the worst of you :(

Sincerely,

Malcolm Jenkinson
