

I live in the Chestnuts estate in Jarrahdale. My son has ADHD and a Sensory Processing Disorder. He needs routine and discipline while catching the bus. He is 8, an only child and requires the above to get from school in a safe manner. I feel riding a public bus where there are no seatbelts, no regular driver and no school regulations to abide by will cause many issues in getting to school.

Please reconsider our situation out here. We are a 40 minute drive away and rely on the current bus service to get him safely to school and back.
