

MRS. MARIE T. MOSCA

16th. OCTOBER 2017

SUBMISSION TO THE JOINT COMMITTEE ON
END OF LIFE CHOICES.LEVEL 1, 11 HARVEST TERRACE
WEST PERTH. WA. 6005.

I do not support euthanasia or assisted dying.

If euthanasia is made lawful, the process could easily be obtained un-necessarily to include otherwise healthy aged persons, mentally afflicted or physically disabled.

There should be sufficient money released by government to enhance palliative care and pain relief for persons suffering chronic or terminal illnesses.

If the person is receiving artificial nourishment, that person can refuse to accept that nourishment, thus hastening their end of life, without breaking the law as it stands.

I remain
Yours faithfully,
