Select committee into cannabis

To: Brian.walker.MLC@mp.wa.gov.au >

Saturday

Dear Brian,

I'm writing to you in this forum because I'm having great difficulty making a submission to this committee via the Facebook links. I'm technically challenged but can grow wicked pot and drive heavy vehicles very well. I've been using cannabis for most of my life and can't imagine my life without it. I can't seem to get past my dr who quite rightly believes I can't afford the approval process. I've lost everything I've worked my whole life for because I failed on site urinalysis testing on mine sites days after smoking cannabis. This led to me losing my job. Then I lost another job because I admitted I had used in the past few weeks and was unlikely to pass a urinalysis test. None of these employers wanted to fire me as I am a good and reliable driver but had to comply with government and insurance regulations. I've over 30 years of at fault accident free driving under my belt and am currently sitting on one point on my license, not because of bad driving but because I was unfortunate enough to fail two roadside drug tests in a week, one of which was on a double demerit weekend. Cost me a packet inspire of the fact that I was in no way impaired and the arresting officer admitted this in court on the day. Both charges were by the same officer on different days. I have over 50 years with cannabis so if there is anything you would like to ask I'm only to happy to share.

Yours sincerely
