Perth WA 6837

I wish to register forthwith my absolute support for tghe proposition of RECRATIONAL HUNTING ON PUBLIC LAND.

In Western Australia there are, in existence a number of competent hunting and conservation groups with many ttrained and accredited shooters.

With proper management between Government and Sprorting organisations, the beneficiaeries would extend into local communities and commerce expecially for some small depleted towns expecially in the South West.

Most States of the Commonwealth have had such schemes in place and and these have operated successfully throughout.

From the hunter and Shooting organisations the old adage applies: CONSERVATION MEANS WISE USE OF AVALABLE RESOURCES!

I sincerely hope that this common sense proposal gains the support of the Standing Committee and the legislature.

Yours faithfully,

GRAHAM POW
