Dear Mrs O'Malley

**Re: Request for submission to Parliamentary inquiry**

Thank you for your letter of 7 July 2023 and the opportunity for Treasury Corporation of Victoria (TCV) to make a submission to the Public Accounts Committee of the Legislative Assembly of Western Australia inquiry into how the Western Australian Government's progress toward achieving Environmental, Social and Governance outcomes is assisting to secure international investment for the State.

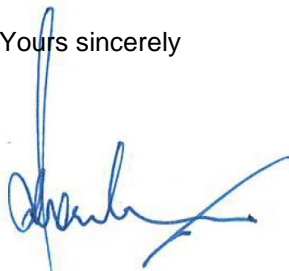

The details of TCV's approach to green, social and sustainability bonds (Sustainability Instruments) are publicly available on our website at [TCV Sustainability Bonds | Treasury Corporation of Victoria](#).

Information available includes our Sustainability Bond Framework, which addresses amongst other matters the Victorian Government's environmental and social objectives that TCV issuance is supporting, the process for selecting eligible projects, the management of proceeds from issuance of Sustainability Instruments as well as reporting and assurance to be delivered under the framework. Also provided are details of our asset pool, external assurance statements, an investor presentation delivered at the time of the framework launch and links to the relevant International Capital Markets Association bond principles.

In addition, the 2022 TCV Sustainability Bond Annual Report is published on our website. The report provides further detail in relation to the operation of the program, the status of the eligible asset pool, allocation of issuance to projects in the pool and impact reporting in relation to eligible projects. We are currently preparing the 2023 TCV Sustainability Bond Annual Report, which we will also publish on our website later this year.

We trust this information is of assistance to your inquiry.

Yours sincerely

Michael Larkin
