Subject: WA ANIMAL WELFARE AMENDMENT BILL 2017

Dear Sir

Thank you for allowing me to comment on the proposed bill.

Please give inspectors the power to make unannounced routine visits to live export ships, slaughterhouses, piggeries, poultry farms and any other animal business premises.

Western Australia should be in line with the rest of Australia and adopt these guidelines, it is only humane. Transparency is vital and what do they have to hide?

Regards
Julie Trew
