

My children are complimentary on carol MacDonalds waroona run. We are short about 600 metres on the current distance requirements for a permanent place on the bus run.

We live on a road that is very unsafe for the kids to possibly walk to school if they are taken off as a complimentary at any point, there is no walkway to school and it is used by mine site workers who have come off long shifts.

I'm just hoping that the distance for permanent places on the bus run could be lowered to at least 3km and we would be covered. I know that there are other family's on our road that are also in a similar situation to us.
