

I have 2 children on the "Pink lake" Bus in Esperance and today we have a new driver who informed us that our new bus stop, an extra 300-400m from the one we have been using for the last 4 years will be our designated pick up and drop off area. So for our family that is a 2km hike to get to our stop, which in the scheme of things might not be important to others but it is a rather windy and bushy road where snakes are frequently seen, with very little phone reception so I'm not overly keen to let my children walk or ride to the stop for safety reasons. My main inquiry is why can the bus route not change to travel down Canning Drive, then onto Dunkley Circuit then Helms Road? There are more kids on Canning Drive than on Dunkley Circuit and have been for a while now. The bus Route would be so much more efficient going this way and a lot safer for all the children on the bus.
