**Subject:** \$90 for 90days Registration in W A for Classic and Modified Vehicles  
**Date:** Tuesday, 25 September 2018 8:52:34 AM

---

To the Select Committee of Personal Choice and Community Safety.  
Chaired by Hon. Aaron Stonehouse M.L.C.

Currently in W A, if a vintage or classic car is modified it is very difficult to get it registered and you have to pay full registration fees.

South Australia have reduced the RED TAPE by introducing a \$90 fee for 90 days unrestricted road use.

Many classic cars were sitting idle in sheds because their owners didn't want to pay hundreds of dollars for full registration.

These changes mean that car enthusiasts can make modifications to their vehicles without forcing them off the road and into the garage.

This will have a flow on effect to automotive businesses such as panel beaters, painters, motor trimmers & mechanics as owners prepare to put their cars back on the road.

Despite these changes, vehicles with major modifications such as engine upgrades will still be required to undergo safety inspections and obtain relevant approvals to gain registration.

Each vehicle will be required to carry a log book and must enter the details of each day of use before driving the vehicle on the day.

As a means of determining if the vehicle is using the 90/90 scheme a small metal plate will be fixed to the number plate similar to what is used to identify a vehicle that runs on LPG.

We need these changes in WA so please get on board.

I have written to the current Minister for Transport but are still awaiting a reply.

If you need any more information please contact me via email

Regards  
Mick Allender
