Subject: Voluntary euthanasia

I do not read the Worst Australian, and heard of the inquiry receiving submissions on ABC radio this morning that those opposing had made the dominant number of submissions. If this is the measure, please accept this as a submission in support of voluntary euthanasia.

I am over 70, have supported parents who lived to 90, both of whom preferred to die with dignity rather than how they did, and having similar attitudes to everyone with whom I have discussed euthanasia, strongly support the option to choose to die if the need arises toward the end of my life. I strongly oppose the heroic interventions and suffering imposed by the present environment relating to death and dying.
