**Subject:** To the joint select committee on end of life choices

Dear committee

I am very much in favour of kindness and the ability to have a death without prior terrible suffering that lingers and where there is no hope for a healthy life without that intolerable suffering. This to me is like a torture chamber of no escape so i support dying with dignity 100 %, and finally to waste resources to stem suffering inefficiently is an economic, emotional and social waste.

Peace from

Mary ann rath
