The joint Select Committee  
on End of Life Choices  
N.A.

Dear Sirs,

I am inquiring into the need for  
N.A. Laws to allow citizens to make  
informed choices for end of life.  
I wouldn't like the outcome of your  
deliberations to allow euthanasia or physician  
assisted suicide. I am 93 year old and had a  
stroke 2½ years ago. I don't remember much about  
it but I was in Royal Perth & the Brendly  
hospitals. I can see much better now and  
walk & get around on my walker and hoist. I  
made a great recovery and am grateful  
for the care I have received. If the laws are  
changed and I had another stroke I'd be

very anxious every time someone come  
towards me with an injection, Please don't  
destroy the trust between doctors and their  
patients by my legislating for euthanasia  
or doctor assisted suicide.

Yours faithfully
