

Parents of high school students in Pingelly do not have a choice as to which High school to attend as there is no bus service going to Narrogin High School for lower secondary school. It is frustrating as Brookton District High School is not suitable for my daughter. I cannot afford to drive her to and from school everyday as petrol would be expensive. One of my daughters teachers have informed me that she doesn't have as much resource as bigger schools. The deputy principal and principal have asked me previously if I had looked into Narrogin High School, but due to no bus service cannot send my daughter there.

The bus service should be made available to all parents/students wishing to send their children to Narrogin High School. When I have called the bus service to ask, there is no bus service from Pingelly to Narrogin. But if I could drive to Popanyinning there might be a seat on the bus but it is not guaranteed still. This is very unfair for the students and wishing to access better education. As the availability of the bus service hinders their education.
