**To:** Public Administration Committee  
**Subject:** Inquiry into the potential environmental contribution of recreational hunting systems

WA already has the most strict and suffocating laws on firearms possession and use even though firearms owners are among the most law abiding citizens in the state. How about getting this one through so we can do the state a favour in terms of pest control and even reduce the use of 1080 poison.

We are good, respectful and lawful people. Please treat us the the dignity and respect we show out state.

Joel Ryan;
