Animal Welfare WA Amendment Bill 2017

Dear Sir/Madam,

It's time to END Livestock,( the real name should be cattle and sheep), transport and slaughter, murder I should say. These are sentient beings. How would you like to be transported the way they are and then murdered by the hundreds each and everyday, Wholesale murder of living sentient beings. Would you go out and kill a sheep or a cow, or a pig, or a chicken each time you wanted to eat a meal? Would you transport your pet dog or cat the way you allow the transportation of sheep, cattle and pigs? Its absolutely disgusting the way people,( the dominant animal species, and we are only the dominant ones because we are cruel,) treat other animals.

It's the 21st century and humans are so barbaric. End this horror.

Yours Sincerely

Julie Hay
