Subject: Airbnb

Old Fire Station Backpackers in Fremantle

1 general manager

3 receptionist

1 full time cleaner and many casual cleaners

number of businesses who rely on our property: 30+

The idiotic "backpackers tax", a non existing tourist ministry and the boom of Airbnb put a crazy pressure on our industry

It is absolutely unfair we have to pay an incredible amount of money for health, safety, fire safety while people renting entire houses do not have any of this costs.

Airbnb it's an absolute virus for the all hospitality sector, but we are really worried they have now such a power to lobby politician so no right decision will be taken...

Thanks a lot

Riccardo Quadrelli
