## **Petition Calling for an End to Live Animal Exports**

*To the Honourable the President and Members of  
the Legislative Council of Western Australia in  
Parliament assembled.*

The undersigned residents of Western Australia are concerned at the continuation of the live animal trade for the following reasons:

- (i) Annually around 3 million animals are exported from Fremantle. These animals endure considerable suffering during shipment.
- (ii) The animals exported from Fremantle are slaughtered in a cruel manner which would be illegal in Australia.
- (iii) Legislation covering road transportation and loading of animals is not being adequately policed.
- (iv) The live animal trade is undermining the more lucrative, job creating, processed meat trade.

**Your petitioners request that the Legislative Council will investigate this trade with a view to recommending a timeframe within which it can be permanently discontinued.**
