

EXPLANATORY MEMORANDUM
Gaming and Wagering Legislation Amendment Bill 2018

OVERVIEW

The purpose of the *Gaming and Wagering Legislation Amendment Bill 2018* (the Bill) is to amend the *Betting Control Act 1954* (BC Act) and the *Gaming and Wagering Commission Act 1987* (GWC Act) to align gambling practices with other Australian jurisdictions and to support responsible gambling.

Part 1 provides that the commencement of the Bill will come into operation the day after it receives Royal Assent and that the remaining parts will come into operation on a day fixed by proclamation in which different days may be fixed for different provisions.

Part 2 – Amendments to the *Betting Control Act 1954*

The Bill makes provision for the Gaming and Wagering Commission to prescribe undesirable wagering products as prohibited events/contingencies and makes it an offence for a person to offer or bet on prohibited events/contingencies.

Additionally, to ensure that the BC Act does not contravene the Constitution, the Bill amends section 27A recognising an event/contingency permitted under another state/territory law to be permitted to be offered in Western Australia by a wagering operator licensed in another jurisdiction, unless it is a prohibited event/contingency.

To provide consistency with other jurisdictions in relation to the racing bets levy scheme, the Bill amends the BC Act to provide a definition for:

- “bet backs” and makes a subsequent amendment to the definition of “turnover” to allow the value of “bet backs” placed by a betting operator with another betting operator to be deducted from the total amount of racing bets received by the betting operator; and
- “turnover” to specifically provide that in relation to a betting exchange that turnover is the net winnings of racing bets placed with the betting exchange.

To reflect contemporary drafting techniques, the Bill makes minor technical amendments relating to the imposition of penalties throughout the BC Act. The amendments do not alter the value of the penalties to be imposed for a breach of the BC Act.

Part 3 - Amendments to the *Gaming and Wagering Commission Act 1987*

The Bill amends the GWC Act to remove the prohibition on raffles conducted wholly or partly outside of the State and will enable national charitable and sporting organisations who obtain raffle permits/licenses in other jurisdictions to conduct raffles in Western Australia, provided that the raffle is not for private gain or commercial undertaking.

Section 52(3) of the *Racing and Wagering Western Australia Act 2003*, enables the Gaming and Wagering Commission to prohibit Racing and Wagering Western Australia from establishing or operating an agency that the Commission considers is “detrimental to the public interest”. No equivalent legislative authority, however, enables the Commission to prohibit a gambling provider licensed in another Australian jurisdiction from establishing a remote gambling facility that provides a direct link to their wagering operations in that jurisdiction. To establish consistency and prevent wagering operators not licensed in Western Australia from establishing dedicated wagering terminals in public places, such as shopping centres, that are remotely linked to their operations in their home jurisdiction, the Bill provides offences for:

- a person to place a remote gambling device on public premises or to use a remote gambling device on public premises; and
- an owner/occupier of public premises permitting a remote gambling device to be placed or used on the premises.

The Bill expands the Gaming and Wagering Commission existing powers to formulate and impose prohibitions or conditions in relation to gambling to also include the advertising of live odds during events. The proposed amendment will enable regulations to be promulgated prohibiting live betting odds being broadcast during sporting events at prescribed sporting arenas and stadiums. However, the prohibition will not apply to the advertising of live betting odds by bookmakers and wagering operators at licensed race courses in relation to horse and dog racing.

The Bill also makes the following minor technical amendments:

- removes the spent provision relating to the playing of the game of two-up in accordance with the *Police (Kalgoorlie Two-up Gaming) Regulations 1983*; and
- replaces reference to “Burswood Nominees Pty Ltd” with “the Trustee as defined in the *Casino (Burswood Island) Agreement Act 1985* relating to membership of the Gaming Community Trust. This removes the requirement for future amendments should the name of the casino licensee change, as it did in 2003, when it changed from Burswood Nominees Pty Ltd to Burswood Nominees Limited consequently changing from a proprietary company to a public company.

Additionally, to reflect contemporary drafting techniques, the Bill makes minor technical amendments relating to the imposition of penalties throughout the GWC Act. The amendments do not alter the value of the penalties to be imposed for a breach of the GWC Act.
