**Questions listed for this sitting: -**

**1975. Ms L. Mettam to the Minister representing the Minister for Agriculture and Food:**

I refer to the former State Labor Government's deregulation of egg marketing in 2004, and the *Marketing of Eggs Legislation Expiry Regulations 2005* which outlined the process for distribution of the Egg Marketing Board's assets to a producer-owned egg marketing company based on cooperative principles, and I ask:

- (a) how were producers selected for the new producer-owned egg marketing company (Golden Egg Farms, now known as the AAA Egg Company) based on cooperative principles;
- (b) what consideration was given by the former State Labor Government to those egg producers excluded from the new producer-owned egg marketing company to ensure that they were not commercially disadvantaged by the gifting of the Egg Marketing Board's assets to the new producer-owned egg marketing company;

- (c) what redress was made available to egg producers that were excluded from the producer-owned egg marketing company; and
- (d) has the producer-owned egg marketing company since formed a partnership with Finbar Group to develop land?

**1976. Mr W.R. Marmion to the Minister for Health:**

I refer to Question on Notice No. 40 to the Treasurer in which he advised that the 54m 'dead leg' was located only 9m from the southern feed inlet to the Perth Children's Hospital basement and ask:

- (a) what length of the 54m dead leg was disconnected from the ring main;
- (b) of the remaining length of the dead leg still connected to the ring main, is this composed of the original 300mm epoxy coated ductile iron or a new replacement pipe;
- (c) if the pipe was replaced as in (b), what is the material composition of the new pipe;
- (d) was any of the existing ring main replaced at or about the time the dead leg was disconnected, and if so, at what locations;
- (e) if any sections of the ring main have been replaced, what levels of corrosion were observed on the inside of the pipes, and if so, has any testing been undertaken and what were the results;
- (f) at what exact location was the scour valve installed in the ring main; and
- (g) since being installed how many times has the scour valve been operated, and at each time was water quality tested, and if so, what were the results?

**1977. Mr W.R. Marmion to the Minister for Health:**

I refer to Question on Notice No. 39, which was directed to the Treasurer and in particular part (d), in which he advised on 16 May that isotopic testing of water in the internal pipelines had to date proven inconclusive in matching with samples of the lead in the dead-leg, and ask:

- (a) has any further isotopic testing been done of both lead particles and dissolved lead in the Perth Children's Hospital pipelines;
- (b) if so, is there a match between the the lead particles and the dissolved lead in the pipelines;
- (c) if so, is there a match between the lead in the brass fittings and the lead in the pipelines; and
- (d) has any further testing been done to identify any match between lead in either the dead leg or ring main with lead in the Perth Children's Hospital pipelines and, if so, what was the outcome?

**1978. Mr W.R. Marmion to the Treasurer:**

- (1) I refer to the Treasurer's answer to Question on Notice No. 39, part (c), in which you advised on 16 May 2017, that 'lead was detected in the potable water testing with both particulate and dissolved lead levels traceable in all testing to date. Particulate lead is now being detected in very low levels in the potable water system with the remaining lead levels being detected as dissolved lead' and I ask:

- (a) in the dezincification process of brass, is lead loss both particulate and dissolved;
- (b) is there a direct or indirect correlation between the amount of lead and amount of zinc lost through the dezincification process; and
- (c) if most of the lead loss from brass fittings, through dezincification, is by dissolving, how do you account for the presence of lead particulates in the potable water supply?

- (2) Does the flushing of chlorine enriched water increase the likelihood of dezincification of brass fittings, and if so, why?

- (3) Does the flushing of chlorine enriched water increase the possible leaching of lead from brass fittings in either particulate or dissolved form, and if so, why?

**1979. Mr D.T. Redman to the Minister for State Development, Jobs and Trade:**

I refer you to the Woodside work camp Bayview in Karratha, and ask:

- (a) is Woodside requesting government approval for the camp for a construction workforce only, an operations workforce only, or both;
- (b) what are the tenure terms requested by Woodside;
- (c) what new projects is Woodside approved to develop that require the construction of a 700 bed work camp in Karratha; and
- (d) has the Minister met with the City of Karratha to determine alternative options for meeting Woodside's workforce requirements other than a work camp on the side of town?

**1980. Mr W.R. Marmion to the Minister for Health:**

For each department and/or branch within the Department of Health, how many employees left using the Voluntary Severance Scheme (VSS) in the years 2015, 2016 and 2017 to date, and:

- (a) for each department and/or branch, please list the individual's position/title, classification and payout figure;
- (b) which of the individual positions in (a) were abolished and remain abolished;
- (c) have any former employees listed in (a) been re-employed by the Department of Health; and
- (d) if yes to (c) please list for each individual their previous title and classification, and their subsequent title and classification?
