## Message from the Minister

In 2009-10 the Art Gallery of Western Australia has continued to work hard to develop an outstanding exhibition schedule and maintain a high level of visitor attendance.

During the year, the Gallery provided an exceptional program of State Art Collection displays and temporary exhibitions, enabling visitors to experience a wide variety of art forms and styles of international, Australian and Western Australian artists. Some of these highlights were the: Western Australian Indigenous Art Awards for 2009; *Abstract Earth: The Photography of Richard Woldendorp*; *McCubbin: Last Impressions 1907-17*; *Year 12 Perspectives*; and *Patricia Piccinini: Relativity*.

The Government continues to support the Gallery as an important cultural institution. In 2009-10 the State committed \$5 million when the Gallery matched the Government's previous \$10 million contribution to the TomorrowFund, with donations from the corporate and private sectors. The TomorrowFund supports increased purchases of Western Australian, Australian, indigenous and international contemporary art for the State Art Collection.

The *ARTBAR* after dark series of events was launched in July 2009. These events encouraged young professionals to visit the Gallery at a time suited to their lifestyle, and provided contemporary live entertainment to add value to their visit. *ARTBAR* has been a great success and a further series commenced in April 2010 thanks to the successful partnership between the Art Gallery and its sponsors.

In December 2009, Kieran Kinsella retired from the Board and Alan Davies was appointed. I thank Mr Kinsella for his commitment to the Board over five years. Under the leadership of the Board's Chair, Helen Cook, the Board has continued to set clearly defined objectives for the future of the Gallery.

Helen Cook retired from the Board on 30 June 2010. During her term as Chair the Gallery launched the TomorrowFund, built the Western Australian Indigenous Art Awards into a nationally recognised event and initiated the 'Great Collections of the World' series of major international exhibitions. I thank Ms Cook and the Board for their efforts in making this a very successful year for the Art Gallery of Western Australia.

I congratulate Fiona Kalaf for her appointment as the new Chair of the Board from 1 July 2010. I also acknowledge Brian Roche as a new appointment to the Board and the re-appointment of Adrian Fini.

The strong leadership of Director, Stefano Carboni has been instrumental in the growing success of the Art Gallery. I thank Dr Carboni and the Gallery staff, whose collective skills continue to deliver outstanding achievements at one of the State's most important cultural institutions.

## Executive Summary

The 2009-10 year has been an exciting year for the Art Gallery of Western Australia featuring a diverse program of exhibitions enabling visitors to experience a wide variety of art forms and styles throughout the year.

The future ability of the Gallery to enrich the State Art Collection and build a legacy for future generations of Western Australians, has been made more secure by the Art Gallery of Western Australia TomorrowFund launched in 2008-09. The TomorrowFund capital campaign generously supported by BHP Billiton, the National Australia Bank, Wesfarmers and Woodside as lead donors is an example of what it means to support the community and the State Art Collection. These four companies have encouraged steady contributions from other West Australians. The State Government pledged a further contribution of \$5 million when the Gallery matches the Government's previous \$10 million contribution with donations from the corporate and private sectors. The Gallery reached the \$5 million milestone early this year triggering the Government's commitment and released a further \$2.5 million to the Gallery. This fund supports increased purchases of Western Australian, Australian, Indigenous and international contemporary art for the State Art Collection.

The year began with the highly successful *Western Australian Indigenous Art Awards* and the *Artist in focus* series of exhibitions showcasing the works of international, Australian and Western Australian artists. The Art Gallery provided a varied program throughout the year, including very popular photographic exhibition by Richard Woldendorp *'Abstract Earth'*; Australian impressionist artist Frederick McCubbin's *'Last Impressions 1907-17'*; and finishing with the surreal work of Australian sculptor Patricia Piccinini's *'Relativity'* exhibition. These temporary exhibitions along with the displays of the State Art Collection provided visitors to the Gallery with a wide range of high quality and interesting experiences.

A regular highlight of the exhibition calendar is the popular *Year 12 Perspectives*. This exhibition celebrated the work of the extremely talented youth of Western Australia, as the 2009 students of Year 12 Art and Art & Design showcased their achievements with support provided by a successful partnership between the Art Gallery and generous sponsors.

The Gallery has continued its strong and ongoing commitment to providing access to different members of the community, through the provision of touch tours for sight-impaired visitors and art workshops designed for groups that have special or additional needs.

The Gallery has continued to partner with a broad range of arts organisations. This includes collaborations with festival organisations such as the UWA Perth International Arts Festival. As well, the Gallery is developing strategic relationships with a wider range of corporate and private sponsors.

This year saw two Members leave the Board. Kieran Kinsella retired from the Board in December 2009 after serving on the Board for five years. Alan Davies, Managing Director Global Development & Chief Financial Officer, Rio Tinto was appointed in

February 2010 to the Board. Helen Cook, Chair of the Board as of 30 June 2010 after serving on the Board for nearly six years, four as Chair. Fiona Kalaf was appointed as Chair of the Board effective from 1 July 2010.

I wish to take this opportunity to thank the previous Chair, Helen Cook, and the Board and Gallery staff for their efforts in making this a very successful year during a particularly challenging time for the Art Gallery of Western Australia.

*“Greater focus on achieving results in key service delivery areas for the benefit of all Western Australians.”<sup>1</sup>*

The Government Desired Outcome for the Gallery is that:

## Agency Performance – Report on Operations

### State Art Collection

The Gallery’s principal purpose is to preserve, interpret and display visual art from the past and the present through acquisition and development of the State Art Collection. The priority is to develop a comprehensive collection of Western Australian art and design, develop representative collections of nationally significant Australian art and design, and acquire a highly selective representation of international art and design. The Gallery aspires to develop the finest public art collection of Western Australian art and Indigenous art in the State.

The State Art Collection comprises 17,214 works in a range of media including paintings, sculptures, craft and design, watercolours, drawings, photographs and prints. From 1 July 2009 the areas of curatorial responsibility were restructured. These new areas of curatorial responsibility for Collection development and display resulted in a renewed emphasis on research and interpretation in new displays and through purchases and donations.

<sup>3</sup> Ibid., p. 667.

## **Acquisitions**

The Board approved a new five-year acquisition plan for 2009 - 2013. It supports the Collection to ensure that primary access to art, heritage and ideas locally, nationally and internationally is preserved now and for future generations through acquisition, care and display. The Gallery places a high priority on the purchase of the art of today to create a legacy for future generations. This priority received significant emphasis this year through the support from the Art Gallery of Western Australia TomorrowFund.

The emphasis for acquisitions, through purchase and donation, is to acquire Western Australian Historical, Modern, Contemporary and Indigenous art and design in comprehensive depth, represent nationally significant Australian artists and through highly selective purchases represent high points of individual achievement from artists of international significance, influence and impact on Australian visual art. Of the 203 works of art were acquired sixty percent were works by Western Australian artists.

TomorrowFund income has increased the purchasing capacity of the Art Gallery of Western Australia to create a rich visual legacy for future generations to experience. This year 95 works were acquired including 94 works by Australian artists, of which 55 were by Western Australians and one work by an International artist. The purchases included significant contemporary works of art by Australian artists Helen Britton and Justine McKnight, Tarryn Gill and Pilar Matta Dupont, Conor O'Brien, Gregory Pryor, Therese Howard, Joanna Lamb, Jessica Loughlin, Graham Miller, Andrew Nicholls, Gail Nichols, Brad Rimmer, Trevor Richards, Stewart Scambler, Helen Smith and Toni Wilkinson; International artists Teresa Hubbard and Alexander Birchler, and Indigenous art by Tony Albert, Kuruwariyngathi Bijarrb (Paula Paul), Fiona Foley, Dennis Nona, Reko (Gwaybilla) Rennie, Owen Yalandja

Funds from the State Government, the Sir Claude Hotchin Art Foundation, the Leah Jane Cohen Bequest, the Tom Malone Prize, The Peter Fogarty Design Fund and the Art Gallery of Western Australia Foundation TomorrowFund supported 139 purchases. Major purchases of Western Australian Indigenous art by Jan Billycan, Jack Britten, Christopher Pease, Spider Kalbybidi, Daniel Walbidi were achieved with funds from the Foundation's Leah Jane Cohen Bequest. The collection of Australian glass was enriched again through the Foundation and the Tom Malone Prize which supported the purchase of a glass and DVD installation work by Deidre Feeney. The Foundation's Peter Fogarty Design Fund enabled the Gallery to purchase three outstanding pieces of contemporary furniture by Western Australian maker Jon Goulder.

Significant gifts included an outstanding installation *Plein Air* 1994 by Rosalie Gascoigne donated by Art Gallery of Western Australia Foundation Patrons Sue and Ian Bernadt. Their generosity spanning over twenty-five years was acknowledged this year for its outstanding contribution to the breadth and strength of the Collection.

The collection of contemporary Australian art was greatly enhanced this year with the gifts from artists Kate McMillan, Callum Morton, Max Pam, Louise Paramor, David Serisier, Jon Tarry and David Walker. Australian artist Callum Morton donated a major early sculpture and Ricardo Idagi, the winner of the Western Australian Indigenous Art Award, donated *Baizam Tirig* 2008.

The collection of Historical art was enriched with gifts from Robert D Keall, Helen and Ben Korman, and Patrick Hanrahan. Patrick Hanrahan donated an outstanding group of modern European ceramics works. Helen and Ben Korman gifted the first work by Paddy Bedford to enter the Collection, *Emu Dreaming and Bedford Downs Massacre* 2001. The Gallery also received a significant group of Indigenous works, including five works by Shane Pickett, by transfer from the Department of Commerce, Science, Innovation and Business.

*(See full list of acquisitions at Appendix F)*

### **Preservation**

Preservation continues through an ongoing program of conservation treatments and framing. In 2009-10 the Gallery completed significant treatments on works by Peter Booth and Anne Zahalka. Our program of research and making period frames for major works in the Collection continued with the highlight being the reframing of William Powell Frith's *The Matchseller* and Frederick McCubbin's *Collins Street*. This work supports the display and interpretation of the Collection as we prepare of new integrated chronological displays to be installed on the ground floor of the Gallery and the Centenary Gallery in 2011.

### **Events, exhibitions and interpretative programs**

The Gallery commenced its strategy to relocate the temporary exhibition program to the upper level galleries in order to provide Gallery visitors with immediate access to the State Art Collection and permanent displays. Throughout the year the Art Gallery of Western Australia's strong commitment to making the State Art Collection available through our display program resulted in 727 works from the Collection being displayed.

The temporary exhibitions program included the delivery of the exceptional second Western Australian Indigenous Art Awards, the photography of Western Australian artist Richard Woldendorp, a fresh look at the late work of Frederick McCubbin, the popular Year 12 student exhibition, and a major survey of acclaimed Australian artist Patricia Piccinini.

The *Western Australian Indigenous Art Award 2009* featured outstanding work by 23 contemporary Indigenous artists. The winner of the \$5,000 People's Choice Award announced in November 2009 was Shane Pickett for the second year in a row. Sadly, Shane Pickett passed away on 15 January 2010.

*Abstract Earth: The Photography of Richard Woldendorp* a photographic exhibition depicting the Australian landscape from a unique perspective being the sky creating

a unique and important body of work that challenges how we experience and understand our place within the Australian landscape.

*McCubbin: Last Impressions 1907-17* was a fresh look at Frederick McCubbin's late work, concentrating on the last 11 years of his life when he produced his most vibrant works, expressing his sense of delight in, and comfort within, the Australian landscape. This was the first comprehensive Frederick McCubbin exhibition to be held in Perth in 18 years. The exhibition features 76 works from the major galleries in Australia, including 25 rarely seen works from private collections.

*Year 12 Perspectives* offered the public a chance to view students' artistic talent and gain an insight into their perceptions of our society through an exciting exhibition of dynamic, colourful and thought provoking artworks. *Year 12 Perspectives* represents a long-term partnership between the International Foundation for Arts and Culture (IFAC), the Department of Education and Training and the Curriculum Council of Western Australia. IFAC's contribution incorporates an exchange of selected student works with a student exhibition in Japan and two student scholarships.

Patricia Piccinini '*RELATIVITY*' is the first major survey of the artist's sculptural works in Western Australia. Patricia Piccinini is one of Australia's most acclaimed contemporary artists having received worldwide attention for her startling sculptures and digital environments that blend species in the frontier world of experimental biotechnological intervention. It is a both strange and beautiful world where she explores the unending connectivity of her fantastical creatures, new communities and bio-ethical conundrums. The sculptures give form to her fascination with the relationship between the 'natural' and the 'artificial'.

*(See full list of exhibitions at Appendix G)*

All displays and exhibitions were accompanied by a variety of interpretative programs. The *State Art Collection* displays are supported by comprehensive visitor information, online Collection access, family activity trails and customised public programs.

The temporary exhibitions presented by the Art Gallery during the year were accompanied by exhibition catalogues and a program of artists' talks. The catalogues produced for the *Artist in focus* series provided audiences with additional interpretative information about key holdings within the State Art Collection.

## **Participation and access**

The Gallery continued to provide broad access to the community, with 362,598 people participating in a diverse calendar of functions and events, together with a very successful schools program, attracting 21,611 students during the reporting period.

Visitor satisfaction with services remains steady with 88.7 percent satisfied with their visit.

The Gallery continued to provide outstanding disability access and inclusion programs through the provision of touch tours for sight-impaired visitors and art workshops designed for groups that have special or additional needs.

The Gallery also provided Community Outreach programs including 'Moment with McCubbin' and 'Process not Product and *Sculpture by the Sea Touch Tours* for the vision impaired. 'Moment with McCubbin' and *Sculpture by the Sea* was a pilot program and collaboration between the Gallery and Alzheimer's Association WA, bringing together people living with dementia, their carers and Voluntary Gallery Guides. A number of groups from residential and day care as well as people living in the community visited the Gallery for guided tours and practical art workshops. This highly successful program has been extended beyond the pilot program. Additional tours have been booked by Alzheimer support groups and an ongoing program will be run for couples by Alzheimer's Association WA at the Art Gallery. 'Process not Product' was a number of visual literacy and practical art workshops at the Gallery for child care workers organised by PSCWA, childcare support services.

An increasingly important way in which people access visual art information is through the internet and the Gallery embarked on new initiatives to improve online information and services. These initiatives have included regular improvements to the Gallery website and the introduction of new technologies such as Facebook and Twitter for Gallery patrons. The changes and new services have attracted increased visitation with 104,943 website visitors. The regular e-newsletter continues to attract a growing list of subscribers.

Volunteer Gallery Guides continued to make a significant contribution to the visitor experience and visitors' enjoyment and understanding of the State Art Collection and temporary exhibitions. Volunteers provided the equivalent of an additional eight full-time staff during the year.

## **Regional Services**

The Gallery is responsible for the running of the Geraldton Regional Art Gallery. In July 2009 James Davies was appointed the new Director of regional gallery and is working with the newly-created Creative Communities Directorate at the City of Geraldton-Greenough to increase understanding of the role the Gallery plays in the local community. The Geraldton Regional Art Gallery provides an active program of exhibitions and services to the community. Valuable relationships with local indigenous communities have been further developed particularly through the exhibition by Aboriginal artists from or residing in the Mid-West Region, *Ilgarijiri – things belonging to the sky*. The official opening of this exhibition had a record attendance of more than 480 people. The staff and the City are exploring an initiative to create a Mid West Award style exhibition for 2011.

The Gallery provides a grant to assist in the running of the Bunbury Regional Art Gallery. As well the Chief Curator has provided ongoing advice regarding the development of *Survey 2010*, a new project that will be the highlight of the Bunbury Regional Art Gallery's exhibition program. By request of the artist, the Associate Curator of Contemporary Art opened the exhibition, *Tracing the Steps of the Last*

*Day* by Michael Wise. The Curator of Indigenous Art assisted the Indigenous Art Development Officer at Bunbury with the selection of Nyoongar works for the City of Bunbury Collection. These works were selected from the exhibition, *Noongar Country*.

Curatorial staff also assisted with exhibitions and art prizes in Albany, Busselton and Northam.

Public Programs staff, with support from Healthways, conducted workshops in Karratha and Roebourne under the banner of *Act, Belong, Commit*. Fifty-two secondary and primary school students and teachers attended the workshops.

The Gallery continued to provide on and off-site conservation support for the Antony Gormley installation at Lake Ballard in the Shire of Menzies.

## **Sponsorship**

With its aim of maintaining a high calibre of programs and exhibitions that engage the public of Western Australia and visitors to the State, the Art Gallery of Western Australia is grateful for the generous financial and in-kind support received from individuals and organisations.

The continuity provided by the Art Gallery's annual partners - Wesfarmers Arts principal partner, 303, The Sunday Times, Audi, the International Foundation for Arts and Culture, Mirvac Hotels and Resorts, Channel Seven Perth, and Ernst & Young is critical to the delivery of a range of exhibitions and programs, and they are commended for their commitment and foresight.

*Year 12 Perspectives*, now in its 18th year continued with the ongoing support of the International Foundation for Arts and Culture, the Healthway Act-Belong-Commit campaign, the Department of Education and Training and the Curriculum Council of Western Australia.

Art Gallery of Western Australia program sponsors include the Water Corporation sponsorship of the *Water Walk* visitor trail and education activities; and Audi as the principal partner for Artbar.

The Gallery continued to receive strong support from organisations that acknowledge the significant benefits of a flourishing arts sector to their businesses and employees as well as to the broader community. The corporate sector partnered with the Gallery in 2009-10 to provide \$362,000 in cash and an additional \$182,000 in in-kind support. Strategically, the Gallery will continue to focus on long-term industry-exclusive partnerships.

## **Philanthropy**

The Art Gallery of Western Australia Foundation enjoyed a 21 percent increase in membership during the year. The Gallery received Foundation revenue of \$1,446,000 and interest revenue on Trust Funds of \$885,000.

The Gallery is particularly grateful to donors to the Art Gallery of Western Australia TomorrowFund who have contributed \$18,063,650 to date in cash and pledges, with lead gifts pledged last year by BHP Billiton, NAB, Wesfarmers and Woodside.

TomorrowFund President, Mr Michael Chaney, and Chairman, Mr Adrian Fini are particularly commended for their commitment to ensuring the success of this \$25million campaign.

## Significant Issues Impacting the Agency

### Current and emerging issues and trends

- The Gallery is expected to achieve Government desired outcomes for Art Gallery Services within a complex financial environment. This environment impacts on the Gallery's budget including benefaction and sponsorship and along with rising costs presents considerable challenges for the Gallery's operations.
- The Gallery's major exhibition program will focus on the delivery of a successful Great Collections of the World Series.
- The Gallery's display program will emphasise the State Art Collection and dedicate resources to Collection development, care, interpretation and display. This underscores our commitment to infrastructure renewal, staffing and programming delivery to provide public access to this unique heritage asset.
- The Gallery's facilities are thirty years old and maintaining and updating existing buildings (including heritage buildings) is critical to the future of the Gallery. Significant maintenance issues impact on the operations of these buildings and the Gallery is committed to working with the Department of Culture and the Arts to develop sustainable approaches to funding the Gallery asset investment program.
- Inadequate and insufficient storage for the State Art Collection is a major risk in caring for the Collection and impacts on the acquisition of works of art through purchase and donation.
- Demand for online services and Collection access will require significant investment in intellectual property development and technology.
- The Gallery supports Western Australian Indigenous artists through the WA Indigenous Art Award exhibition and international partnerships for the presentation of Indigenous exhibitions developed from the State Art Collection.
- The Art Gallery will allocate resources to the development of the Gallery within the context of EPRA, the Perth Cultural Centre and Northbridge Link.

#### **Challenges:**

- Increasing public participation in line with brand promise with limited resources.
- Retention of high level of visitor satisfaction with the Gallery.
- Strengthening stakeholder relationships.
- Reduced exhibition and public programs.
- Upgrading and on-going maintenance of website with no dedicated staffing resources and minimal technical support.
- Inadequate storage and display space for the State Art Collection.
- Increasing acquisition costs of high-quality works of art.
- Maintaining revenue from commercial activities.
- Meeting philanthropic and sponsorship targets for Capital Campaign and programs in current economic climate, with insufficient resources.
- Maintaining and upgrading aging and unreliable infrastructure including lifts, cladding, floor coverings, etc., including improving energy efficiency.
- Improving leave and workforce planning.
- Meeting compliance standards with reduced resources.

## Auditor General

### INDEPENDENT AUDIT OPINION

To the Parliament of Western Australia

#### **THE BOARD OF THE ART GALLERY OF WESTERN AUSTRALIA FINANCIAL STATEMENTS AND KEY PERFORMANCE INDICATORS FOR THE YEAR ENDED 30 JUNE 2010**

I have audited the accounts, financial statements, controls and key performance indicators of The Board of the Art Gallery of Western Australia.

The financial statements comprise the Statement of Financial Position as at 30 June 2010, and the Statement of Comprehensive Income, Statement of Changes in Equity and Statement of Cash Flows for the year then ended, a summary of significant accounting policies and other explanatory Notes.

The key performance indicators consist of key indicators of effectiveness and efficiency.

#### **Board's Responsibility for the Financial Statements and Key Performance Indicators**

The Board is responsible for keeping proper accounts, and the preparation and fair presentation of the financial statements in accordance with Australian Accounting Standards and the Treasurer's Instructions, and the key performance indicators. This responsibility includes establishing and maintaining internal controls relevant to the preparation and fair presentation of the financial statements and key performance indicators that are free from material misstatement, whether due to fraud or error; selecting and applying appropriate accounting policies; making accounting estimates that are reasonable in the circumstances; and complying with the Financial Management Act 2006 and other relevant written law.

#### **Summary of my Role**

As required by the Auditor General Act 2006, my responsibility is to express an opinion on the financial statements, controls and key performance indicators based on my audit. This was done by testing selected samples of the audit evidence. I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion. Further information on my audit approach is provided in my audit practice statement. This document is available on the OAG website under "How We Audit".

An audit does not guarantee that every amount and disclosure in the financial statements and key performance indicators is error free. The term "reasonable assurance" recognises that an audit does not examine all evidence and every transaction. However, my audit procedures should identify errors or omissions significant enough to adversely affect the decisions of users of the financial statements and key performance indicators.

**The Board of the Art Gallery of Western Australia  
Financial Statements and Key Performance Indicators for the year ended 30 June 2010**

**Audit Opinion**

In my opinion,

- (i) the financial statements are based on proper accounts and present fairly the financial position of The Board of the Art Gallery of Western Australia at 30 June 2010 and its financial performance and cash flows for the year ended on that date. They are in accordance with Australian Accounting Standards and the Treasurer's Instructions;
- (ii) the controls exercised by the Board provide reasonable assurance that the receipt, expenditure and investment of money, the acquisition and disposal of property, and the incurring of liabilities have been in accordance with legislative provisions; and
- (iii) the key performance indicators of the Board are relevant and appropriate to help users assess the Board's performance and fairly represent the indicated performance for the year ended 30 June 2010.

## 1. Australian Accounting Standards

### General

The Board's financial statements for the year ended 30 June 2010 have been prepared in accordance with Australian Accounting Standards. The term 'Australian Accounting Standards' refers to Standards and Interpretations issued by the Australian Accounting Standards Board (AASB).

The Board has adopted any applicable, new and revised Australian Accounting Standards from their operative dates.

### Early adoption of standards

The Board cannot early adopt an Australian Accounting Standard unless specifically permitted by Treasurer's Instructions (TI) 1101 'Application of Australian Accounting Standards and Other Pronouncements'. No Australian Accounting Standards that have been issued or amended but are not yet effective have been early adopted by the Board for the annual reporting period ended 30 June 2010.

## 2. Summary of significant accounting policies

### a) General Statement

The financial statements constitute a general purpose financial report which has been prepared in accordance with the Australian Accounting Standards, the Framework, Statements of Accounting Concepts and other authoritative pronouncements of the AASB as applied by the Treasurer's Instructions. Several of these are modified by the Treasurer's Instructions to vary application, disclosure, format and wording.

The *Financial Management Act* and the Treasurer's Instructions are legislative provisions governing the preparation of financial statements and take precedence over the Accounting Standards, the Framework, Statements of Accounting Concepts and other authoritative pronouncements of the AASB.

Where modification is required and has a material or significant financial effect upon the reported results, details of that modification and the resulting financial effect are disclosed in the notes to the financial statements.

### b) Basis of Preparation

The financial statements have been prepared on the accrual basis of accounting using the historical cost convention, except for land, buildings and works of art which have been measured at fair value.

The accounting policies adopted in the preparation of the financial statements have been consistently applied throughout all periods presented unless otherwise stated.

The financial statements are presented in Australian dollars and all values are rounded to the nearest thousand dollars (\$'000).

The judgements that have been made in the process of applying the Board's accounting policies that have the most significant effect on the amounts recognised in the financial statements are disclosed at note 4 'Judgements made by management in applying accounting policies'.

**c) Reporting Entity**

The reporting entity comprises the Board of the Art Gallery of Western Australia.

**d) Contributed Equity**

AASB Interpretation 1038 'Contributions by Owners Made to Wholly-Owned Public Sector Entities' requires transfers, other than as a result of a restructure of administrative arrangements, to be designated by the Government (the owner) as contributions by owners (at the time of, or prior to transfer) before such transfers can be recognised as equity contributions. Capital appropriations have been designated as contributions by owners by TI 955 'Contributions by Owners made to Wholly Owned Public Sector Entities' and have been credited directly to Contributed Equity.

Transfer of net assets to/from other agencies, other than as a result of a restructure of administrative arrangements, are designated as contributions by owners where the transfers are non-discretionary and non-reciprocal. See Note 30 'Equity'.

**e) Income**

**Revenue recognition**

Revenue is measured at the fair value of consideration received or receivable. Revenue is recognised for the major business activities as follows:

*Sale of goods*

Revenue is recognised from the sale of goods and disposal of other assets when the significant risks and rewards of ownership transfer to the purchaser and can be measured reliably.

*Provision of services*

Revenue is recognised on delivery of the service to the client or by reference to the stage of completion of the transaction.

*Interest*

Revenue is recognised as the interest accrues.

*Service Appropriations*

Service Appropriations are recognised as revenues at nominal value in the period in which the Board gains control of the appropriated funds. The Board gains control of appropriated funds at the time those funds are deposited to the bank account or credited to the 'Amounts receivable for services' (holding account) held at Treasury. (See note 19 'Income from State Government').

*Grants, donations, gifts and other non-reciprocal contributions*

Revenue is recognised at fair value when the Board obtains control over the assets comprising the contributions, usually when cash is received.

Other non-reciprocal contributions that are not contributions by owners are recognised at their fair value. Contributions of services are only recognised when a fair value can be reliably determined and the services would be purchased if not donated.

### **Gains**

Gains may be realised or unrealised and are usually recognised on a net basis. These include gains arising on the disposal of non-current assets and some revaluations of non-current assets.

### **f) Property, Plant and Equipment and Works of Art**

#### *Capitalisation/Expensing of assets*

Items of property, plant and equipment costing \$5,000 or more are recognised as assets and the cost of utilising assets is expensed (depreciated) over their useful lives. Items of property, plant and equipment costing less than \$5,000 are immediately expensed direct to the Statement of Comprehensive Income (other than where they form part of a group of similar items which are significant in total).

No capitalisation threshold is applied to works of art items. Items of works of art are considered to form part of a collection and are disclosed separately in the Statement of Financial Position.

#### *Initial recognition and measurement*

All items of property, plant and equipment and works of art are initially recognised at cost.

For items of property, plant and equipment and works of art acquired at no cost or for nominal cost, the cost is the fair value at the date of acquisition.

#### *Subsequent measurement*

Subsequent to initial recognition as an asset, the revaluation model is used for the measurement of land, buildings and works of art and the cost model for all other property, plant and equipment. Land, buildings and works of art are carried at fair value less accumulated depreciation on buildings and accumulated impairment losses. All other items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses.

Where market-based evidence is available, the fair value of land and buildings is determined on the basis of current market buying values determined by reference to recent market transactions. When buildings are revalued by reference to recent market transactions, the accumulated depreciation is eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount.

Where market-based evidence is not available, the fair value of land and buildings is determined on the basis of existing use. This normally applies where buildings are specialised or where land use is restricted. Fair value for existing use assets is determined by reference to the cost of replacing the remaining future economic benefits embodied in the asset, ie. the depreciated replacement cost. Where the fair value of buildings is determined on the depreciated replacement cost basis, the gross carrying amount and the accumulated depreciation are restated proportionately.

Independent valuations of land and buildings are provided annually by the Western Australian Land Information Authority (Valuation Services) and recognised with sufficient regularity to ensure that the carrying amount does not differ materially from the asset's fair value at the end of the reporting period.

The most significant assumptions in estimating fair value are made in assessing whether to apply the existing use basis to assets and in determining estimated useful life. Professional judgement by the valuer is required where the evidence does not provide a clear distinction between market type assets and existing use assets.

The Gallery's works of art collection is subject to a revaluation every five years, using a sampling methodology. The revaluation methodology is based upon certain criteria that enables the Collection to be valued at a reasonable estimate of its fair value. A full revaluation has been undertaken in 2010 (fourth year of the current cycle). The Revaluation Policy is to be reviewed in 2011.

Refer to note 24 'Property, plant and equipment' and note 25 'Works of art' for further information on revaluations.

#### *Derecognition*

Upon disposal or derecognition of an item of property, plant and equipment and artwork, any revaluation surplus relating to that asset is retained in the asset revaluation surplus.

#### *Asset Revaluation Surplus*

The asset revaluation surplus is used to record increments and decrements on the revaluation of non-current assets as described in note 24 'Property, plant and equipment'.

#### *Depreciation*

All non-current assets having a limited useful life are systematically depreciated over their estimated useful lives in a manner that reflects the consumption of their future economic benefits.

Land is not depreciated. Depreciation on other assets is calculated using the straight line method, using rates which are reviewed annually. Estimated useful lives for each class of depreciable asset are:

Buildings	50 years
Office equipment	3 to 20 years
Plant, equipment and vehicles	4 to 20 years

Refer also to 'Changes in accounting estimates' at Note 5.

Works of art controlled by the Board are anticipated to have very long and indefinite useful lives. Their service potential has not, in any material sense, been consumed during the reporting period and no depreciation has been recognised.

### **g) Intangible Assets**

#### *Capitalisation/Expensing of assets*

Acquisitions of intangible assets costing \$5,000 or more and internally generated intangible assets costing \$50,000 or more are capitalised. The cost of utilising the assets is expensed (amortised) over their useful life. Costs incurred below these thresholds are immediately expensed directly to the Statement of Comprehensive Income.

All acquired and internally developed intangible assets are initially recognised at cost. For assets acquired at no cost or for nominal cost, the cost is their fair value at the date of acquisition.

The cost model is applied for subsequent measurement requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses.

Amortisation for intangible assets with finite useful lives is calculated for the period of the expected benefit (estimated useful life) on the straight line basis using rates which are reviewed annually. All intangible assets controlled by the Board have a finite useful life and zero residual value. The expected useful lives for each class of intangible asset are:

Software <sup>(a)</sup>	4 to 10 years
-------------------------	---------------

(a) Software that is not integral to the operation of any related hardware.

#### *Licences*

Licences have a finite useful life and are carried at cost less accumulated amortisation and accumulated impairment losses.

#### *Computer Software*

Software that is an integral part of the related hardware is treated as property, plant and equipment. Software that is not an integral part of the related hardware is treated as an intangible asset. Software costing less than \$5,000 is expensed in the year of acquisition.

#### *Website costs*

Website costs are charged as expenses when they are incurred unless they relate to the acquisition or development of an asset when they may be capitalised and amortised. Generally, costs in relation to feasibility studies during the planning phase of a web site, and ongoing costs of maintenance during the operating phase are expensed. Costs incurred in building or enhancing a web site, to the extent that they represent probable future economic benefits that can be reliably measured, are capitalised.

### **h) Impairment of Assets**

Property, plant and equipment, works of art and intangible assets are tested for any indication of impairment at the end of each reporting period. Where there is an indication of impairment, the recoverable amount is estimated. Where the recoverable amount is less than the carrying amount, the asset is considered impaired and is written down to the recoverable amount and an impairment loss is recognised. As the Board is a not-for-profit entity, unless an asset has been identified as a surplus asset, the recoverable amount is the higher of an asset's fair value less costs to sell and depreciated replacement cost.

The risk of impairment is generally limited to circumstances where an asset's depreciation is materially understated, where the replacement cost is falling or where there is a significant change in useful life. Each relevant class of assets is reviewed annually to verify that the accumulated depreciation/amortisation reflects the level of consumption or expiration of asset's future economic benefits and to evaluate any impairment risk from falling replacement costs.

Intangible assets with an indefinite useful life and intangible assets not yet available for use are tested for impairment at the end of each reporting period irrespective of whether there is any indication of impairment.

The recoverable amount of assets identified as surplus assets is the higher of fair value less costs to sell and the present value of future cash flows expected to be derived from the asset. Surplus assets carried at fair value have no risk of material impairment where fair value is determined by reference to market-based evidence. Where fair value is determined by reference to depreciated replacement cost, surplus assets are at risk of impairment and the recoverable amount is measured. Surplus assets at cost are tested for indications of impairment at the end of each reporting period.

Refer to note 27 'Impairment of assets' for the outcome of impairment reviews and testing.

Refer also to note 2(o) 'Receivables' and note 22 'Receivables' for impairment of receivables.

**i) Leases**

The Board holds operating leases for vehicles and office equipment. Lease payments are expensed on a straight line basis over the lease term as this represents the pattern of benefits derived from the leased properties.

**j) Financial Instruments**

In addition to cash, the Board has two categories of financial instrument:

- Loans and receivables; and
- Financial liabilities measured at amortised cost.

These have been disaggregated into the following classes:

Financial Assets

- Cash and cash equivalents
- Restricted cash and cash equivalents
- Receivables
- Amounts receivable for services

Financial Liabilities

- Payables

Initial recognition and measurement of financial instruments is at fair value which normally equates to the transaction cost or the face value. Subsequent measurement is at amortised cost using the effective interest method.

The fair value of short-term receivables and payables is the transaction cost or the face value because there is no interest rate applicable and subsequent measurement is not required as the effect of discounting is not material.

**k) Cash and Cash Equivalents**

For the purpose of the Statement of Cash Flows, cash and cash equivalent (and restricted cash and cash equivalent) assets comprise cash on hand and short-term deposits with original maturities of three months or less that are readily convertible to a known amount of cash and which are subject to insignificant risk of changes in value, and bank overdrafts.

**l) Accrued Salaries**

Accrued salaries represent the amount due to staff but unpaid at the end of the financial year, as the pay date for the last pay period for that financial year does not coincide with the end of the financial year. Accrued salaries are settled within a fortnight of the financial year end. All staff of the Culture and the Arts portfolio agencies, including the Board of the Art Gallery of Western Australia, are employees of the Department of Culture and the Arts. Therefore, the Board has no liabilities in relation to employee entitlements and accrued salaries. Accrued salaries are offset against resources received free of charge in the Statement of Comprehensive Income. Refer to note 3 'Department of Culture and the Arts'.

**m) Amounts Receivable for Services (holding account)**

The Board receives funding on an accrual basis that recognises the full annual cash and non-cash cost of services. The appropriations are paid partly in cash and partly as an asset (holding account receivable) that is accessible on the emergence of the cash funding requirement to cover items such as leave entitlements and asset replacement.

See also note 19 'Income from State Government' and note 23 'Amounts receivable for services'.

**n) Inventories**

The Board's inventories relate to stock held at the Art Gallery Shop. Inventories are measured at the lower of cost and net realisable value. Costs are assigned on an average cost basis.

See note 21 'Inventories'.

**o) Receivables**

Receivables are recognised and carried at original invoice amount less an allowance for any uncollectible amounts (i.e. impairment). The collectability of receivables is reviewed on an ongoing basis and any receivables identified as uncollectible are written-off against the allowance account. The allowance for uncollectible amounts (doubtful debts) is raised when there is objective evidence that the Board will not be able to collect the debts. The carrying amount is equivalent to fair value as it is due for settlement within 30 days. See note 2(j) 'Financial Instruments' and note 22 'Receivables'.

**p) Payables**

Payables are recognised at the amounts payable when the Board becomes obliged to make future payments as a result of a purchase of assets or services. The carrying amount is equivalent to fair value, as they are generally settled within 30 days. See note 2(j) 'Financial Instruments' and note 28 'Payables'.

**q) Provisions**

Provisions are liabilities of uncertain timing or amount and are recognised where there is a present legal or constructive obligation as a result of a past event and when the outflow of resources embodying economic benefits is probable and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at the end of each reporting period.

**(i) Provisions - Employee Benefits**

*Annual leave and long service leave*

All staff of the Culture and Arts portfolio agencies, including the Board of the Art Gallery of Western Australia, are employees of the Department of Culture and the Arts. Employee resources are received free of charge by the Board, the value of which is recognised as both a revenue and expense in the Income Statement. The Department of Culture and the Arts retains all liabilities in relation to employee benefits and accrued salaries. Therefore, the Board has no liabilities in relation to employee entitlements.

Annual leave and long service leave liability are recognised by the Department of Culture and the Arts. See note 3 'Department of Culture and the Arts'.

**(ii) Provisions - Other**

*Employment On-costs*

Employment on-costs, including workers' compensation insurance, are not employee benefits and are recognised separately as liabilities and expenses when the employment to which they relate has occurred. Employment on-costs are included as part of 'Other expenses' and are not included as part of the Board's 'Employee benefits expense'. See note 11 'Other expenses'.

**r) Resources received free of charge or for nominal cost**

Resources received free of charge or for nominal cost that can be reliably measured are recognised as income and as assets or expenses as appropriate, at fair value.

Where assets or services are received from another State Government agency, these are separately disclosed under Income from State Government in the Statement of Comprehensive Income.

**s) Comparative figures**

Comparative figures are, where appropriate, reclassified to be comparable with the figures presented in the current financial year.

**3. Department of Culture and the Arts**

The Department of Culture and the Arts provides staff and other support to agencies in the Culture and Arts portfolio. The Department receives an appropriation for salary costs, superannuation and fringe benefits tax expense. These resources, provided to the Board, but paid for by the Department, have been treated as 'Resources received free of charge' in the Income Statement. See note 19 'Income from State Government'.

In addition, the Department of Culture and the Arts provides shared corporate services to the Board which are not recognised in the Income Statement.

**4. Judgements made by management in applying accounting policies**

The judgements that have been made in the process of applying accounting policies that have the most significant effect on the amounts recognised in the financial statements include:

(i) *Operating Lease Commitment*

The Board has entered into a lease for motor vehicles. The Board has determined that the lessor retains all the significant risks and rewards of ownership of the vehicles. Accordingly, the leases have been classified as operating leases.

**5. Disclosure of changes in accounting policy and estimates**

**Initial application of an Australian Accounting Standard**

The Board has applied the following Australian Accounting Standards effective for annual reporting periods beginning on or after 1 July 2009 that impacted on the Board:

Title	Operative for reporting periods beginning on/after
AASB 101	<i>Presentation of Financial Statements (September 2007)</i> . This Standard has been revised and introduces a number of terminology changes as well as changes to the structure of the Statement of Changes in Equity and the Statement of Comprehensive Income. It is now a requirement that owner changes in equity be presented separately from non-owner changes in equity. There is no financial impact resulting from the application of this revised Standard.
AASB 2007-10	<i>Further Amendments to Australian Accounting Standards arising from AASB101</i> . The Standard changes the term 'general purpose financial report' to 'general purpose financial statements', where appropriate in Australian Accounting Standards and the Framework to better align with IFRS terminology. There is no financial impact resulting from the application of this Standard.
AASB 2008-13	<i>Amendments to Australian Accounting Standards arising from AASB Interpretation 17 – Distribution of Non-cash Assets to Owners [AASB 5 and AASB 110]</i> . This standard amends AASB 5 Non-current Assets Held for Sale and Discounted Operations in respect of the classification, presentation and measurement of non-current assets held for distribution to owners in their capacity as owners. This may impact on the presentation and classification of Crown land held by the Board where the Crown land is to be sold by the Department of Regional Development and Lands (formerly Department for Planning and Infrastructure). The Board does not expect any financial impact when the Standard is first applied prospectively.
AASB 2009-2	<i>Amendments to Australian Accounting Standards – Improving Disclosures about Financial Instruments AASB 4, AASB 7, AASB 1023 and AASB 1038</i> . This Standard amends AASB 7 and will require enhanced disclosures about fair value measurements and liquidity risk with respect to financial instruments. There is no financial impact resulting from the application of this Standard.

**Future impact of Australian Accounting Standards not yet operative**

The Board cannot early adopt an Australian Accounting Standard unless specifically permitted by TI 1101 'Application of Australian Accounting Standards and Other Pronouncements'. Consequently, the Board has not applied early the following Australian Accounting Standards that have been issued and which may impact the Board. Where applicable, the Board plans to apply these Standards and Interpretations from their application date:

Title	Operative for reporting periods beginning on/after
<p><i>AASB 2009-11 'Amendments to Australian Accounting Standards arising from AASB 9 [AASB 1, 3, 4, 5, 7, 101, 102, 108, 112, 118, 121, 127, 128, 131, 132, 136, 139, 1023 and 1038 and Interpretations 10 and 12]'</i></p> <p>The amendment to AASB 7 requires modification to the disclosure categories of financial assets. The Board does not expect any financial implications when the Standard is first applied. The disclosure of categories of financial assets in the notes will change.</p>	1 January 2013
<p><i>AASB 1053 Application of Tiers of Australian Accounting Standards.</i></p> <p>This Standard establishes a differential financial reporting framework consisting of two tiers of reporting requirements for preparing general purpose financial statements.</p> <p>The standard does not have any financial impact on the Board. However it may affect disclosures in the financial statements of the Board if the reduced disclosure requirements apply. DTF has not yet determined the application or the potential impact of the new Standard for agencies.</p>	1 July 2013
<p><i>AASB 2010-2 Amendments to Australian Accounting Standards arising from Reduced Disclosure Requirements.</i></p> <p>This Standard makes amendments to many Australian Accounting Standards, including interpretations, to introduce reduced disclosure requirements into these pronouncements for application by certain types of entities.</p> <p>The Standard is not expected to have any financial impact on the Board. However this Standard may reduce some note disclosures in the financial statements of the Board. DTF has not yet determined the application or the potential impact of the amendments to these Standards for agencies.</p>	1 July 2013

**Changes in accounting estimates**

The Board reassessed the remaining useful life of its three building assets from 1 July 2009 to be 50 years. The effect on the current and future periods of the change in remaining useful life of these assets is a slightly lower depreciation expense as the consumption of service potential of the buildings will now occur over a greater length of time. The estimated useful lives of the Board's three building assets will continue to be reassessed on an annual basis.

(a) Service appropriations are accrual amounts reflecting the net cost of services delivered. The appropriation revenue comprises a cash component and a receivable (asset). The receivable (holding account) comprises the depreciation expense for the year and any agreed increase in leave liability during the year.

(b) Discretionary transfers of assets between State Government agencies are reported as assets assumed/(transferred) under Income from State Government. Non-discretionary non-reciprocal transfers of net assets, other than those resulting from a restructure of administrative arrangements, have been classified as Contributions by Owners (CBOs) under TI 955 and are taken directly to equity.

(c) Where assets or services have been received free of charge or for nominal cost, the Board recognises revenues equivalent to the fair value of the assets and/or the fair value of those services that can be reliably measured and which would have been purchased if they were not donated, and those fair values shall be recognised as assets or expenses, as applicable. Where the contribution of assets or services are in the nature of contributions by owners, the Board makes an adjustment direct to equity.

**32. Commitments**  
**Capital expenditure commitments**

Capital expenditure commitments, being contracted capital expenditure additional to the amounts reported in the financial statements, are payable as follows:

Within 1 year	88	-
	88	-

**Lease commitments**

Commitments in relation to leases contracted for at the end of the reporting period but not recognised in the financial statements are payable as follows:

Within 1 year	36	43
Later than 1 year and not later than 5 years	15	52
	51	95

The six motor vehicle leases are all cancellable operating leases with lease expenditure payable monthly in advance. These lease commitments are all inclusive of GST.

**Other expenditure commitments**

Other expenditure commitments for an art exhibition contracted for at the end of the reporting period but not recognised as a liability, are payable as follows:

Within 1 year	613	-
	613	-

**33. Contingent liabilities and contingent assets**

At the reporting date, the Board of the Art Gallery of Western Australia had no contingent liabilities or assets.

**34. Events occurring after the balance sheet date**

The Board has no subsequent events (other than those events whose financial effects have already been brought to account) to report.

**35. Explanatory Statement**

Significant variations between estimates and actual results for income and expense are shown below. Significant variations are considered to be those greater than 10% and \$100,000.

**Significant variances between estimated and actual result for 2010**

	<b>2010 Estimate \$000</b>	<b>2010 Actual \$000</b>	<b>Variation Over/(Under) \$000</b>
<b>Expenses</b>			
Supplies and services	3,491	2,574	(917)
Depreciation and amortisation expense	567	806	239
<b>Income</b>			
Donated works of art	400	2,224	1,824
Bequest trust and special purpose funds contribution received	1,304	1,446	142
Bequest trust and special purpose funds interest received	716	885	169
Other revenue	757	441	(316)

**Supplies and services**

Supplies and services was below estimates for the year largely because of a delay in capital works projects that were expected to be expensed, an underspend/savings in the delivery of the exhibition *McCubbin Last Impressions 1907-17* and an underspend in staff travel.

**Depreciation and amortisation expense**

Estimates for depreciation are based on the level of funding (accrual appropriations) provided by Government for the purpose of asset replacement. The level of funding when the Board approved the Gallery budget reflected the level of funding provided in the prior year. The funding was increased late in 2010 to \$820,000.

**Donated works of art**

The estimate for donated works of art is based on an average of past contributions. The level of donated works from year to year does not necessarily follow trends, as these works are donated at irregular intervals and are often the result of long-standing relationships between the donors and the Art Gallery of Western Australia.

**Bequest trust and special purpose funds contributions received**

Contributions received were greater than estimated during the year mainly due to an increase in fundraising from the private sector towards the TomorrowFund, a legacy fund for the acquisition of new contemporary works for the Art Gallery of Western Australia.

**Bequest trust and special purpose funds interest received**

The favourable variance in interest revenue is mainly attributed to a steady increase in interest rates during the year coupled with higher than expected interest-earning contributions. The budget was set conservatively with no increases in rates factored in.

**Other revenue**

Other revenue was less than estimated for the year due to the delay in the receipt of a grant that is now expected to be received in 2011.

**Significant variances between actual results for 2009 and 2010**

	<b>2010</b>	<b>2009</b>	<b>Variance</b>
	<b>\$000</b>	<b>\$000</b>	<b>Over/(Under)</b>
			<b>\$000</b>
<b>Expenses</b>			
Supplies and services	2,574	2,314	260
<b>Income</b>			
User charges and fees	560	264	296
Donated works of art	2,224	576	1,648
Bequest trust and special purpose funds contribution received	1,446	927	519

**Supplies and services**

The increase in expenditure is mainly due to a contract payment made in 2010 for a 2011 major exhibition.

**User charges and fees**

The increase from prior year is due to admissions income collected in 2010 for the exhibition *McCubbin Last Impressions 1907-17* (there were no exhibition admissions collected in 2009) and ticketing revenue collected for ARTBAR 2009 and 2010 during the 2010 financial year.

**Donated works of art**

The greater level of donated works in 2010 is mainly due to the donation of one major work during the year. The level of donated works from year to year, however, does not necessarily follow trends as these works are donated at irregular intervals and are often the result of long-standing relationships between the donors and the Art Gallery of Western Australia.

**Bequest trust and special purpose funds contributions received**

2010 trust fund contributions were greater than 2009 due to an increase in fundraising from the private sector towards the TomorrowFund, a legacy fund for the acquisition of new contemporary works for the Art Gallery of Western Australia.

## 36. Financial Instruments

### (a) Financial Risk Management Objectives and Policies

Financial instruments held by the Board are cash and cash equivalents, restricted cash and cash equivalents, loans and receivables and payables. The Board has limited exposure to financial risks. The Board's overall risk management program focuses on managing the risks identified below.

#### *Credit risk*

Credit risk arises when there is the possibility of the Board's receivables defaulting on their contractual obligations resulting in financial loss to the Board.

The maximum exposure to credit risk at the end of the reporting period in relation to each class of recognised financial assets is the gross carrying amount of those assets inclusive of any provisions for impairment as shown in the table at Note 36(c) 'Financial Instrument Disclosures' and Note 22 'Receivables'.

Credit risk associated with the Board's financial assets is minimal because the main receivable is the amounts receivable for services (holding account). For receivables other than government, the Board trades only with recognised, creditworthy third parties. The Board has policies in place to ensure that sales of products and services are made to customers with an appropriate credit history. In addition, receivable balances are monitored on an ongoing basis with the result that the Board's exposure to bad debts is minimal. At the end of the reporting period there were no significant concentrations of credit risk.

#### *Liquidity risk*

Liquidity risk arises when the Board is unable to meet its financial obligations as they fall due. The Board is exposed to liquidity risk through its trading in the normal course of business.

The Board has appropriate procedures to manage cash flows including drawdowns of appropriations by monitoring forecast cash flows to ensure that sufficient funds are available to meet its commitments.

#### *Market risk*

Market risk is the risk that changes in market prices such as foreign exchange rates and interest rates will affect the Board's income or the value of its holdings of financial instruments. The Board does not trade in foreign currency and is not materially exposed to other price risks. The Board is not significantly exposed to market risk. The Board has no borrowings or finance leases. Some cash and cash equivalents are interest bearing and restricted cash and cash equivalents are interest bearing however the exposure to market risk for changes in interest rates is minimal as the Board does not rely on interest income for its principal operating activities. Refer to interest rate sensitivity analysis table at Note 36(c).

(b) Categories of Financial Instruments

In addition to cash, the carrying amounts of each of the following categories of financial assets and financial liabilities at the end of the reporting period are as follows:

	<b>2010</b>	<b>2009</b>
	<b>\$000</b>	<b>\$000</b>
<b>Financial Assets</b>		
Cash and cash equivalents	3,083	2,998
Restricted cash and cash equivalents	22,942	18,870
Loans and receivables <sup>(a)</sup>	3,525	2,797
<b>Financial Liabilities</b>		
Financial liabilities measured at amortised cost	1,292	719

(a) The amount of loans and receivables excludes GST recoverable from the ATO (statutory receivable).

(c) Financial Instrument Disclosures

*Credit Risk and Interest Rate Exposures*

The following table discloses the Board's maximum exposure to credit risk, interest rate exposures and the ageing analysis of financial assets. The Board's maximum exposure to credit risk at the end of the reporting period is the carrying amount of financial assets as shown below. The table discloses the ageing of financial assets that are past due but not impaired and impaired financial assets. The table is based on information provided to senior management of the Board.

The Board does not hold any collateral as security or other credit enhancements relating to the financial assets it holds.

The Board does not hold any financial assets that had to have their terms renegotiated that would have otherwise resulted in them being past due or impaired.

## Key Performance Indicator Information

The Art Gallery of Western Australia is a statutory authority within the Culture and Arts portfolio, and its annual budget and outcome are included in the budget statements under the outcome for the Department for Culture and the Arts (DCA).

The Gallery services contribute within the portfolio framework primarily to the Government Goal:

*“Greater focus on achieving results in key service delivery areas for the benefit of all Western Australians.”<sup>4</sup>*

The Government Desired Outcome for the Gallery is that:

*“Western Australia’s natural, cultural and documentary collections [State Art Collections] are preserved, accessible and sustainable.”<sup>5</sup>*

The funds allocated to the Gallery to achieve its outcomes are allocated under the DCA service 4 ‘Art Gallery Services’. Art Gallery Services are identified as:

*“Delivery of the State Art Collection and access to art gallery services and programs through visual arts advocacy, collection development, facilities and services. Services ensure that primary access to art, heritage and ideas locally, regionally and internationally are preserved and displayed for future generations.”<sup>6</sup>*

Key performance indicators have been developed in accordance with Treasurer’s Instruction 904 to evaluate the Gallery’s performance in achieving the Government Desired Outcome and provide an overview of the critical and material aspects of service provision.

### Preservation

*Indicator 1: The extent to which the part of the State Art Collection that requires preservation is preserved*

An indicator of the level of preservation is the proportion of time that the storage and display environment is not breached.

Key Effectiveness Indicators	2007-08 Actual	2008-09 Actual	2009-10 Actual	2009-10 Target
Proportion of time that the storage and display environment has not been breached	97%	99%	98%	99%

---

<sup>4</sup> 2009-10 Budget: Budget Statements, vol. 3, part 11, p.663.

<sup>5</sup> Ibid.

<sup>6</sup> Ibid., p. 667.

### *Explanatory notes*

The environment within which artworks are stored and displayed is a principal indicator of the effort being taken to preserve them for future generations. Indicators of the 'storage and display environment' are temperature and relative humidity. The Gallery uses the generally agreed international standards for temperature of 21° C ± 2° C and relative humidity of 50% ±5% as the benchmarks. In calculating the proportion of time that the storage and display environment has not been breached, that is the proportion of time temperature and humidity have been within the accepted standards, the Gallery uses a composite average of the environmental data from the three principal storage and display environments within the Art Gallery: the main Gallery, the Centenary Galleries and the Collection Stores. Averages for these are calculated at 99%, 96.4% and 99.6% respectively. On average the Gallery maintained the storage and display environment within the standards for 99.8% of operational hours.

### **Accessibility**

*Indicator 2.1: The extent to which art gallery services are accessible*

An indicator of accessibility is the number of visitors to the Gallery per head of population of Western Australia.

Key Effectiveness Indicators	2007-08 Actual	2008-09 Actual	2009-10 Actual	2009-10 Target
Number of accesses	586,107	427,779	467,541	380,000
Number of accesses to Western Australia's State Art Collection per capita. <sup>7</sup>	277 per 1,000	199 per 1,000	206 per 1,000	176 per 1,000

### *Explanatory notes*

Accesses are determined by the number of attendances, Internet user sessions (website hits) and attendances at venue hire functions. Accesses are expressed per capita, based on the population of WA. The number of Gallery visitors was 350,311 and 12,287 people attended functions for a total of 362,598 attendances. The website unique visitors totalled 104,943.

Despite the Gallery being closed on Tuesdays from 1 July 2009 the overall number of accesses was considerably higher than the previous year. The increased number of daily visitors reflects the popularity of exhibitions and programs. Improvements to website design and content saw a 35% increase in website visitors over 2008-09.

Following a review of the people counting methodology the number of visitors includes visitors entering the Gallery both by the main entrance and by the café entrance. Figures from the café entrance into the Gallery were not included in the actuals for previous years. The actuals and the number of accesses in the above table for the previous years have been re-calculated to include the café entrance figures in order to provide a consistent basis of comparison with the current year figures.

---

<sup>7</sup> Population (Per Capita) based on ABS data table for WA at time of annual reports: 2007-08 = 2,112,872; 2008-09 = 2,146,000. For 2009-10 = 2,270,300 (based on ABS 3101.0 Dec. 2009, released 24 June 2010).

The previously reported figures for the preceding two years were:

Key Effectiveness Indicators	2007-08 Actual	2008-09 Actual
Number of accesses	519,091	382,814
Number of accesses to Western Australia's State Art Collection per capita.	246 per 1,000	178 per 1,000

*Indicator 2.2: The extent to which art gallery services are accessible*

An indicator of the effectiveness of the Gallery in providing for the enjoyment and cultural enrichment of the people of Western Australia is shown by client satisfaction with Gallery art services. The Gallery engages a market research firm to survey customers.

Key Effectiveness Indicator	2007-08 Actual	2008-09 Actual	2009-10 Actual	2009-10 Target
Percentage of clients satisfied with the services associated with accessing Western Australia's State Art Collection.	91%	93%	88.7%	91%

*Explanatory notes*

Client satisfaction with art gallery services is primarily measured by surveying visitors to the Gallery to determine how satisfied they have been with the displays and programs. Satisfaction is measured by a statistically valid survey. The market research consultants have advised that the sample used 'provides a maximum survey error of  $\pm 4.9\%$  at the 95% confidence level'. The customer satisfaction survey is conducted by Synovate. Of the questions answered by customers, the prime response is to the question 'What was your overall satisfaction with your visit to the Gallery today?'

Overall satisfaction was high with 43.7% 'very satisfied' with their visit to the Art Gallery and 45% were 'satisfied' (so net satisfaction of 88.7%). The 2009-10 result shows a slight overall decrease in satisfaction rates and dissatisfaction increasing to 6.1%. A total of 5.2% of visitors were neutral. The satisfaction rating correlates very closely to the satisfaction level with exhibitions on display at the time of the survey.

**Sustainability**

*Indicator 3: The extent to which the State Art Collection and art gallery services are sustainable*

The sustainability measure has moved from 0.73% in 2008-09 to 0.45% in 2009-10.

Key Effectiveness Indicator	2007-08 Actual	2008-09 Actual	2009-10 Actual	2009-10 Target
Value of State Art Collection renewal, content development and/or expansion as a proportion of Collection value.	0.69%	0.73%	0.45%	0.69%

### *Explanatory notes*

The Gallery is sustainable if, on an ongoing basis, it has the capacity to build its Collection, develop content for publications, displays and exhibitions and maintain the physical integrity of the State Art Collection. A gauge of this sustainability is represented by the direct costs associated with these activities as a proportion of the total value of the State Art Collection. As the value of the Collection increases, if the funds available to maintain these activities remain stagnant or are reduced, the sustainability indicator decreases. The sustainability indicator is based on a 5-year rolling average of the annual direct costs as a proportion of the value of the State Art Collection.

The decline in sustainability reflects the ongoing decrease of Gallery resources dedicated to these activities.

### **Efficiency indicators**

*Indicator: The average cost of art gallery services per Art Gallery access.*

Key Efficiency Indicator	2007-08 Actual	2008-09 Actual	2009-10 Actual	2009-10 Target
Average cost of art gallery services per Art Gallery access.	\$18.45	\$25.89	\$24.22	\$27.69

### *Explanatory notes*

The average cost relates the level of resource input to the services provided. This indicator is arrived at using the following formula:

$$\frac{\text{Total cost of services}^*}{\text{Number of accesses}}$$

*\*Note. The total cost of services excludes DCA overheads.*

As noted above under Indicator 2.1, following a review of the people counting methodology the numbers of visitors for preceding years have been re-calculated. The revised access figures for previous years are used in the above table to provide a consistent basis of comparison with the current year figures.

The previously reported figures for the preceding two years were:

Key Efficiency Indicator	2007-08 Actual	2008-09 Actual
Average cost of art gallery services per Art Gallery access.	\$20.84	\$28.93

## **Ministerial directives**

No ministerial directives were received during the year.

## **Other financial disclosures**

### **Pricing policies**

Most Gallery exhibitions are presented free of charge to the public. When major exhibitions are mounted as a joint venture with another institution, the ticket cost for such exhibitions is based on a contractual negotiation with the joint venture partner. Typically the cost of ticket entry is \$12, which contributes towards the cost of the exhibition.

### **Capital works**

The Art Gallery's capital works program includes projects that are funded from Government capital appropriations. Details of the major completed works and purchases are outlined below.

### **Completed capital projects**

As with most organisations, commissioning minor works in the current economic climate, sourcing reasonable quotes and completing projects has been problematic. The Gallery has, however, continued with its capital works and maintenance program during 2009-10 as follows.

The special maintenance fund allocated to the main gallery exterior block-work was used to perform an investigation and report on cladding options for the Gallery Main Building façade.

Significant purchases included PC replacement and associated equipment.

### **Capital works in progress**

There were no major capital works commenced during the year that remained in progress at the end of the financial year.

Art Gallery staff are employees of the Department of Culture and the Arts. Human resource services are provided by the Human Resource Unit of the Department of Culture and the Arts. They provide specific advice on compliance with the Standards in regard to recruitment, transfer, secondment, redeployment, termination, discipline, temporary deployment and grievance resolution. Shared services to support the processing of human resource functions are also provided.

Compliance with the Public Sector Standards and Ethical Codes is assessed by several different methods, including regular internal and external reviews of related procedures and staff feedback. No compliance issues arose during 2009-10 in regard to Public Sector Standards, the WA Code of Ethics or the Department of Culture and the Arts Code of Conduct:

Initiatives in 2009-10 to prevent non-compliance included:

- support attendance of Art Gallery management at forums on human resource management standards, particularly those pertaining to recruitment, selection and appointment.
- maintaining information on standards and codes of conduct including on the departmental intranet and continuing to promote it as an important part of the induction program for new staff.

- a performance management system, the Staff Development System, is in operation and all staff participate in the process. This process meets the requirements of Public Sector Standards in Human Resource Management for Performance Management.

### **Record-keeping plan**

During 2009-10 the Gallery maintained the delivery of a cohesive record-keeping program bound by policy, procedure and a planned approach to improving record-keeping at the Art Gallery of Western Australia. A particular focus has been the supporting of improved electronic record-keeping within the organisation with a project to review and arrange electronic files on a shared server according to the Gallery's record-keeping system. The project also ensured that information on electronic files have been captured in the record-keeping system.

The quality of record-keeping has been tested as a part of various audits which have included an evaluation of the recordkeeping. The Gallery has had no significant findings in relation to recordkeeping.

## Appendix G – Exhibitions

2009

### ***Black Manor House and White Orchid wall works Helen Smith and Jeremy Kirwan-Ward***

4 April 2009 - January 2010

Two well-known and highly regarded Perth based artists created an artwork in situ. The work created an architectural intervention that looks back to the past but embraced the present in the visitors' area between galleries one and two. It referenced both traditional and contemporary notions of beauty and nostalgia being a combination of wall paper and hard edged painting applied directly on the gallery walls.

### ***Artist in focus David Walker: Anatomy of the object***

27 June – 18 October 2009

The exhibition traced the artist's past and current practice and included works from his student days to new works made specifically for this exhibition. David Walker was initially trained in silver smithing, ceramics and industrial design in Manchester, England. After his arrival in Perth in 1964, he then turned to jewellery making and made an immediate and enduring impact on local, national and international craft and design fields as an artist, craftsman, educator and mentor.

### ***Artist in focus Mari Funaki, works 1992 -2009***

27 June – 18 October 2009

Mari Funaki is one of Australia's leading jewellers and this exhibition celebrates her considerable achievements between 1992 to the present day. The exhibition was her first major exhibition in a State Gallery and included nearly fifty objects. This was the first time Perth audiences have seen her work in depth with many of these new works being produced especially for this exhibition. Unfortunately, Mari Funaki passed away in May 2010 adding to the significance of the presentation at the Gallery.

### ***Western Australian Indigenous Art Awards 2009***

25 July – 15 November 2009

The sixteen finalists for the *Western Australian Indigenous Art Awards 2009* represented artists from across the continent working in a dynamic range of media, including sculpture, painting and photography. The exhibition incorporated eight Western Australian artists and eight from across Australia.

The winner of the \$50,000 Western Australian Indigenous Art Award was Ricardo Idagi, with Lorraine Connelly-Northey highly commended in this category. Warkartu Cory Surprise was the winner of the \$10,000 Western Australian Award, with Christopher Pease being highly commended in this category.

The People's Choice Award of \$5,000 went to Shane Pickett for a second year running. Sadly this artist also passed away in January 2010.

***Abstract Earth: The Photography of Richard Woldendorp'***

1 August – 8 November 2009

With a career that spans more than 50 years, there are few aspects of Australian life that Richard Woldendorp has not photographed. This exhibition depicted the Australian landscape from a unique perspective – the sky. From his aerial vantage point he has photographed, with great skill and precision, shifting tides, moving sands, the reflective waterways, roads, farmed regions, forests and more. Richard Woldendorp has created a unique and important body of work that challenges how we experience and understand our place within the Australian landscape.

***McCubbin: Last Impressions 1907-17***

11 December 2009 – 29 March 2010

The national touring exhibition from the national gallery of Australia *McCubbin: Last Impressions 1907–17* was a fresh look at Frederick McCubbin's late work, concentrating on the last 11 years of his life when he produced his most vibrant works, expressing his sense of delight in, and comfort within, the Australian landscape. This was the first comprehensive Frederick McCubbin exhibition to be held in Perth in 18 years and featured 76 works from the major galleries in Australia, including 25 rarely seen works from private collections.

For well over a century, Frederick McCubbin has been one of Australia's best-loved artists. *McCubbin: Last Impressions 1907–17* included a range of paintings from all his areas of interest including landscapes, seascapes, views of docks and industry, city life, portraits and interiors. These are some of Australia's greatest works of the Federation period.

## 2010

### ***Year 12 Perspectives 2009***

20 February – 31 May 2010

The exhibition *Year 12 Perspectives* presents work by the best of our graduating State's Year 12 Art and Art & Design students and has become a much-loved fixture on the Art Gallery's annual calendar. This exhibition includes paintings, prints, textiles and sculpture and is an important community based event on the Art Gallery calendar which attracts over 60,000 visitors. It is also a key focus for secondary art students and teachers.

*Year 12 Perspectives* is now in its eighteenth year and is an important community based event. This year works by 67 young artists from across Western Australia have been selected. In a continuing commitment to cross-cultural engagement, works from young artists in Japan are also featured in the exhibition, through the generous support of the International Foundation for Arts and Culture.

A selection of work by West Australian students is exhibited Japan. This year the exhibition also toured to Karratha and Geraldton.

### **Patricia Piccinini 'RELATIVITY'**

1 May – 22 August 2010

Patricia Piccinini is one of Australia's most acclaimed contemporary artists having received worldwide attention for her startling sculptures and digital environments that blend species in the frontier world of experimental bio-technological intervention. It is a both strange and beautiful world where she explores the unending connectivity of her fantastical creatures, new communities and bio-ethical conundrums. The sculptures give form to her fascination with the relationship between the 'natural' and the 'artificial'. The exhibition included a n extraordinary new work site-specific work *Aloft 2010* to engage with the Gallery's own concourse area.

Patricia Piccinini: '*RELATIVITY*' is the first major survey of the artist's sculptural works in Western Australia. Patricia Piccinini represented Australia at the 50<sup>th</sup> Venice Biennale in 2003 and has had solo exhibitions in Japan, the United States, Peru, and Spain; and at the Museum of Contemporary Art in Sydney, the Australian Centre for Contemporary Art in Melbourne, the National Gallery of Victoria and the Tasmanian Museum and Art Gallery.

## **State Art Collection Displays**

### **Built**

7 November 2009 – 24 April 2011

This themed display is drawn from the State Art Collection featuring a recent major acquisition by Callum Morton, a sculptural installation entitled *Monument #23 Slump 2009*, and Narelle Jubelin's elegant installation *Soft Shoulder 1994*. Both works deal with the legacy of modernism through architecture and focus on the life of objects. The presentation marked the move of the State Art Collection permanent displays to the ground floor.

### **Body**

21 November 2009 – 6 February 2011

This second themed ground floor display of artworks from the State Art Collection takes the human body as its starting point. *Body* focuses on corporeality in many guises, from the seemingly simple representation of the human form, to artworks by Indigenous Australian artists that are drawn from ceremonial markings on the human body, to works by contemporary artists that are determined by the physical body of the artist to seek to include the body of the viewer within their realm. The display incorporated a dedicated interactive space for children.
