About our report

Welcome to our 2017-18 Annual Report. We hope you find this report valuable in understanding our performance and the services we delivered during the year to inform Parliament on public sector accountability and performance.

You can access this and earlier annual reports on our website at www.audit.wa.gov.au.

We have structured this report around the 4 result areas of our Strategic Plan – Our People, Our Tools, Our Approach and Our Products. It also describes our functions and operations, and presents the audited financial statements and key performance indicators for the year ended 30 June 2018.

Our front cover prominently displays Western Australia. The introduction of local government auditing in October 2017 (page 12), has significantly broadened our role in auditing the state public sector for the benefit of Western Australians. This year, more than any other year, we have travelled the state to explore and implement our new mandate.

Feedback

We welcome your feedback and comments about our Annual Report so we can improve the value of future reports. You can contact us by:

• sending an email <info@audit.wa.gov.au>
• writing to us <PO Box 8489, PERTH WA 6849>

About us

The Auditor General is an independent officer of Parliament with responsibility for auditing the public sector. The Auditor General has complete discretion in the performance of these functions. This independence and freedom from pressure, influence or interference is the cornerstone of public sector audit.

Ms Caroline Spencer (page 7), was appointed Auditor General for a non-renewable term of 10 years in May 2018, in accordance with the Auditor General Act 2006 (AG Act).

The Office of the Auditor General (OAG) supports the Auditor General and is one of the largest audit practices in Western Australia. The OAG is a department of the public service and the Auditor General is the Chief Executive Officer and employer of staff.

As figure 1 shows, the Auditor General reports directly to Parliament. Three parliamentary committees have oversight of our operations – Public Accounts Committee (PAC), Estimates and Financial Operations Committee (EFOC) and Joint Audit Committee (JAC).

Figure 1: OAG reporting structure to Parliament
Our main clients are Parliament, state and local government entities, and the people of Western Australia

The Auditor General is responsible for:

- auditing the Annual Report on state finances
- conducting annual financial statement, key performance indicator (KPI) and control audits, and issuing audit opinions for departments, statutory authorities, tertiary institutions and corporatised entities
- conducting annual financial statement audits and issuing auditor’s reports for local governments
- undertaking wide-ranging performance audits to ensure there are adequate controls within state government agencies and local governments, compliance with relevant legislation, and most importantly efficiency, effectiveness and economy of operations or programs
- reporting the results of audits to Parliament in an objective, competent, insightful and timely manner.
Our main clients are Parliament, state and local government entities, and the people of Western Australia.

In the past 12 months we completed financial audits of 183 state agencies and subsidiaries that had a combined worth of over $228 billion in assets.

We also assess the efficiency and effectiveness of agencies and local governments and their programs through performance audits. In 2017-18, we conducted and reported on 27 performance audits, involving over 74 agencies, that included 98 recommendations.

We deal with state agencies employing over 140,000 people that provide hugely diverse public services, including education, health, community services, justice, energy, natural resource management and economic development.

This year, we also started our first annual financial statement audits of 46 local governments, and will progressively take on the annual financial statement audits of all remaining local governments by 2020-21 (page 134).

The state’s 139 local governments and 9 regional councils employ over 15,000 people, spend nearly $4 billion on service delivery and infrastructure and manage more than $40 billion in assets. They deliver core services in their community including waste, roads, parks, playgrounds and gardens, planning and development approvals, public health and various licensing requirements.

We achieved this with a budget of $26.1 million and just over 145 people and the professional resources of our contract audit firm partners.

We have a diverse cultural and social workforce and our people also come with a range of qualifications and experiences well beyond simply auditing. We are very proud of this diversity because it strengthens our capacity and culture, and makes the OAG a more enjoyable place to work.

---

Our vision
Serving the public interest by an informed Parliament and community

Our mission
To help improve public sector performance and accountability by reporting independently to Parliament and entities.

Our values
We are committed to our values of:

- **Integrity** – we conduct our business in an independent, professional and ethical manner. We apply an open, honest and fair approach to our stakeholders.
- **Quality** – we provide credible work that makes a difference. We take pride in our work and strive to deliver above expectations, using continuous improvement opportunities to improve our efficiency and effectiveness.
- **Respect** – we value the contribution of our people, our clients and the community, and encourage a collaborative approach to our work.
CASE STUDY  
Taking opportunities to meet our audited entities

With our new mandate to audit local governments, we have been taking every opportunity to get around the state and meet with local governments big and small, metropolitan and regional.

While we are well placed to take on the audits, we appreciate we have a lot to learn about local governments, how they operate and how they differ to state government agencies and also each other.

Throughout 2017-18 our Executive attended 17 Western Australian Local Government Association (WALGA) zone meetings and in June, the Auditor General presented at the Local Government Professionals North West Conference in Broome.

The event was an opportunity for us to share information and answer questions about audit, and also to learn about some of the issues facing smaller regional local governments.

The trip to Broome was also a chance for the new Auditor General and members of our Executive to see firsthand the operations of some of the state government agencies we audit including the Broome Court House, North Regional TAFE, the Broome Regional Prison, Broome Police Station and Kimberley Ports Authority. They also met with the Kimberley District Leadership Group comprising Commonwealth and state government entities including communities, health, justice, education and police.

Meeting with our audit clients is not only valuable for establishing relationships, but also strengthens our understanding of agencies and local governments, providing greater context for our audit reports.

Figure 2: Maritime training facilities at North Regional TAFE (top) and Broome Port (bottom)
Following 10+ rewarding and memorable years, my term as Auditor General officially ended on 27 May 2018. It has been a privilege to serve the Parliament and the wider community in this role and I can reflect positively on what my team and I have been able to achieve. I am proud to leave my successor, Caroline Spencer, well positioned to take on this important role for the next 10 years.

The role of Auditor General has a long history, here and in other jurisdictions. I believe it has not only survived, but become increasingly relevant for 2 reasons:

1. The model continues to be sound. There is a continuing need for an independent auditor to provide assurance to Parliament and the community on public sector accountability.

2. The role of the Auditor General has changed over time, adapting to meet the changing requirements of Parliament.

In Australia, and most certainly in Western Australia, we have seen an increasingly complex environment of government service delivery. More and more our governments are implementing alternative mechanisms for service delivery arrangements – such as public-private partnerships, outsourcing arrangements, joint ventures and the involvement of non-government organisations. We have also seen an increasing number of initiatives that are federally-funded but where the actual service delivery lies with the states and territories.

Here in WA, over the last few years we have also seen a series of restructures and machinery of government changes, which have changed the operational landscape for many agencies, as well as the TAFE and health services sectors.

Indeed, our public sector is evolving, and our accountability, transparency and assurance mechanisms need to keep pace with this evolution. I am pleased to say in my experience over the last 10+ years, that for the most part the role and function of the Auditor General continues to evolve and play an integral part of the Westminster system of parliamentary democracy.

A recent example of this evolution was the Local Government Amendment (Auditing) Act 2017, which gave the Auditor General the mandate for financial and performance audits of local governments. This is an important step in increasing transparency and accountability of local governments, providing assurance to Parliament and the wider community.

A number of professional relationships contribute to the success of the Office. I would like to thank my colleagues from the Australasian Council of Auditors-General and the Integrity Coordinating Group for the information sharing, support and strong working relationships.

I also thank the Parliament of Western Australia and in particular, the past and current members of the Public Accounts Committee and the Estimates and Financial Operations Committee for their continued support and interest in the work of the Office.

Finally, I acknowledge the hard work, professionalism and dedication of my Executive team and staff. I hand over the reins to Caroline with great pride – the quality work we do is important and does make a difference. But I take little credit for it – an AG can only be as good as the team they lead and I have been fortunate over the last 10+ years to have had a great team working with me.

Colin Murphy PSM
Auditor General 2006-2018
At 25 May 2018
From the Auditor General

I feel privileged to be serving the Parliament and people of Western Australia in this important role. In 2015, I was appointed by the WA Parliament’s Joint Audit Committee to lead a review, required by legislation, of the performance of the OAG. I found this was a very well-functioning Office, with no fundamental failings, albeit with a few opportunities for improvement.

And so far, since commencing as Auditor General, my view has not changed. As demonstrated throughout this annual report, this is a great audit office, with highly skilled and passionate people delivering quality work that matters to Parliament and the community.

However, this is a time of increased expectations and some change for the OAG. Most significantly we have the introduction of local government auditing (pages 12-13).

More broadly, we are in a period of extensive public sector reform. Machinery of Government changes have touched most agencies and with that comes increased risk around governance and controls as people, systems and responsibilities move, merge and evolve.

Beyond the sector, our profession is changing. The use of data analytics has the potential to change the way we operate in delivering efficient, effective audits that capture a broader sample than traditionally economical. There is also the ever-challenging expectation of what audit is and what it is not.

Underlying all this is the erosion of trust in public institutions. As public sector auditors, we have a unique and challenging role in holding governments to account while not recklessly eroding public trust further. Our reports must provide balance when informing decision-makers and the community of what is working well and what can be improved.

To build on the strong legacy of my predecessors and keep the best of the heart and soul of this Office, while adapting to the change around us, is my aim. To continue turning out high quality work, while building the capacity of those we audit and those who assist us, particularly in the regions, in a time of increased output will not be without its challenges.

Throughout this report we have highlighted some of the key initiatives we will be progressing throughout 2018-19 and beyond. In particular, the 4 key focus areas my Executive team and I are committed to advancing in the next 12 months are:

• increased efficiency-focused performance audits to identify potential savings (page 53)
• securing the impact of the work of the OAG through better practice guidance to assist the broader public sector and improve the work of state and local government audit committees (page 77).

Since starting in this role in late May, I have met with over 100 key stakeholders, including the Public Accounts Committee, the Estimates and Financial Operations Committee, many Members of Parliament, a large number of chief executive officers and board and audit committee Chairs, local governments, contract audit firms, the Australasian Council of Auditors General, professional groups and so forth. The message coming loud and clear from all these interactions is that the role of this Office is highly valued and respected.

I look forward to working across the public sector and beyond to continually learn and improve in our own operations and identify those things that we can share across the state and local government sectors. In this way we will continue to add value and continue to be respected for it.

Caroline Spencer
Auditor General
About our new Auditor General
Caroline Spencer began her 10-year term as Western Australia’s 19th Auditor General on 28 May 2018

Caroline Spencer
BBus, FCPA, CA, GAICD, FGIA, FCIS

From a personal perspective the role of Auditor General is a position I feel immensely privileged to hold. My passion lies in promoting accountability and continuous improvement across the public sector and the audit profession – to enhance trust and performance for the benefit of the communities we serve.

I have worked in small and large professional services firms in Sydney and Canberra, undertaking engagements across Australia and overseas in the private, public and non-profit sectors. It was my move to Canberra with one of the then ‘Big 5’ accounting firms that sparked my deep interest in the public sector. I enjoyed the challenge of engaging with matters on a whole-of and cross-jurisdictional scale, examining agencies and programs that deliver essential services and have an impact on people’s lives.

I co-founded a professional services firm 10 years ago and led a team of financial and performance audit professionals specialising in public sector audit and governance. I have held appointments on a number of public sector boards and audit committees.

In my auditing work across jurisdictions and regions, I continue to see the social and economic impact of the vagaries of the seasons and the importance of resilient rural communities, which was impressed upon me from an early age. I was raised in Sydney with roots in rural NSW – although we lived in the city, my parents were partners in a 4000-acre beef cattle property until I was 11 years old, and we spent many weekends and holidays there. Connection with Australia’s rural landscapes and people remains important to me.

I moved with my husband and two sons to Western Australia in May 2018 to commence my 10-year term as the state’s 19th Auditor General. We are looking forward to further exploring this magnificent state and discovering its unique places and stories.

Figure 3: Caroline Spencer was sworn in by the Governor of Western Australia, His Excellency The Honourable Kim Beazley AC
Year in review

Our results

Overall member of Parliament satisfaction:
92%

Overall auditee satisfaction:
82% financial audits
67% performance audits

Average days to issue financial audit opinions:
65

We audited

State agencies
183 agencies and subsidiaries
with over 140,000 employees
managing $228 billion in assets

Local governments
we started 46 local government financial audits for 2017-18
within 4 years we will audit all 148 local governments and regional councils

We delivered

27 performance audit reports
98 recommendations
233 certifications of financial and statistical information
23 opinions on ministerial notifications
183 opinions on financial statements
Highlights 2017-18

• The Local Government Amendment (Auditing) Act 2017 was proclaimed, giving us the mandate to start local government auditing. We began an active engagement campaign, getting to know our new clients, and tabled our first local government focus area audit reports into Controls Over Corporate Credit Cards (page 74) and Timely Payment of Suppliers (page 76).

• We launched a concerted effort to identify quality, regionally-based firms that may be interested in performing audit work for the OAG. Not only will this assist with our new local government audit program, but importantly, it will also build capacity in the regions and contribute to the economic wellbeing of regional communities (page 47).

• The Special Inquiry into Government Programs and Projects found the Auditor General’s performance audit reports to be a consistently valuable source of information and highlighted the importance of the public sector embracing OAG recommendations. The special inquiry report is available at www.publicsector.wa.gov.au.

• The results of our 2018 members of Parliament survey were again very positive with an emphasis on the clear and concise language in our reports (page 59).

• The results of our 2017-18 survey of financial audit entities were again very positive overall – more so than last year – due to increases in ratings relating to audit reporting and the value of the financial statement audit (page 47).

• We were pleased to host international delegations from the Audit Board for the Republic of Indonesia and from Landgate’s fellowship program for land administration professionals from Argentina and Paraguay (page 61).
Significant issues 2018-19

- As per the Local Government Amendment (Auditing) Act 2017, the Office has taken on 46 local government financial audits for 2017-18. We will then incrementally take on the financial audits of the 102 remaining local governments by 2020-21 (page 134). This represents approximately 80% increase in the number of entities we audit and is the biggest change implemented by the OAG since the introduction of performance audits in 1985.

- We have also expanded our performance audit program to include local government performance audits. As evidenced by the passage of the relevant Bill through Parliament and the associated speeches, there is substantial expectation of what can be achieved through performance auditing of local governments. This is a challenge we are prepared to rise to, acknowledging however that the extent of our performance audit program is determined by the appropriation we receive to do this work, which is growing from $1 million in 2017-18 to $2 million in 2020-21.

- Our publicly stated objective for some time has been to expand the performance audit component of our work to above 30% of the cost of our total audit effort. This recognises the parliamentary and community interest in performance audits and the value these audits can deliver to government, particularly in identifying opportunities for efficiency savings (page 53). However, our annual net appropriation for state sector performance audits and related business support services will progressively decrease from $7.044 million in 2015-16 to $6.310 million for 2020-21. This is mainly due to government initiatives to reduce spending to address the state government budget deficit.

- The Machinery of Government changes continue to be implemented by agencies. As a result, our financial audit effort increased to evaluate the controls and key performance indicators of the new agencies and to verify the transfer of assets and liabilities account balances.

- Government confirmed in its response to the Special Inquiry into Government Programs and Projects (February 2018), that it will ‘extend the powers of the Auditor General to enable access to cabinet documents and documents subject to legal professional privilege’. Over recent years, we have been unable to access some documentation required to form an opinion on notifications, which in worst case scenarios can prevent the issuing of an audit opinion. We are continuing to work with the Department of Treasury to address these issues as part of the current review of the AG Act (page 16).

- Responding to notifications from a Minister under section 82 of the Financial Management Act 2006 is unplanned work that continues to draw resources away from our performance audit program (page 53). We are working with the Department of Treasury about options to have this cost reimbursed.
A significant change
On 28 October, the Local Government Amendment (Auditing) Act 2017 (LG Act) was proclaimed, giving the Auditor General the mandate to audit Western Australia’s 139 local governments and 9 regional councils. Parliament gave the Auditor General this mandate to enhance accountability and transparency across the sector. This change brings WA in line with other Australian states and New Zealand.

The LG Act allowed the Auditor General to start performance and focus area audits from the date of proclamation, while responsibility for financial audits will progressively transition to the Auditor General, as local governments’ existing audit contracts expire.

Preparing for our new mandate
Since November 2017, we have been running recruitment campaigns to ensure the Office is adequately staffed to manage the new mandate.

We have hired performance auditors, financial auditors and non-operational support staff. We have also been running in-house training to equip staff with the necessary knowledge to take on local government audit.

Working with audit firms
As well as getting to know local governments, we have worked extensively with the audit firms who have previously conducted local government financial audits in order to:

- see when their existing audit contracts expire, to determine when we will become responsible for a local government’s audit
- consider if they meet our quality criteria requirements for conducting financial audits and are eligible to be recontracted by the OAG
- preapprove firms so they can tender for state and local government audits.

To allow for an easier transition in the first year we start a local government’s audit, we will appoint their previous audit firm to conduct the audit, given the firm meets our transitional audit quality requirements. In the second year, the audit will go to tender.

Local government audit reform

Getting to know local government

The first phase of communications was pre-and immediately post-legislation, including the issuing of our first 2 focus area audit reports. Our strategy focused on the new legislation, the new role and profile of the Auditor General and the OAG, and the mechanics of how it will all work.

We are now into the second phase of our communications strategy, post-legislation, which incorporates the majority of financial audits transitioning to the OAG and larger-scale performance auditing. Our main aim is to transition local government auditing into an everyday part of what we, and what local governments do.

The OAG is well placed to take on local government audits, with an experienced team of just over 145 full time equivalent staff. However, while we are experts in audit we recognise we are not experts in local government and we are keen to work with existing audit firms and local government to share and benefit from the different experience and knowledge.

To actively engage with local governments, we have:

» established a local government hub on our website including 30 frequently asked questions
» presented and met with councillors and staff at all 17 WALGA zone meetings
» presented and met with staff at 2 Local Government Professionals branch meetings
» attended 4 local government conferences across the state giving presentations and hosting information booths

Focus area audits

In 2017-18 we tabled 2 local government focus area audit reports:

Controls Over Corporate Credit Cards
(see summary page 74)

Timely payment of suppliers
(see summary page 76)

Local government financial audits

The LG Act states responsibility for financial audits will transition to the Auditor General over 4 years, as local governments’ existing audit contracts expire.

For the 2017-18 financial year the OAG is responsible for 46 local government audits. Three will be conducted in house and 43 have been contracted out to accredited audit firms.

This will increase to:

• 112 local governments for 2018-19
• 132 local governments for 2019-20
• All 148 local governments for 2020-21.

Local government performance audits

Our Office is well underway with our first local government performance audit into procurement. The report is expected to table in Parliament in the fourth quarter of 2018.

Unlike financial audits, which are paid for by each local government, performance audits are funded by parliamentary appropriation.

While performance audit will generally include a sample of local governments, our findings and recommendations are likely to be applicable across the whole sector.

Our forward audit program is available on our website – www.audit.wa.gov.au/auditing-in-wa/audit-program/
Organisational structure

Our Office has just over 145 full time equivalent staff and comprises 3 operational and 2 non-operational business units. The operational business units report to the Deputy Auditor General and develop our key products, including the annual financial audits and performance audits that culminate in reports to Parliament. The 2 non-operational business units report directly to the Auditor General and provide corporate, technical and audit quality support.

Don Cunninghame
ASSISTANT AUDITOR GENERAL
Financial Audit
Conducts audits of financial statements, controls and performance indicators, and issues audit opinions. Summarises the results of these audits in a report to Parliament. Also performs across government benchmarking audits and focus area audits.

Jason Beeley
ASSISTANT AUDITOR GENERAL
Performance Audit
Conducts audits into the efficiency and effectiveness of public sector agencies and programs, and agency performance.

Aloha Morrissey
A/ASSISTANT AUDITOR GENERAL
Information Systems and Performance Audit
Conducts narrow scope performance audits, compliance audits, information systems audits and opinions on ministerial notifications.

Michelle Shafizadeh
ASSISTANT AUDITOR GENERAL
Technical and Audit Quality
Provides technical accounting and auditing advice, oversight of audit methodologies, risk management, quality assurance monitoring and key performance indicator and performance auditing.

Sadie Godfrey
ASSISTANT AUDITOR GENERAL
Business Services
Provides workforce and professional development, financial management, information technology, administration, information management, parliamentary liaison, strategic planning and communications.

Sandra Labuschagne
A/DEPUTY AUDITOR GENERAL

Caroline Spencer
AUDITOR GENERAL
Senior officers

The 7 members of the Executive Management Group (Executive) set the strategic direction and organisational values that define the activities of the OAG.

Caroline Spencer  
BBus, FCPA, CA, GAICD, FGIA, FCIS  
Caroline has extensive experience in financial and performance audit across jurisdictions and sectors. Prior to commencing as Auditor General, Caroline was Managing Partner and co-founder of a Canberra-based professional services firm, specialising in public sector audit and governance. Caroline has held a number of predominately public sector board and audit committee roles in several jurisdictions.  
She is a Fellow and non-executive Director of CPA Australia, Chartered Accountant and graduate of the Australian Institute of Company Directors and the Governance Institute of Australia. She has a Bachelor of Business from the University of Technology Sydney.  
Profile on page 7.

Sandra Labuschagne  
BCompt, Hons BCompt CA (SA)  
Sandra joined the OAG in 2012 and became Assistant Auditor General in 2014. Sandra has extensive public and private sector auditing experience in South Africa, New Zealand and Australia.

Don Cunninghame  
BCom, FCPA, CISA  
Don joined the OAG in 1992 after an information systems audit career mainly in the internal audit divisions of large insurance companies. Don has worked in our information systems audit branch, headed our corporate services division, was our chief finance officer and a director of financial audit before being appointed Assistant Auditor General in 2008.

Jason Beeley  
BA Hons (Oxon), Dip Strategic Studies  
Jason joined the OAG in 2006, following 5 years as a commercial and general manager in the defence and technology sectors. Jason previously worked with the UK National Audit Office conducting and managing value for money studies, mainly of the Ministry of Defence. He was appointed Assistant Auditor General in 2009.

Aloha Morrissey  
BBus, Grad Dip Bus Admin, CPA  
Aloha joined the OAG in 2002, and was appointed as a Director in the Information Systems and Performance Audit business unit in 2014. Prior to joining the Office, Aloha held a range of investigation and audit positions with the Australian Securities and Investments Commission and the Australian Taxation Office.

Michelle Shafizadeh  
BBus, FCA, FCPA, FAIM, FGIA, GAICD, MIPAA, Registered Company Auditor  
Michelle joined the OAG in 2010 and became Assistant Auditor General in 2011. Previously, Michelle was the National Assurance Services Technical Director for William Buck Chartered Accountants and before that, a Perth Assurance Services Partner for BDO Chartered Accountants.

Sadie Godfrey  
MBA (Curtin), Assoc Dip Bus (Accounting)  
Sadie has diverse and extensive experience in corporate management, working in the areas of education and industrial relations. Sadie was previously Director of Corporate Services at the Department of the Registrar, Western Australian Industrial Relations Commission before joining the OAG as Assistant Auditor General in 2008.
Enabling legislation

The Governor appoints the Auditor General under the Auditor General Act 2006 (AG Act). The OAG is a department of the public sector under the Public Sector Management Act 1994.

As the accountable authority, the Auditor General must discharge responsibilities under the Financial Management Act 2006 (FM Act).

Looking forward

Review of the AG Act and relevant legislation underway

The Department of Treasury is reviewing legislation key to the operations of the OAG, including the AG Act, FM Act, Western Australian Treasury Corporation Act 1986 and Taxation Administration Act 2003. This follows recommendations made in the Joint Audit Committee’s review of the effectiveness of the AG Act, and other reviews.

We are assisting with this review where appropriate, particularly because there are a number of issues we are keen to see addressed, including:

- access to information restrictions around legal professional privilege and cabinet in confidence material (page 11)
- tabling of annual reports within 90 days of financial year end, which can cause issues if Parliament rises early (page 66).

Key legislation

We have processes and controls in place to ensure that we comply with all state and Commonwealth legislation and regulations that affect our activities, including laws affecting agencies and activities subject to audit by the Auditor General. The following laws have a direct impact on our operations:

- Auditor General Act 2006
- Disability Services Act 1993
- Equal Opportunity Act 1984
- Financial Management Act 2006
- Freedom of Information Act 1992
- Industrial Relations Act 1979
- Local Government Act 1995
- Minimum Conditions of Employment Act 1993
- Occupational Safety and Health Act 1984
- Public Interest Disclosure Act 2003
- Public Sector Management Act 1994
- Salaries and Allowances Act 1975
- State Records Act 2000
- State Supply Commission Act 1991
Performance management framework

State government agencies work together to achieve 4 high level goals and broader strategic outcomes of the Western Australian Government.

<table>
<thead>
<tr>
<th>Government goal</th>
<th>Outcome</th>
</tr>
</thead>
<tbody>
<tr>
<td>Sustainable finances</td>
<td>Responsible financial management and better service delivery</td>
</tr>
<tr>
<td>Future jobs and skills</td>
<td>Grow and diversify the economy, create jobs and support skills development</td>
</tr>
<tr>
<td>Strong communities</td>
<td>Safe communities and supported families</td>
</tr>
<tr>
<td>Better places</td>
<td>A quality environment with liveable and affordable communities and vibrant regions</td>
</tr>
</tbody>
</table>

Table 1: Four state government goals

Agency outcomes are linked to the 4 government goals and the services and activities agencies deliver contribute to achieving the government outcomes.

Through our desired outcome, ‘an informed Parliament on public sector accountability and performance’ we provide oversight of government achievement of its 4 goals, including responsible financial management and better service delivery.

Our desired outcome and the service we provide reflects this:

<table>
<thead>
<tr>

<tr>
<td>Number of approved full-time equivalent (FTE) staff level</td>
<td>145</td>
<td>137</td>
<td>8</td>
<td>–</td>
</tr>
</tbody>
</table>

Table 3: Key elements of our financial performance

The variation in total income other than income from state government and additional FTE was due to audit work undertaken in local government and associated resourcing that was not in the target. A reduction in expenditure on capital projects resulted in an increase in cash balances and the level of cash holdings increasing compared to the target.

Further explanations are contained in Note 9.8 Explanatory statement to the financial statements on page 111.

Key effectiveness performance

Our effectiveness indicator shows the extent to which we have informed Parliament about public sector accountability and performance, against 4 specified categories. Full details of the categories and our performance are available on page 117.

<table>

</tbody>
</table>

Table 4: Our effectiveness indicator – number of performance audit reports

While we were 1 report short to meet our target for this year, we delivered well over our 3-year target. As explained in greater detail on page 117, we set 3-year targets for each report type. This year was the final year in our 3-year target range, which encompassed 2015-16 to 2017-18.

During 2017-18, we reported on a number of opinions on ministerial notifications that resulted in an increase in the number of governance reports tabled. The reallocation of audit resources to these reports resulted in a lower number of economic development and social and environment reports tabled.
Key efficiency performance

Our efficiency indicators measure the cost of our audits relative to government expenditure. Full details of our key efficiency indicators including 5-year trend data are available on page 118.

<table>
<thead>
<tr>
<th>Efficiency indicator</th>
<th>2017-18 Actual $</th>
<th>2017-18 Target $</th>
<th>Status</th>
</tr>
</thead>
<tbody>
<tr>
<td>Total audit cost per million dollars of gross government expenditure</td>
<td>504</td>
<td>495</td>
<td>x</td>
</tr>
<tr>
<td>Attest (financial) audit cost per million dollars of gross government expenditure</td>
<td>372</td>
<td>347</td>
<td>x</td>
</tr>
<tr>
<td>Performance audit cost per million dollars of gross government expenditure</td>
<td>132</td>
<td>149</td>
<td>✓</td>
</tr>
</tbody>
</table>

Table 5: Our efficiency indicators

The increase in attest (financial) audit cost per million dollars of gross government expenditure was due to the additional local government financial audits performed that were not included in the original target.

The performance audit cost per million dollars of gross government expenditure was 11.4% below the target. Our desired strategy was not achieved largely because funding for performance audits has not matched our target to direct 30% of overall audit effort towards performance audits. The actual result was 26%.

The favourable variance between actual and target for the average number of days to issue financial opinions is due to agencies preparing financial statements and key performance indicators in a timelier manner and efficiency improvements in the audit process.

Additional indicator of our performance

Although not audited, we include this indicator because it is important in understanding our operational performance.

Table 6: Parliamentary reports by audit type

While we aim to meet our report targets, we are also at times required to reallocate resources to other audits. During 2017-18, the reallocation of audit resources resulted in a lower number of broad and narrow scope performance audit reports tabled.
Our strategic direction

We are now 2 years in to our Strategic Plan 2016-2020, which was endorsed by Executive in February 2016. Importantly, this plan is dynamic and where necessary – in response to our changing environment, emerging concerns or opportunities – we review the actions, measures and targets to ensure they remain relevant and current so we can be confident that the areas of focus will deliver the required outcomes.

Our strategic plan rotates around 4 key areas of the business that we have identified as important to achieve our vision and mission.

Our People working with Our Tools with the right Approach will deliver Our Products which will fulfil our Outcome:

Work that makes a difference and helps to improve the public sector.

- We have identified that we need our people to be motivated, innovative, collaborative, accountable, valued, skilled and knowledgeable.

- Our tools are vital in supporting our people achieve our goals. We believe our tools need to be robust, efficient, user-friendly, flexible, agile, reliable and compliant.

- Our approach needs to be consistent, fair and balanced, independent, transparent, pragmatic, professional and contemporary.

Together these 3 areas working at an optimum will ensure our products are recognised as value for money, timely, relevant, accurate, quality and innovative.

We have 3 key internal plans which are integrated with our strategic plan to ensure that all areas of the business are working in the same direction to deliver common goals. These are the Workforce Development Plan, Information Technology Plan and Communications Plan.

Figure 4: The OAG Strategic Plan 2016-2020
The new Auditor General and our Executive team are working towards a full review of our existing Strategic Plan to take into account evolving priorities for the OAG. This includes the 2018-19 activities highlighted throughout this report as well as the key priority areas of:

- local government audit reform (page 12)
- monitoring the risks to accountability and transparency and service delivery in a period of significant state sector reform
- increased efficiency-focused performance audits to identify potential savings (page 53)
- securing the impact of the work of the OAG through better practice guidance to assist the broader public sector and improve the work of state and local government audit committees (page 77).

In order to provide our key client, the Parliament of Western Australia, with work that is current, relevant and of value, it is important that we consider and where required, adapt to meet the changing public sector environment. The nature of service delivery and expectations on state and local government is changing and we want to be sure our strategic planning process takes into account factors such as:

- significant changes across the sector such as the state government’s Machinery of Government reforms and the health and education sector reforms
- key reviews, such as the Service Priority Review and Inquiry into Government Programs and Projects
- the current fiscal environment.

We are aiming to have completed the review of our strategic plan by the end of 2018.

CASE STUDY Real life test of our BCMP

On Monday 16 July 2018, flooding from a burst hot water system meant we were unable to access our office. Building management could not tell us how long we would be affected, so we activated our Business Continuity Management Plan (BCMP) to minimise the impact to our business.

The BCMP proved invaluable. Our employees were kept up to date throughout the crisis with many able to work from home or at other agencies. We had no damage or notable issues with our IT server room and systems. We used social media, email and mobile phones to communicate with employees and key stakeholders and we transferred our incoming calls to a central point.

Most notably, we successfully enacted our secondary site. As part of our BCMP, the OAG has a reciprocal crisis accommodation arrangement with the Public Sector Commission (PSC). This meant that PSC were ready to accommodate key OAG employees at their offices at Dumas House.

Fortunately, we were able to return to our offices within 2 days. So while the crisis was not as bad as it could have been, it gave us an opportunity to test out our BCMP. We have identified a number of improvements as a result of this experience, which we have since actioned. However, for the most part, our BCMP worked well and was effective in minimising any disruption to our business.

Figure 5: Working from our BCMP-designated secondary site
Our people

145 full time equivalent staff

55% of our people are from culturally diverse backgrounds

80% employees recommend the OAG to others as a good place to work
Motivated, innovative, collaborative, accountable, valued, skilled, knowledgeable

9,800 hours of training

11 wellness initiatives
Our people

It is only through the skills, dedication and enthusiasm of our people that we are able to efficiently and effectively deliver quality audit services to Parliament, the public sector and the people of Western Australia.

It is vital that we focus on having the right people in the right positions to meet the challenge of an increasing audit program while staying conscious of the state’s economic environment.

While the Auditor General is an independent officer of Parliament, the Office of the Auditor General (OAG) is a public sector department, subject to the obligations and constraints of the Public Sector Management Act 1994. As shown in Table 7, we have had an increase in full time equivalent (FTE) staff this year, primarily to resource our new local government audit mandate (page 12).

</tbody>
</table>

Table 7: FTE at 30 June for the last 5 years

Our attrition rate increased this year to 11% (from 7.35% in 2016-17), with 16 employees leaving the OAG in 2017-18. This includes 7 resignations, 5 transfers to other public sector agencies and 4 retirements.

Notably, the former Auditor General and Deputy Auditor General retired in the same financial year. The number of permanent transfers to another public sector agency has remained consistent as our employees are recognised in the sector for the valuable audit work they deliver.

We regularly review our retention strategies and other initiatives in our Workforce Plan to enhance our recruiting competitiveness and employee retention. This includes using professional development as part of our succession planning.

Learning and professional development

Our annual professional development program, developed by our Professional Development (PD) Committee and approved by the Executive Management Group (Executive), is designed to meet the needs of the Office and individuals.

This year, local government awareness and training was a key focus of our extensive program that delivered in excess of 9,800 hours of in-house and external training.

We receive a number of benefits through our ongoing Recognised Employer Partner Status with CPA Australia – most notably automatic continuing professional development recognition for our CPA members. Similar benefits to CA provisional members are available due to our recognition by the Chartered Accountants Australia and New Zealand (CAANZ) as a Recognised Training Employer.

Input for PD topics, training areas and improvement opportunities comes:

- as a result of legislative or policy framework change
- via professional and technical standards boards
- through changes in our social, political and economic environment
- directly from our people
- as a result of development areas identified through the employee performance development and review program
- through employee evaluations of the relevance and quality of our PD program.
The PD Committee arranges speakers to deliver other targeted sessions on specific topics and to provide specialist or technical guidance. Employees undertaking CPA Australia and CAANZ post graduate accounting studies receive targeted study support.

Our regular PD program includes technical and non-technical learning and is the primary vehicle for whole-of-office training. We source specialist internal and external guest speakers to lead sessions.

Plain English training continues to support our long-standing commitment to clear, concise, jargon-free report writing.

We are in the final stages of implementing our new ELMO talent management software. This e-learning software will allow us to deliver a more comprehensive and targeted suite of online training to our employees. It will also allow us to easily monitor compliance and training requirements and generate business intelligence and reports.

Performance development and review

We continue to assess our employee performance development and review tool, and having developed the tool online in the new HR system, we are trialling it for rollout across the business.

Through training on effective performance management and assessment techniques, managers are increasingly aware that clear expectations are fundamental to meaningful and constructive performance reviews. Our new online forms will prompt discussion to effect those reviews.

Graduate recruitment and support

We were pleased to welcome 6 financial audit graduates in January 2018. Our advertised recruitment program attracted 78 applicants, with 29 shortlisted for interview.

Our intensive 5-week induction and training program provides a strong foundation from the very beginning of our graduates’ time with us and includes:

- introduction to the OAG and the broader public sector
- professional behavioural and customer service standards
- practical auditing
- legal compliance requirements
- a 3-week practicum.

The 3-year training program that follows supports our graduates through their key technical development period and their professional studies.

Looking forward

Further building the skills, knowledge and expertise of our employees

Reflecting its commitment to a highly skilled, qualified and supported workforce, Executive recently agreed to pay for one approved professional membership per employee, to an annual cap of $800. These include professional memberships that are:

- mandatory – individuals are required to maintain membership as an essential criterion for their position (e.g. CA, CPA)
- non-mandatory – not essential criteria for employment but membership provides the opportunity to maintain a level of professional currency which adds value to the skill and professional capacity of staff and from which the OAG benefits.

Payment of capped professional memberships reflects standard practice in public and private sector audit firms and is also a positive attraction and retention strategy.

We will implement the new policy in 2018-19.
Secondments

The cost-effective, efficient practice of employees seconded out of the OAG to other agencies broadens their experience, improves expertise and increases skill sets. Likewise, those employees seconded in from other agencies provide benefit through different perspectives, ideas and suggestions. Additionally, they carry acquired skills and knowledge back to their home agencies.

Our unique inter-jurisdictional and international relationships with other audit offices in Australia and around the world allows us to offer outstanding secondment opportunities for interested employees. We currently have 1 employee on secondment with the British Columbia Audit Office and 1 employee with the Victorian Auditor-General’s Office.

These placements are mutually beneficial, offering a way to share audit knowledge and expertise throughout and beyond the Australasian Council of Auditors-General (ACAG) community.

University liaison program

Targeted sponsorship of business school awards and scholarships at Edith Cowan University (ECU), Murdoch University, the University of Notre Dame Australia and the University of Western Australia acknowledges the value of our strategic relationships with the universities. The Auditor General also has regular involvement at student events speaking about the importance of public sector audit.

We further enhance our relationships with the universities through unpaid student placements, which help promote us as a potential employer, as well as rewarding participants with credits in their units of study.

A unique placement opportunity in our Information Systems Audit unit, where they receive high-end exposure to complex IT environments, delivers mutual benefit to ECU students. Students develop and enhance software, draft management letters, and analyse and track systems with extranet facilities.

Equity and diversity

Over half of our employees come from culturally and linguistically diverse and non-English speaking backgrounds. This provides opportunities as well as unique challenges, especially in the area of communication skills.

We provide a range of tools to assist with communications including speech therapy and introductory plain English workshops, which are also stepping-stones for more advanced training.

We also provide easy access to online tools such as the Macquarie Dictionary, which includes an English pronunciation tool, via our intranet.

Our regular workplace behaviour and equal employment opportunity training is delivered to our graduates and new employees as part of their induction program, presenting and clarifying behavioural expectations.

Looking forward

Inaugural OAG Reconciliation Action Plan

In July 2018, Executive approved our first Reconciliation Action Plan 2018-2021 (RAP).

Our inaugural RAP states in simple, clear terms the number of activities and deliverables we aim to implement to contribute to reconciliation with First Nations people.

The goals of the RAP are to:

• promote cultural understanding and influence everyday behaviour to enhance Aboriginal community contribution to our work (building and maintaining better relationships) and to enhance the impact of our work in contributing to improved outcomes for Aboriginal Western Australians

• embed cultural elements in the OAG’s events and activities for mutual benefit (mutual respect and understanding of the unique contribution of Aboriginal people)

• use collaborative processes with Aboriginal people and communities where appropriate to inform the credibility and influence of our work (leading to equal opportunities).

We are committed to the RAP and have set relatively high targets. This includes increased procurement of goods and services from Aboriginal business enterprises, where we are aiming for 3% of all non-accommodation contracts to registered Aboriginal businesses by July 2019 and 4% by July 2020; and, purposeful engagement with Aboriginal communities, with a target of 100% of relevant or related audit topics having Aboriginal community engagement.

Executive will develop and facilitate implementation of actions required to achieve the RAP’s deliverables; track and report on progress; and monitor our contribution to reconciliation.

Code of Conduct

Annually all employees acknowledge their understanding of and commitment to our Code of Conduct, and their compliance with legislation, internal policies and professional standards of conduct. This formalises and acknowledges our commitment to the highest standards of corporate governance.

The Code of Conduct specifies appropriate standards of employee behaviour, with direct relevance to the OAG’s unique role and responsibilities. A signed declaration acknowledges employees’ personal and professional obligations of working with the OAG and their continuing compliance with the Code’s requirements.

Public Sector Commission report on bullying

In October 2017, the Public Sector Commission issued its report into the arrangements used by 6 public authorities including the OAG, to prevent and manage bullying. The evaluation considered the extent to which policies, procedures and management practices were demonstrated against a number of criteria.

We were pleased to receive a very positive final assessment with only minor opportunities for improvement noted.

Grievance resolution

Regular education and awareness sets the OAG’s expectations about appropriate workplace behaviour; and support resources are promoted on the intranet and on posters around the office. The names and contact details of employees trained in grievance resolution are published as well as those of our Human Resources team.
Occupational safety and health

The Audit and Risk Management Committee reports to the Executive, monitoring trends, maintaining awareness of serious issues and being satisfied that risk management is timely and appropriate.

Our Business Services unit has day-to-day responsibility to ensure that the workplace, facilities, equipment and systems do not expose employees to hazards.

All new employees receive information and instruction on their obligations and responsibilities under our occupational safety and health (OSH) and injury management policies as part of the induction process. All documents are readily available on our intranet, including:

- Occupational Safety and Health Policy
- Management of Ill or Injured Workers Policy
- Working from Home Policy
- Reasonable and Flexible Working Hours Policy
- workers’ compensation guides
- injury management and return to work program
- incident and accident report forms.

We deliver training to ensure an acceptable, measurable level of OSH awareness by registering all employees for online OSH and injury management training. There are 2 different levels of training – non-supervisory employees, and supervisors and managers. Through monitoring and reporting to Executive on training completion rates we can identify areas for further training.

Our statement of commitment and performance in 2017-18 on occupational safety, health and injury management is reported on page 125.

Wellness Committee

Our Wellness Committee promotes healthy activities and general wellbeing. This year the committee organised a number of wellness initiatives including:

- Well at Work e-magazine
- meditation sessions
- The Meaning of Work presentation
- flu vaccinations
- promoting National Day of Action against Bullying and Violence
- ergonomic ‘quick’ assessments
- promoting RUOK? Day, Mental Health Week and a mental health lunchtime webinar
- local gym special offers, including Women’s Health Week
- promoting 2018 Will Week
- volunteering opportunity during National Volunteer Week
- blood donations.

Employee suggestions and ideas

Through our online suggestion box employees can ask any question or make a suggestion. Responses are coordinated and posted on the suggestion board for employees to view.

This year we launched a new newsfeed on the homepage of our intranet where employees can post non-work related information such as appropriate social items, events, fundraising and special interest links.

We also have an online idea box known as the innovation wiki, that allows employees to share and build on others’ innovation ideas.
Employee assistance program

The services offered through our employee assistance program includes independent counselling, advice and support to employees and their immediate families. A key tool for supporting employee resilience, especially during peak business cycles is our provider’s online app. Employees and their immediate families can download a mood checker, podcasts, guided meditations, heart rate monitor and resilience exercises.

Our annual report on the program is de-identified, allowing Executive to analyse trends and make decisions on remedial actions such as awareness raising, health and wellbeing promotion and training.

This year we reviewed our program contract and following a tender process we approved a new service provider.

Doing our bit for charity

We have long participated in fundraising activities and take pride in doing our bit for charity. We hold various activities throughout the year and we choose a main fundraiser each year, which this year was Cystic Fibrosis WA.

Social club

Almost half of our employees are social club members and many non members attend social club events. Key events during the year included the annual general meeting, a welcome sundowner for new graduates, an autumn breakfast, end of financial year lunch, sundowners and Christmas lunch.

Office forums

We have a highly mobile workforce with the majority of our auditors working away from our office. To bring them together we conduct 4 forums a year to:

- communicate strategic imperatives, challenges and achievements for the office
- inform employees of current or emerging issues
- share relevant performance information such as how we are performing against our strategic targets, as well as areas where additional effort may be required
- acknowledge the achievements of the different business units
- share relevant employee matters including employee movements, transfers and new appointments, as well as personal news relating to engagements, weddings and babies
- hear from employees, especially those returning from secondments, to share lessons learned.

At the first forum of the year, our financial audit graduates from the previous year present on their experience as an OAG graduate. The results are often humorous and always insightful. In the final forum of the year, we invite a guest speaker to provide an inspirational, motivational or light-hearted end-of-year session.
Employee survey

Every 2 years we conduct a voluntary employee survey that gives our people the opportunity to provide feedback and express their views on various aspects relating to how well the Office functions.

We conducted the survey in April 2018 and 62% of our employees participated, similar to 2016. The clear majority (almost 80%) said they would recommend the OAG to others as a good place to work. The top 5 reasons for working at the OAG were:

1. flexible working arrangements
2. varied work and clients
3. level of autonomy in my job
4. seeing results from my work
5. friends and supportive workmates.

The results showed a slight decline in the level of satisfaction with performance feedback. Our new online performance development and review tool (page 27) is aimed at addressing these concerns and Executive will continue to work with managers to look for ways to improve in this area.

Employees also perceived a drop in effective communication across different business units within the Office. This was in line with a number of employees also saying that business units are not working towards the same goal.

The number of employees who agree that our workplace is free from bullying and harassment increased – however, this result was still less than 50%. While this is a very subjective question, we take this very seriously and will continue to work with our people to address any concerns in this area. We have recently introduced a culture sub-committee and in 2017 we had specific training and focus on bullying and harassment. A Public Sector Commission report (page 29) was very positive about our approach in this area, however, as the survey results show there is always more we can do.

The feedback received through the survey provides valuable information and identifies areas where we can make improvements. We share the survey results with our people, as well as the actions and strategies to address issues identified.

Looking forward

Employees leading the way to better cultural outcomes

In July 2018, we introduced a new organisational culture sub-committee that will provide advice and recommendations to our Executive to further improve the OAG culture. The Auditor General chairs the committee, which is made up of a selection of employees with different roles and perspectives from across the Office.

The Auditor General has also started ‘brown paper bag’ lunch sessions where she informally meets with employees over lunch to discuss their thoughts, concerns and ideas.

Figure 6: Brown paper bag lunch with employees
Our people at work

Our employees said friends and supportive workmates was in their top 5 reasons for working at the OAG.
Our tools

We use **9** key principles to help us achieve good governance

## Governance

We are committed to achieving and demonstrating good governance. In monitoring and assessing our own performance, we use the 9 key governance principles of the Public Sector Commission’s Good Governance Guide to assist us to achieve a high standard of organisational performance.

<table>
<thead>
<tr>
<th>Governance principle</th>
<th>Our commitment</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>1. Government and public sector relationship</strong>&lt;br&gt;The organisation’s relationship with the government is clear.</td>
<td>We have structures and processes in place to ensure independence is maintained and to enable clear communication and interaction between us and members of Parliament and state government agencies and local governments.</td>
</tr>
<tr>
<td><strong>2. Management and oversight</strong>&lt;br&gt;The organisation’s management and oversight is accountable and has clearly defined responsibilities.</td>
<td>Our Strategic Plan clearly defines our vision and the strategies we will undertake to achieve our outcomes, with clearly defined structures established for effective management and oversight.</td>
</tr>
<tr>
<td><strong>3. Organisational structure</strong>&lt;br&gt;The organisation’s structure serves its operations.</td>
<td>The leader of each business unit is a member of Executive, which is responsible for ensuring we achieve the outcomes articulated in our Strategic Plan. A number of committees support Executive.</td>
</tr>
<tr>
<td><strong>4. Operations</strong>&lt;br&gt;The organisation plans its operations to achieve its goals.</td>
<td>Each business unit has an operational plan that identifies its work program and progress towards initiatives. These plans are key supporting documents for our Strategic Plan and reported on at Executive strategic planning meetings.</td>
</tr>
<tr>
<td><strong>5. Ethics and integrity</strong>&lt;br&gt;Ethics and integrity are embedded in the organisation’s values and operations.</td>
<td>Ethical behaviour and integrity are core values that underpin our work. Our Code of Conduct defines the high standards we require from our employees.</td>
</tr>
<tr>
<td><strong>6. People</strong>&lt;br&gt;The organisation’s leadership in people management contributes to individual and organisational achievements.</td>
<td>Workforce planning is a high priority and includes policies and strategies to enable the attraction, retention and management of people as well as development and growth.</td>
</tr>
<tr>
<td><strong>7. Finance</strong>&lt;br&gt;The organisation safeguards financial integrity and accountability.</td>
<td>Our finance policies and processes are consistent with accounting standards and we have formal structures to monitor actual versus budget. Financial performance is reported to Executive monthly.</td>
</tr>
<tr>
<td><strong>8. Communication</strong>&lt;br&gt;The organisation communicates with all parties in a way that is accessible, open and responsive.</td>
<td>We disseminate information efficiently and effectively following policies and guidelines to ensure our stakeholders are well informed, via the correct channels in a timely manner.</td>
</tr>
<tr>
<td><strong>9. Risk management</strong>&lt;br&gt;The organisation identifies and manages its risks.</td>
<td>A comprehensive Risk Management Framework forms an integral part of our Strategic Plan. The framework outlines the policies and processes relating to the management of risk and preventative measures to ensure our risk is within acceptable levels.</td>
</tr>

Table 10: Good Governance Guide references
Key governance arrangements

Executive Management Group

Our Executive Management Group (Executive) is our team of senior managers who plan, manage and lead our business (page 14). They set the strategic direction and organisational values that define the activities of the Office of the Auditor General (OAG). Chaired by the Auditor General, they meet monthly and hold informal weekly meetings.

Executive also holds specific strategic planning meetings at least twice a year to discuss strategic and tactical matters. They monitor the implementation of our strategies and measure performance against targets.

In December 2017, the Executive group was surveyed on its effectiveness. The results were largely positive with some opportunities for improvement identified. A key action from this survey was to review our monthly management report to determine if we are delivering the right content to effectively inform Executive decision-making and strategic direction. This review is well underway by the new Auditor General.

Office committees

A number of committees provide Executive with operational and administrative support. The committees have a multiple role of governance, inter-office engagement and employee development.

Information and Communication Technology Committee

Our Information and Communication Technology (ICT) Committee, meets regularly to discuss ICT projects, activities, opportunities and risks. The focus areas of the committee include:

- the long-term plans and directions of all corporate systems
- progress on all strategic ICT related projects
- capital work, funding submissions and reporting.

Audit methodology user groups

We have audit methodology user groups for a range of audit types including performance audit, key performance indicator audit and financial audit. The groups facilitate user feedback regarding audit methodologies to ensure they are appropriate to the needs of our organisational and operating environment. Also that they are aligned to the relevant Auditing and Assurance Standards and are effectively and efficiently used within the Office. Each group meets at least 2 times per year.

All new and revised Auditing and Assurance Standards are evaluated by our Technical and Audit Quality (TAQ) business unit for any impact on existing audit methodologies. TAQ makes recommendations to the user groups on the changes necessary to ensure that the audit methodologies comply with the standards.

During the year there were also changes to the financial audit methodology to reflect new and amended standards including those relating to:

- enhancements to auditors’ reports on financial statements, including the communication of key audit matters for selected entities
- the biggest change to methodology with the implementation of a revised standard for performance audits, ASAE3500. Former Auditor General Colin Murphy was instrumental in leading the working group that compiled the standard
- assurance engagements on controls.
Audit and Risk Management Committee

Our Audit and Risk Management Committee (ARMC) meets regularly to provide oversight of systems of risk management, control and reporting in order to provide advice and assurance to the Auditor General on these areas of operation of the OAG. Professor David Gilchrist, University of Western Australia Business School, was the committee’s independent chair from April 2016 to December 2017. Des Pearson, former Auditor General for Western Australia and Victoria, started as the independent chair on 22 June 2018. The remuneration details for this role is on page 122.

The key responsibilities of the committee are to:

• monitor the oversight of the Risk Management Framework
• coordinate our internal audit and external audit program
• monitor the effectiveness of the internal control system and that it is reliable, complies with legislation and reduces the risk of fraud and error
• oversee and manage our actions to address any internal audit, quality assurance and external review findings
• monitor the financial and key performance indicator (KPI) reporting process
• oversee our Business Continuity Management Program and treatment action plans.

The Committee, led by the independent chair, also includes:

• Michelle Shafizadeh – Assistant Auditor General, Technical and Audit Quality (bio on page 15)
• Jordan Langford-Smith – Senior Director, Financial Audit
• Peter Bouhlas – Senior Director, Information Systems and Performance Audit
• Gareth Govan – Director, Performance Audit.

Des Pearson
Independent Chair of the OAG Audit and Risk Management Committee

Des Pearson’s public sector career spans over 40 years and across 5 jurisdictions.

He was Victoria’s Auditor-General from 2006 to 2012. Prior to this, he served as Western Australia’s Auditor General for 15 years.

He is currently a Life Member and Fellow of CPA Australia; a Life Member and Fellow of the Australian Institute of Management; a National and Victorian Fellow of the Institute of Public Administration Australia; a Fellow of the Institute of Chartered Accountants Australia; and a Fellow, International Society of Engineering Asset Management.

Figure 7: Biography – Independent Chair of the OAG ARMC

Other committees

Several other committees provide focused advice and support to Executive, including the:

• Local Government Audit Implementation Steering Group
• Culture Committee (page 32)
• Office Consultative Committee
• Technical Determination Committee
• Professional Development Committee (page 26).
Risk Management Framework

We consider risk management to be a fundamental component of our work. Our comprehensive Risk Management Framework forms an integral part of the strategic planning processes.

The purpose of the framework is to:

- provide an overview of our risk management processes
- define the key attributes and objectives for the OAG’s risk culture
- describe roles and responsibilities for managing risk
- outline the process for reporting on risk and ongoing monitoring and review.

The framework is complemented by the OAG Risk Register and business unit risk registers that identify and assess relevant strategic and operational risks and the treatment action plans that we have to address these risks.

Our Risk Register is supported by the OAG Fraud and Corruption Control Plan and the OAG Business Continuity Management Program, which address particular types of risks within specific areas of the OAG’s operational activities.

The ARMC proactively manages the risks facing the OAG. An important component of this is setting and managing our annual internal audit program and overseeing the external audit process.

Policy framework

Our policies are designed to answer the most frequently asked questions on audit, administrative, accounting and personnel matters. They support and promote efficient and effective administration by providing consistent operational rules and procedures containing administrative and other compliance requirements.

We formally review our policies every 2 years and as required, undertaking an evaluation and assessment based on feedback from staff, and changes to legislation or other external environments.

Employees are informed of important policy changes by email, on the intranet and at staff professional development days.

Technical advice

Auditing, accounting and financial reporting knowledge and skills are fundamental to audit quality and performing efficient and effective audits. Our audit professionals are supported by the TAQ business unit which provides advice on auditing and financial reporting matters.

A Technical Determination Committee comprising senior staff from the Financial Audit business unit and the TAQ business unit is convened to provide advice on complex and contentious technical matters, to resolve differences of opinion about such matters, and to review all proposed modifications to auditors’ reports. This committee may seek advice from external sources where necessary.
Efficiency and Effectiveness Plan

We strive to be efficient and effective in all areas of our business. Annually, we prepare an Efficiency and Effectiveness Plan aligned with our Strategic Plan. This plan includes a number of projects designed to identify ways in which we can operate more efficiently within our current resourcing and budget. We see how other jurisdictions and the private sector perform their role and how we may benefit from their experiences.

The key focus for our current plan is our financial audit work. We are considering a number of areas where we can tighten our approach to ensure efficient work, while maintaining our high quality standards and level of assurance. More broadly, we are also working to introduce digital signatures to allow staff to sign documents electronically. We expect this will streamline workflows, reduce resource-waste (paper and ink) and time.

CASE STUDY Using data analytics for efficiency gain

We are continuing to explore the use of data analytics to further improve the efficiency and level of assurance provided by our financial and performance audit work.

We train our staff to use data analytics tools and liaise with other audit offices to share experiences and knowledge in this area.

In 2018-19, we will be working with the Australasian Council of Auditors-General, to further identify opportunities to use data analytics.

During 2017-18, we used data analytic procedures to audit Journal Entries and Property, Plant and Equipment at a sample of agencies (July 2017) and to determine the strength of passwords for our Password Management in the WA State Government report, which we tabled on 15 August 2018.

Figure 8: Increasing our use of data analytics

Information systems

Our Information Technology Strategic Plan is aligned with the OAG Strategic Plan and includes objectives and initiatives to deliver:

- increased responsiveness and flexibility in meeting business requirements
- better governance around ICT service delivery and project management
- increased integration of current business information systems
- innovative and effective use of our current suite of business information systems infrastructure
- improved security and integrity of information.

Over the last 12 months we:

- provided new laptops to employees to replace ageing technology and to allow for a laptop memory upgrade
- replaced obsolete smartboard and projector technology with touch screens, which provide better laptop display
- provided our financial audit staff with external monitors for use when they are working remotely
- implemented a board meeting management system for all our committees to use, replacing our previous paper-based board meeting system with a fully electronic system providing remote access and full security
- implemented a swipe card system for network printers, which provides additional security over hardcopy output and reduces print waste
- extended our secure email gateway to provide email business continuity, allowing staff to access their emails even if our email server is offline
- upgraded remote device data plans from 2GB to 4GB, providing additional data capacity for all OAG staff working remotely.

Our 2017-18 Capital Works spend is on page 120.
Looking forward

Determining our approach to the GovNext-ICT program

We are continuing to work with the Office of Digital Government in the Department of the Premier and Cabinet to manage our approach to the GovNext-ICT program.

The program has been promoted to agencies as a coordinated and mandated opportunity to modernise ICT functionality and delivery, at less cost.

Our Office is a potential customer of the program as well as the auditor, which requires careful consideration. We have developed a GovNext-ICT Transition Plan, which focuses on a staged decision-making process with consideration for both financial and OAG independence requirements.

Our ultimate aim is to determine an approach that best fits our purpose and service delivery, that ensures ongoing system security and continuity, and delivers value to the state through optimised digital transformation.

Financial management

Our focus is on providing Executive and staff with accurate business data on which key decisions can be based, and monitoring and reporting our performance on a monthly basis. In addition, budget forecasting and meeting long-term resourcing requirements remain key discussion aspects at each Executive strategic planning meeting.

Ensuring sound financial management of our business is crucial and more critical as the sector is striving to deliver efficiencies in all aspects of operations.

Introducing a new finance system

In 2017-18, we started the process to replace our existing finance system. Tender submissions closed in early 2018-19 and we are aiming to have a new system in place by mid 2019.

We are looking for a system that fully meets business needs, including advanced management reporting requirements. The new system must be able to adapt to our future needs and be flexible enough to incorporate other business functions such as human resources, payroll and contract management.
Self-assessment against our benchmarking audits
At an operational level we are committed to ensuring quality and compliance of all our practices and a way we assess this is through the across government benchmarking audits (AGBAs) undertaken by our financial auditors. AGBAs focus on common business practices and provide information about areas of better practice as well as potential problem areas. We apply the lines of inquiry to our own business and report the results to Executive.

This year we concluded internal assessments against the following AGBAs:

- **Agency Gift Registers** – tabled March 2018 (page 56)
  
The focus of this audit was to determine if agencies had suitable policies and practices in place for the management of gifts received.
  
The lines of inquiry, which we assessed our Office against, were:
  
1. Do agencies have appropriate policies for instructing and guiding staff in dealing with gifts?
2. Do agencies maintain a suitable register to record, describe and authorise the acceptance of gifts?
3. Do agencies train or make staff familiar with policy requirements and monitor compliance?

Only one minor recommendation was raised as a result of our internal assessment. This was to update our gifts policy to explicitly prohibit employees accepting cash gifts. While this has always been our standard practice, we felt it important enough to specifically include in the relevant policy.

- **Controls over Purchasing Cards** – tabled April 2017
  
The focus of this audit was to determine if agencies have effective controls over expenditure incurred using corporate purchasing cards. We also reviewed the expenses incurred by the chief executive officers of the agencies to assess whether there was adequate independent review of their purchasing card use.
  
The lines of inquiry, which we assessed our Office against, were:
  
1. Do agencies have appropriate policies and administrative systems in place for government purchasing cards?
2. Are suitable controls in place to monitor and manage the issue and use of cards and the timely approval of card transactions?
3. Do agencies periodically review their use of purchasing cards and act on any identified shortcomings?

Our assessment confirmed that our controls over purchasing cards are appropriate, effective and demonstrate better practice.
Tender Process and Contract Extensions – tabled April 2017

The focus of this audit was to assess whether agencies have appropriate processes for tendering and for extending existing contracts. We also assessed how well agencies manage conflicts of interest in their procurements.

The lines of inquiry, which we assessed our Office against, were:

1. Are the policies for tendering and for contract extensions and renewals adequate?

2. Have the processes for tenders above $250,000:
   a. resulted in adequate testing of the market by giving all relevant suppliers appropriate opportunity and is the awarding of contracts appropriately reported?
   b. provided adequate controls for managing conflicts of interest in procurement?

3. Are agencies adequately controlling:
   a. contract extensions and renewals above $50,000, including testing of the market before extending or renewing contracts?
   b. contract variations, including approval of variations within delegated limits and where appropriate initiating a new tender process?

Our assessment confirmed that we have appropriate and effective processes in place, which demonstrate better practice.

Our full audited financial statements and key performance indicators are provided in this report from page 78.
Our approach

Overall rating from members of Parliament, our key client: 92%

Our overall rating from performance audited entities: 82%

Rating from internal audit: B+

Our overall rating from financial audited entities: 67%
Consistent, fair and balanced, independent, transparent, pragmatic, professional, contemporary

23 opinions on ministerial notifications issued
Our approach

Financial auditing

Financial auditing provides independent assurance to Parliament that the financial statements of agencies and local governments are presented in accordance with Australian Accounting Standards, relevant regulations, Treasurer’s Instructions (agencies only) and other mandatory professional reporting requirements, and:

- are based on proper accounts
- present fairly the operating results and cash flows for the period under review
- show the financial position at the end of the financial reporting period.

Each year the Auditor General conducts:

- for the majority of State public sector entities, most of which operate under the Financial Management Act 2006:
  - an opinion on the financial statements of the agency
  - an opinion regarding the financial management-related controls in the agency
  - an opinion on the key performance indicators (KPIs) of the agency and whether they are fairly presented, relevant and appropriate.

  These agencies are required under the Act to have their annual reports tabled within 90 days of financial year end.

- for local governments, progressively from 2017-18 (page 134):
  - a financial audit of the annual financial report
  - any other matters required by the local government audit regulations.

- Under the Local Government Act 1995, local governments are required to accept their annual reports by 31 December and to publish them on their official website within 14 days after they have been accepted.

Agencies operating under other legislation receive an opinion on their financial statements.

You will find an overview of the financial auditing work undertaken this year on page 66. Appendix 2 is a complete list of agencies subject to financial audit.

Our Financial Audit team also conduct across government benchmarking audits (AGBAs) and focus area audits that focus on common business practices across the public sector and provide agencies and local governments with information about areas of better practice as well as potential deficiencies and pitfalls. A summary of these is included in this report from page 67.

Report summary

Audit Results Report – Annual 2016-17 Financial Audits

This report is the summary of the 2016-17 financial year audits for 158 agencies. We found many agencies are performing satisfactorily in relation to their financial reporting and controls but there is room for improvement.

We encourage all agencies to take note and act on the findings throughout our annual audit results reports.

The complete 2017-18 report summaries are available from page 67.

Figure 10: Report summary – Report 21, November 2017
Working with audit firms

We currently outsource about 35% of our financial audit work for state sector agencies and approximately 90% for our new local government audits to private sector firms. The Auditor General, or a delegate from the Office of the Auditor General (OAG), signs the audit opinion and is accountable for the work of our contract audit firm partners. We also outsource a small portion of our information systems audit work.

Auditors General outsourcing audits is common practice across jurisdictions and our contract management processes ensure that outsourced audits are efficient and cost effective and meet our audit quality standards.

We have been contracting out audits for many years and the benefits for the OAG and our clients, include:

- allowing us to better respond to the risks and needs of our clients
- partnering with accredited audit firms to develop innovative audit practices
- accessing specialist knowledge or skills we might not have or is costly to maintain
- learning from accredited audit firms to improve our audit processes, quality and reporting
- providing a mechanism for us to benchmark our cost effectiveness, audit processes, quality and reporting
- allowing us to complete and report on all audits in a timely manner.

In 2017-18, we partnered with: BDO Audit, Crowe Horwath, Deloitte, Ernst & Young, Grant Thornton, KPMG, PwC, RSM Bird Cameron, William Buck, Moore Stephens, Butler Settineri, AMD Chartered Accountants, Byfields, Lincolns, Macri Partners, and Anderson Munro & Wyllie.

Looking forward

Working with regional audit firms

We use private sector firms to perform state and local government audits. These firms are pre-approved and are invited to tender for work when contracts expire or are terminated.

Given our new local government audit mandate (page 12), we are keen to expand the number of regional firms that we can work with. Local firms understand the regional area and the important issues faced by particular local governments.

We are proactively working to identify quality, regionally-based firms that may be interested in performing audit work for the OAG.

Our ultimate goal is to support regional firms to meet our audit quality requirements and provide ongoing feedback and engagement. In this way we will also build capacity in the regions and contribute to the economic wellbeing of regional communities.

Surveys of financial audit entities

We aim for continuous improvement and one way of doing this is by acting on feedback from our stakeholders. All audited entities have the opportunity to participate in our annual survey. The survey gauges how we are performing in the areas of audit process, audit reporting, audit value and overall performance, and highlights any areas we can improve.

A total of 130 out of 150 financial audit entities responded to our survey this year, a response rate of 87% (up from 81% last year). Our results improved from last year in all 3 key focus areas, as reflected in the high overall index of 82.3%. The results were particularly positive in relation to:

- the value of the assurance that entities obtain from the audit of their statutory financial statements (99%)
- the value of our recommendations to improve organisations’ financial management and internal controls (96%).

Our auditors’ professionalism, skills and knowledge remained the most highly rated aspects of the audit process.
Other areas where we have improved our performance include our staff being responsive to stakeholder needs and audit opinions issued in timely manner.

We are pleased to see that areas identified for improvement last year increased this year – including, audit program undertaken in a timely manner and communicating audit findings and issues in management letters.

Table 11: Financial audit survey results of key questions in 3 areas of focus

Information systems auditing

Our information systems (IS) audits focus on the general computer controls of agencies with significant computer environments to determine whether these effectively support the accuracy and integrity of agency financial statements and key performance indicators (KPIs).

We also conduct audits each year of a sample of important non-financial computer applications and we also complete at least one broader scope IS audit on a specific topic, including passwords in 2018, malware in 2016 and database security in 2015.

Our IS audit work is a very important part of our audit program as it reveals the common information system weaknesses that can seriously affect the operations of government and potentially compromise sensitive information held by agencies. Our IS audit reports contain recommendations that address these common weaknesses and as such, have a use broader than just the agencies we specifically audited.
Continued focus on cyber risk

The same common weaknesses across all our information systems audits for well over 10 years, indicate agencies are not taking risks to information systems seriously enough.

Senior leaders need to understand that information security and capability are key business risks to be closely monitored and appropriately managed. The consequences otherwise, to state service delivery, trust in the sector and institutional reputations, are too great.

We intend to continue a watching brief on cyber risks to public sector entities.

Performance auditing

Our performance audits assess the efficiency and effectiveness of agency and local government activities, services and programs. These audits can also identify instances of waste, legislative non-compliance, examples of good practice and make practical recommendations for improvement.

We conduct performance audits under section 18 of the Auditor General Act 2006 and in accordance with Australian Assurance Standards. Summaries of the Auditor General’s reports tabled in 2017-18 are from page 67.

We deliver 2 types of performance audits:

- broad scope performance audits, which focus on the effectiveness and efficiency of larger programs, projects, services or functions
- narrow scope performance audits, which have a tighter focus and may assess internal agency controls, compliance with legislation, policy and good practice, and information systems.

We also conduct selective follow-up audits to assess actions taken in response to our recommendations, as well as changes and improvements that result. However, responsibility for following up the recommendations of the Auditor General’s reports lies with the management and audit committee of each agency or local government. The Public Accounts Committee (PAC) also has a key role in following up agency action on Auditor General’s reports (page 58).

Report summary

Rich and Rare: Conservation of Threatened Species Follow-up Audit

This audit follows up on our 2009 report, Rich and Rare: Conservation of Threatened Species. We assessed whether the Department of Parks and Wildlife, now the Department of Biodiversity, Conservation and Attractions (DBCA), had implemented changes to address the concerns identified in our 2009 report. We found that the number of threatened species had increased by 12% since our 2009 report, in part due to greater knowledge of biodiversity. A major positive change since 2009 has been the passing of the Biodiversity Conservation Act 2016. The new legislation provides more ways to tackle the growing task, but DBCA still has much work to do to address our 2009 findings about reporting, knowledge management and prioritising of its recovery effort.

The complete 2017-18 report summaries are available from page 67.

Figure 11: Report summary – Report 16, September 2017
Surveys of performance audit entities

Shortly after we table a performance report in Parliament, we invite the entities involved to complete a survey. Like our financial audit surveys, the surveys of entities subject to performance audit focus on our audit process, reporting, value and our overall performance.

The nature of audit work includes close scrutiny and possible criticism of agency performance, and we understand that this can influence the responses to the survey. Nevertheless, the surveys provide a valuable way for us to identify areas for improvement.

The survey response rate this year was 90%, with 27 of the 30 individuals invited to participate providing a response – this is broadly consistent with 93% for last year. Overall, the 2017-18 results were largely positive with audited entities more likely to agree that:

- the auditors understood their organisations
- they were provided adequate opportunities to comment on the findings and issues before the final report was tabled
- they were informed of significant findings and issues as they arose during the audit.

We use the results of these surveys to identify where we may need additional effort or training to improve our approach. We were therefore particularly pleased to see the increased positive response this year to our auditors understanding the audited organisation and its operating environment. This was an area we focused on following concerns raised last year.

The results this year suggest that we need to consider:

- how we demonstrate to entities the professional skills and knowledge of our auditors
- that entities may not recognise either the value of our audits in helping them improve the performance of the audited activity or the value to Parliament of assurance and transparency of their functions
- if we are clearly communicating our audit findings and issues in the tabled audit report
- why some respondents have questioned the factual accuracy of a specific tabled audit report.

The following table summarises the key questions in 3 areas of focus:

Table 12: Performance audit survey results of key questions in 3 areas of focus
Aggregate performance index scores

For performance and financial audits, the survey analysis includes the calculation of aggregate performance indices across the 4 focus areas of audit process, audit reporting, audit value and our overall performance.

The aggregate index for an area is the average of the individual question indices for survey questions across that specific area. The index for a question is the average response for each question across all respondents.

The financial audit survey results were favourable overall in 2017-18, with results remaining consistent or better than those achieved in 2016-17. The performance audit survey saw decreases in all focus areas except for audit process. This highlights the need for us to maintain our focus on continuous improvement activities.

Table 14: Performance audit – aggregate performance indices
Performance audit topic selection

Deciding what to audit is a key part of the Auditor General’s independence and is not subject to direction from Parliament or government. We have to exercise this independence responsibly, so we have processes in place to make sure our selection of topics is objective, robust and transparent.

We draw topic ideas from a range of sources including members of Parliament, parliamentary committees, agencies, local governments, community and our employees.

We assess and review potential topics against our criteria, priority themes and KPIs. We seek to select a program that is balanced in its coverage, contains topics that matter to Parliament and the community, and that reflects how and where the state is spending taxpayer’s money.

A key part of establishing our forward audit program is firstly discussing potential topic ideas with key stakeholders that may have a view on the topic, the timing of the potential audit or any other considerations that may influence the effectiveness and efficiency of the audit program. This includes discussions with PAC and Estimates and Financial Operations Committee as well as the relevant directors general and chief executive officers.

Once established, we make our forward audit program topics list available on our website. When an audit has begun, we expand this to include the audit objective, focus and timeframes, at www.audit.wa.gov.au/auditing-in-wa/audit-program/.

Figure 12: Our topic selection framework
Efficiency-focused performance audits

An increasing focus for us, continuing into 2018-19, is on efficiency audits. The WA public sector is operating on limited resources and we want to clearly identify opportunities for it to cut costs and operate as leanly but as effectively as possible.

Efficiencies can be direct savings measures. They can also be indirect through improved effectiveness, and better processes and outcomes; doing more with the same money and improved satisfaction with government services.

Our effectiveness audits will remain an important part of our audit program, however specific focus will be on demonstrating, and where possible, quantifying any potential savings across the sector.

An example of an efficiency audit we delivered in November 2017 was Planning and Management of Bus Services (page 71).

In this audit we assessed the efficiency and effectiveness of the planning and management of bus services within the Perth metropolitan area.

We found that fewer passengers were getting on buses, reducing fare revenue at the same time as the cost of operating an expanded network was rising. As a result, we found that bus services were 28% less efficient than they were 10 years ago, and the cost to government through the bus subsidy had reached well over $400 million in 2016-17.

Our audit identified that millions of dollars of efficiencies could be made if the Public Transport Authority targeted over-servicing, duplication and under-utilisation. For example, we identified that removing 6 bus routes that ran parallel to train services (with no additional stops) would save 100,000 bus trips, 1 million service kilometres and $4 million a year.

Opinions on ministerial notifications

When a Minister decides not to provide certain information to Parliament concerning the conduct or operation of an agency (usually a decision taken in response to a parliamentary question), then requirements under section 82 of the Financial Management Act 2006 and section 24 of the Auditor General Act 2006 (AG Act) come into force. Essentially, the Minister is required to notify the Auditor General and the Auditor General is then required to form an opinion and report to Parliament on the reasonableness and appropriateness of the Minister’s decision.

Report summary

Opinion on Ministerial Notification

The Auditor General found the decisions by the Minister for Tourism not to provide Parliament with information on the State’s financial contributions to the Drug Aware Margaret River Pro in the 2015, 2016 and 2017 calendar years was reasonable and appropriate. The Minister declined to provide the information as it was commercially sensitive.

The complete 2017-18 report summaries are available from page 67.
A significant number of ministerial notifications are referred to the OAG each year, and this year we received 27.

Table 15: Ministerial notifications received in last 5 years

Summaries of the ministerial notifications we tabled in Parliament in 2017-18 are available from page 67.

Looking forward

Managing the impact of ministerial notifications on our audit program

We have received no additional funding to provide opinions on ministerial notifications since they began in 2007.

While we manage our resources to accommodate this work, it is difficult to anticipate when and how many of these notifications will come to us and the scale of the work involved in the inquiries. This can affect our resourcing and delivery of other audit work.

We are liaising with the Department of Treasury to explore options to better resource this work – to minimise the impact on our Office and importantly on the delivery of our performance audit work for Parliament.

Quality framework

Quality is a value of our Office and is fundamentally important to everything we do. We have a framework that establishes and maintains quality over the audit work we perform. At every opportunity we demonstrate and promote our belief that audit quality is more than meeting professional standards.

Our framework includes a Quality Assurance Plan, which our Audit and Risk Management Committee (ARMC) approves on an annual basis. We link this plan to our Strategic Plan and it plays a vital role in terms of internal control, risk management, corporate governance and compliance monitoring.
Our ongoing quality assurance activities include:

<table>
<thead>
<tr>
<th>Activity</th>
<th>Purpose</th>
</tr>
</thead>
<tbody>
<tr>
<td>Inspection of in-house engagement files</td>
<td>To ensure a quality audit is performed and continuous improvement opportunities and good practice are identified and shared.</td>
</tr>
<tr>
<td>Disclosure review of financial statements</td>
<td>To ensure the quality of public sector financial statements to meet the compliance requirements.</td>
</tr>
<tr>
<td>Review of audit methodologies</td>
<td>To ensure that audit methodologies continue to comply with the auditing and assurance standards.</td>
</tr>
<tr>
<td>System of Quality Control</td>
<td>To ensure that the system of quality control represents better practice and is compliant with auditing standards.</td>
</tr>
<tr>
<td>Preapproval of contract audit firms</td>
<td>To ensure the quality of contract audit firms who are able to tender for financial audit work for the OAG.</td>
</tr>
<tr>
<td>Review of audit files of contract audit firms</td>
<td>To ensure the quality of contract audit firms who perform audit work on our behalf.</td>
</tr>
<tr>
<td>Review of published information of contract audit firms</td>
<td>To ensure we know the results of public information including quality assurance reviews performed by regulatory bodies and membership organisations.</td>
</tr>
<tr>
<td>Liaison with contract audit firms</td>
<td>To seek information about the firms on aspects of their business that may be topical or may represent a particular risk for the current year.</td>
</tr>

<td>To get an independent opinion as to the quality of the audits we perform. This may be from another audit office in Australia or New Zealand or from an independent reviewer.</td>
</tr>
<tr>
<td>Independent panel review of performance audit reports</td>
<td>To get an independent opinion as to the effectiveness of our performance audit reports.</td>
</tr>
</tbody>
</table>

Table 16: Examples of the OAG's quality assurance activities

Technical training is a critical overarching part of the Quality Assurance Plan. We regularly deliver training sessions on what quality is, its importance and the role and responsibilities for audit quality.

Reviews

We are often asked who audits the Auditor General… and the answer is, many people do! We are subject to various oversight and review processes, which we value as they hold us accountable to those we serve and provide us and our stakeholders with assurance that our processes are effective, efficient and evolving as necessary.

Figure 14: Reviews of the OAG in 2017-18
Internal audit

Our internal auditors provided their 2017-18 report on 28 June 2018. This year, 6 key areas were audited, which were developed in consultation with our ARMC, the ICT Committee and Executive.

The report concluded:

‘Overall, in our opinion the practices reviewed are sound and the OAG has once again demonstrated a high level of focus in managing the control environment.

In our opinion, based on the functions/areas subject to review, the Office’s control environment is of a good standard for the scope areas examined. There are some opportunities for improvement, albeit minor. Reflecting the number, nature and potential value of observations we assess a ‘B+’ rating.’

We have already implemented 4 of the 17 recommendations that provide opportunities for improvement and we expect to have the remainder in place by the end of September 2018.

Self-assessment against our audit reports

As detailed on page 42, many of the audits we conduct of other agencies also have relevance to our Office, especially our AGBAs. For this reason, we self-assess our own internal processes and controls against the audit criteria used for these audits.

In 2017-18, our Business Services unit self-assessed our performance against the criteria used in the audits of:

- Agency Gift Registers
- Controls over Purchasing Cards
- Tender Process and Contract Extensions.
Independent reviews
In July 2017, a senior auditor from the Australian National Audit Office conducted a review of the OAG under the Australasian Council of Auditors-General (ACAG) external review framework. The review considered the first 2 sections of the framework – office governance and audit practice management. These reviews are important to the OAG, as they allow us to take stock of where we are at, provide us with continuous improvement opportunities and challenge our thinking. The review resulted in 9 recommendations, all of which we accepted and implemented.

This year we also organised an independent review of the structure of our Business Services unit to identify efficiencies and enhance operations to optimise the delivery of corporate services to the Office, within our established resources. This is particularly important if we are to meet the additional demands of local government audit.

External review
In August 2016, the Joint Standing Committee on Audit issued its review of the operation and effectiveness of the OAG and the AG Act. The Auditor General met with the new committee in November to discuss progress with the recommendations.

We were pleased to report that we had addressed all the recommendations under our control. The only key concern raised was around the recommended changes to the AG Act to address restricted access to cabinet documents and documents under legal professional privilege. A review of the AG Act and other relevant legislation is currently underway (page 16).

Working with Parliament
Unlike public sector agencies, we do not report to a government minister but report directly to Parliament. As our key client, we strive to keep Parliament informed on public sector accountability and performance and we have developed a number of initiatives to promote quality relationships with Parliament and parliamentary committees.

Parliamentary liaison program
Our parliamentary liaison program ensures that we provide Parliament with relevant and timely information, in keeping with our obligations under the AG Act. This benefits Parliament and us, and supports our mission to help improve public sector performance and accountability by reporting independently to Parliament.

This program includes:

• briefings for new ministers, members of Parliament and parliamentary committees
• regular meetings and briefings with parliamentary committees and key parliamentarians
• briefing parliamentarians on our tabled reports
• briefings to our parliamentary oversight committees on our proposed forward audit program and current audits
• providing information to support inquiries by parliamentary committees.

We use the results of our members of Parliament survey (page 59), together with direct feedback throughout the year, to identify any potential initiatives or improvements that could further enhance our parliamentary liaison program.
**CASE STUDY  Adapting to the needs of Parliament**

During 2017-18, we received feedback from a member of Parliament that the usual time we held the member briefings on our tabled reports was not convenient for some members.

We generally hold a member briefing at Parliament shortly after an Auditor General’s report is tabled. We invite all members to attend this briefing and over the last few years we have traditionally held it at around 1pm on Wednesdays as this seemed to suit the majority of attendees. However, based on this feedback we recently trialled new timings for our member briefings, holding 2 sessions on relevant Wednesdays, at 12.30pm and 1pm.

This trial has so far been successful, with more members and their representatives attending our briefings, with a fairly even split at the 2 sessions.

This year we also introduced short, concise video summaries of our audit reports. These are available on our website and provide members, who are often time-poor, and anyone else interested with easy access to our reports. These videos are rising in popularity as our audience is gradually discovering them as a standard feature of each report tabling.

**Figure 16: Evolving parliamentary liaison program**

**Parliamentary inquiries**

In June 2018, PAC commenced its latest hearings in review of agency responses to Auditor General’s reports. PAC plays an important role in examining whether government policies and programs meet the objectives for which public money is allocated. One way PAC performs this role is by following up agency responses to recommendations contained in our performance audit reports.

The work PAC does in following up our reports and keeping agencies accountable for their response to our recommendations is hugely valued by our Office. This process is currently selective, and is effective this way as one agency being called to notice through a PAC follow up causes all agencies to pay attention. Selective reporting on agency follow ups is an important reminder to the sector that they are accountable and subject to Parliament scrutiny.

PAC is currently examining agency responses to more than 20 performance audit reports from 2015 and 2016. We continue to assist PAC, where appropriate, in this important process.

We have also been involved in, or provided information to assist a number of other parliamentary inquiries during 2017-18. This included the:

- Joint Standing Committee on the Corruption and Crime Commission on its inquiry into public sector procurement of goods and services and its vulnerability to corrupt practice
- Community Development and Justice Standing Committee on its inquiry into the protection of crowded places from terrorist acts.

We also provided information to assist Government’s Service Priority Review and the Special Inquiry into Government Programs and Projects.

**Parliamentary requests for investigation**

We occasionally receive requests for audit from parliamentary committees, which we consider thoroughly. Our August 2017 report on *Non-Clinical Services at Fiona Stanley Hospital* was based on a request from the Education and Health Standing Committee.
Report summary

Non-Clinical Services at Fiona Stanley Hospital

This audit assessed whether delivery of non-clinical services was at the cost expected and if South Metropolitan Health Service effectively monitored and enforced the contract. We found overall the non-clinical services delivered at Fiona Stanley Hospital were acceptable but identified a number of improvements to contract management including monitoring total costs, dispute resolution, and improving and using the information gathered for reporting.

The complete 2017-18 report summaries are available from page 67.

Members of Parliament survey

Our regular survey of members of Parliament assists us to monitor our performance in meeting our outcome of an informed Parliament on public sector accountability and performance. Through this survey, members can share their views in areas such as satisfaction with our services and the effectiveness and usefulness of our products.

Table 17 shows our results against 4 key areas. Although results declined or stayed the same in most areas, we continue to perform well and score highly in dealing with matters of significance to Parliament (93%); satisfaction with our reports and services (92%) and this year we saw a significant increase (+8%) in members saying that our services and reports were useful to Parliament (94%).

While the majority of members said the OAG was effective in achieving its desired outcome of informing Parliament on public sector accountability (77%), this was a decline on previous years and is something we will closely monitor and where possible, address.

* We did not conduct a survey in 2016-17 due to the timing of the state election and the large number of new members.

Table 17: Member of Parliament survey results against 4 key areas

Consistent with previous years, members were positive about the Auditor General's reports and services, with members commenting that they:

- were relevant, open and easy to digest
- were accessible and summarise areas of concern concisely
- generated debate and discussion on quality improvement or greater transparency.

Just over half of the respondents said that a report tabled in the last 12 months was helpful to them. Members most commonly cited reports’ usefulness, relevance and their own personal or professional interest in these reports as the main reasons for finding them helpful.

We use an independent research company to conduct the survey. The results are important in understanding how we are performing and how well we are meeting the needs and expectations of our clients. They also inform our ongoing quality assurance and continuous improvement efforts and are used to measure the effectiveness of a number of our Strategic Plan initiatives.

We have a number of other avenues which allow members to engage with us and provide comments outside the survey process, including the briefing opportunities in our parliamentary liaison program (page 57).
Working with our peers

**Australasian Council of Auditors-General**

ACAG is an association established by Auditors General in 1993. It allows Auditors General to share information and business intelligence and supports the development of effective and efficient auditing methods and practices by members.

ACAG also enables Auditors General to express their collective opinions, where appropriate, on financial accounting and auditing and assurance standards and related issues such as exposure drafts issued by the Australian Accounting Standards Board, Australian Auditing and Assurance Standards Board and their international equivalents.

We also participate in ACAG’s subgroups, which provide mutual benefits and learning opportunities between audit offices.

**Integrity Coordinating Group**

The OAG is a member of the Integrity Coordinating Group (ICG) an informal forum of 5 independent integrity agencies. The purpose of the group has been to use their combined voice to promote and strengthen integrity in Western Australian public bodies.

Outputs of the ICG have included guidance papers and seminars that promote the concept of integrity in government.

Members currently include the independent officers of the Auditor General, the Western Australian Ombudsman, the Public Sector Commissioner, the Corruption and Crime Commissioner and the Information Commissioner.

The new Auditor General with other integrity officers of the ICG will consider the purpose of the group to determine its future direction.

**State Records Commission**

Under section 58 (b) of the *State Records Act 2000*, the Auditor General is an ex-officio member of the State Records Commission.

Public sector entities use public funds to provide services, deliver programs and manage assets. Good records support good decision-making, effective business practice and improve accountability and efficiency.

A common theme across many of our audits is poor recordkeeping practices. Through our audit work with agencies we continue to support the proper safeguarding, retention and integrity of official records and highlight and encourage continuous improvement in this important aspect of public administration.
CASE STUDY  Sharing our knowledge with international delegations

We value opportunities to exchange information and learn from other jurisdictions. In March this year, we were pleased to meet with a Landgate fellowship group about the role of the Auditor General. Eight land administration professionals from Argentina and Paraguay met with our Assistant Auditor General, Technical and Audit Quality, who shared with them the role we play in auditing the Western Australian state and local government.

In October 2017, we also hosted a study tour from the Audit Board for the Republic of Indonesia.

![Figure 18: Argentina and Paraguay land administration professionals with Michelle Shafizadeh (right), Assistant Auditor General, Technical and Audit Quality](image)

Working with our stakeholders

We receive information from many different sources that assists us to perform our functions. We treat this information confidentially, applying best practice processes, as recommended by the Western Australian Ombudsman. We manage all feedback, suggestions and concerns in a way that demonstrates our values of integrity, quality and respect.

Our website includes information on how to contact us and provides an opportunity to submit feedback on current audits or suggest a future audit topic. Information received through these avenues may be examined under the AG Act, and can be considered as part of our topic selection process (page 52).

Referrals and enquiries

Referrals can be an early warning of issues relating to the performance, probity and compliance of the public sector. We record and review all referrals and enquiries to identify any trends and wider issues across state and local government.

When considering the issues referred to us, our focus is on systemic weaknesses rather than a one-off issue affecting an individual. We assess relevant issues against our internal protocols and in an ethical and objective manner to determine if further investigation is warranted. This can potentially lead to an audit. If the issue is outside our mandate, we will assist individuals to redirect their issues to those who can best assist.

Where matters cross jurisdictional boundaries, such as the work of the Corruption and Crime Commission or the Public Sector Commission, we have processes in place to communicate with other integrity agencies to highlight potential issues, while maintaining confidentiality.

In 2017-18, we experienced a 62.5% increase in the number of referrals and enquiries lodged with us. This increase was largely due to our new role in auditing local governments.

* Referrals and enquiries from local governments were counted in the figures for ‘members of the public’ prior to 2017-18

Table 18: 2017-18 referrals and enquiries

In 2017-18, the average number of days we took to respond was 2.2 working days, similar to last year. We responded to 96% of all referrals and enquiries within our working day target, which was similar to last year’s outcome. The majority of issues were specific to our new role in local government audit that required additional research into the provisions of relevant legislation.

Public interest disclosures

The OAG is an accountability agency to which people can make public interest disclosures (PID) under the Public Interest Disclosure Act 2003.

The Act establishes us as the appropriate authority to receive PIDs that relate to substantial unauthorised or irregular use of, or substantial mismanagement of, public resources.

In 2017-18, we spent 75 hours on PID matters. We assessed 4 matters, all of which met the PID criteria.

The Auditor General appoints key employees, including members of Executive, as PID officers. Appropriate training is provided for these employees so they can receive and manage PIDs effectively.
Complaints

We define a complaint as any expression of dissatisfaction or concern made about OAG, its staff, external contractors, services, products or practices.

We received 1 complaint in 2017-18. The complaint was the result of a miscommunication about a client’s specific requirements, which we addressed promptly to the satisfaction of the complainant and the OAG.

As shown in Table 19, we receive very few complaints, however, we have a comprehensive process in place to ensure any complaints are addressed promptly and the complainant is satisfied that we will take appropriate action to rectify the matter. In this regard, we adhere to the Ombudsman’s guiding principles for effective complaint management namely:

- **Enabling complaints** – arrangements for enabling people to make complaints are customer focused, visible, accessible and supported by management. Complaints can be made via our website, or by email, mail or phoning the OAG.

- **Responding to complaints** – our procedures for responding to complaints ensure they are handled objectively, fairly and confidentially. Timeframes are included for each step of the process.

- **Accountability and learning** – the reporting mechanisms for managing complaints help us work towards continuous improvement.

Our products

183 audit opinions delivered

59% of audit opinions were delivered earlier than last year

27 reports tabled in Parliament
Value for money, timely, relevant, accurate, quality, innovative

Over 36,000 website hits on the top 10 reports accessed this year
Financial auditing

This year we delivered 183 audit opinions. This was for state agencies only, as our first annual financial audits of local government entities for the year ended 30 June 2018 are in progress and the audit opinions will be issued in 2018-19.

We aim to deliver audit opinions under the Financial Management Act 2006 (FM Act) in time for annual reports to be tabled by an agency within 90 days of the end of the financial year as required by the FM Act. In the past we have consistently achieved between 99% and 100% for this measure (Table 20). However, this year we achieved 97.9%, primarily due to agencies not being audit ready.

Parliament must be in session for an agency to table its annual report under the FM Act. This year, the last sitting day in which agencies could table their reports within the 90-day limit was September 14, almost 2 weeks earlier than previous years’. This meant a number of agencies could not meet their target. This is something we have raised with the Department of Treasury in its review of the FM Act (page 16).

It took us an average of 64.8 days to issue our financial audit opinions and we delivered 59% of our audit opinions earlier than last year.

Table 21: Audit opinions delivered from 2013-14 to 2017-18
Our reports tabled in 2017-18

During 2017-18, we tabled 27 reports in Parliament across our 4 audit topic categories. We aim to deliver timely, relevant and quality reports on public sector performance and accountability. These reports assist in achieving our vision and outcome of an informed Parliament and work that makes a difference and helps to improve the public sector.

On the following pages is a brief summary of the reports tabled this year which are available on our website at www.audit.wa.gov.au/reports. We have provided agency details reflective of post 2017 machinery of government changes.

Website statistics provide an indication of the degree of interest in our reports, and we use these to inform our topic selection process. Four of the top 10 accessed reports in 2017-18 were from previous years. The annual Information Systems Audit Report is consistently one of the most accessed reports. Despite being tabled in May 2018, the Controls Over Corporate Credit Cards focus area report, which was our first report tabled under our new local government audit mandate (page 12), featured in the top 10 hits (Table 22).

### Audit of Journal Entries and Property, Plant and Equipment Using Data Analytic Procedures

**Narrow scope performance audit**  
KPI category – Governance  
Tabled – 19 July 2017

This audit analysed large volumes of accounting general journal entries as well as property, plant and equipment transactions at 6 agencies to identify potential fraud, error or omissions. We found no evidence of fraud and only a small number of errors. However, we did identify a need for improved controls at 4 agencies, to further reduce the risk of fraud or error. We recommend agencies consider recording information in a format that enables management to monitor compliance with policies and delegations.

Agencies: Busselton Water Board; Department of Justice; Mental Health Commission; Racing and Wagering Western Australia; Department of Planning, Lands and Heritage

---

### Non-Clinical Services at Fiona Stanley Hospital

**Broad scope performance audit**

### Opinion on Ministerial Notifications

KPI category – n/a*  
Tabled – 6 September 2017

The Auditor General found the decision by the Minister for Fisheries not to provide Parliament with the legal advice about the state’s likely exposure to compensation claims if a subsidised shark deterrent device proved ineffective in a shark attack event, was reasonable and appropriate. The Minister had sought advice from the relevant Department, which recommended he decline as it was legal advice protected by legal professional privilege.

Minister: Kelly  
Agency: Department of Primary Industries and Regional Development

Confiscation of the Proceeds of Crime
Narrow scope performance audit
KPI category – Social and environment
Tabled – 3 May 2018

Summary
This audit assessed if agencies are effectively and efficiently identifying, confiscating and distributing proceeds of crime. We found agencies follow adequate processes to identify and confiscate proceeds of crime under the Criminal Property Confiscation Act 2000 but could improve their approaches to asset maintenance and monitoring the confiscation activities. Work is needed to fully understand agencies costs, and ensure that agencies spend the proceeds from the sale of confiscated assets effectively.

Agencies: Department of Justice; Office of the Director of Public Prosecutions; Public Trustee; Western Australia Police Force

Audit Results Report – Annual 2017 Financial Audits and Management of Contract Extensions and Variations
Financial audit
KPI category – Governance
Tabled – 8 May 2018

Summary
This report summarises the results of the annual audits of the 4 public universities and their subsidiaries and the 5 TAFEs for 2017, as well as a small number of various other audits. It also includes the results of a focus area audit that assessed whether 7 tertiary education entities adequately managed extensions and variations to their contracts and whether they maintained good records of contracts.

Agencies: University of Western Australia; Edith Cowan University; Murdoch University; Curtin University; North Metropolitan TAFE; South Metropolitan TAFE; North Regional TAFE; Central Regional TAFE; South Regional TAFE

Controls Over Corporate Credit Cards
Focus area audit
KPI category – Governance
Tabled – 8 May 2018

Summary
This audit assessed 8 local governments to determine if they had effective controls over the use of corporate credit cards. While some areas could be done better, the local governments mostly had satisfactory controls in place. The potential for improper or unauthorised use of credit cards means those charged with governance, and management need to ensure appropriate controls are in place and that they are continually vigilant against misuse.

Local governments: City of Kalamunda; City of Rockingham; City of Wanneroo; Shire of Carnarvon; Shire of Cranbrook; Shire of Dandaragan; Shire of Denmark; Town of Port Hedland

<tr>
<td><strong>Management of Crown Land Site Contamination</strong>&lt;br&gt;Narrow scope performance audit&lt;br&gt;KPI category – Social and environment&lt;br&gt;Tabled – 27 June 2018</td>
<td>This audit assessed whether the state’s unallocated Crown land and unmanaged reserves were being effectively managed to minimise human and environmental health risks from contamination on these sites. The Auditor General found that inadequate oversight, unreliable data and poor communication between the responsible agencies meant that contamination risks were not identified and reported in a timely manner. &lt;br&gt;Agencies: Department of Planning, Lands and Heritage; Department of Water and Environmental Regulation</td>
</tr>
</tbody>
</table>
Making a difference – report successes

Our outcome is work that makes a difference and helps to improve the public sector. Positive change to government activity and practice is a reflection of the impact our work is having and of our progress in meeting our desired outcome.

In July 2017, we were pleased to see the Department of Transport and Main Roads WA providing a status update on their websites of the transport portfolio recommendations of our 2015 report, Safe and Viable Cycling in the Perth Metropolitan Area. This is a good way for agencies to increase transparency and accountability for the actions they are progressing in response to our reports.

Some examples announced or implemented this year, where our work has informed, influenced, or directly resulted in change includes:

- establishment of the Office of Digital Government within the Department of the Premier and Cabinet to drive digital capability and cyber security across the public sector. This was in response to a decade of annual information systems audit reports, which have found little to no improvement in agency management of information systems, particularly information security and business continuity

- a drug and alcohol strategy specific to prisons being developed by the Department of Justice in response to our Minimising Drugs and Alcohol in Prisons report (November 2017)

- the development of a centralised information portal relating to biodiversity surveys, as recommended in our Rich and Rare: Conservation of Threatened Species Follow-up Audit (September 2017)

- the Department of Fire and Emergency Services (DFES) extended peer support program to include bush fire brigades and ensuring that peer support officers are trained to assist them, addressing concerns raised in our 2015 report, Support and Preparedness of Fire and Emergency Services Volunteers. DFES also released an emergency services volunteer sustainability strategy to ensure that expertise is captured, both to address volunteer feedback and recommendations from the Auditor General’s report on volunteers

- the Service Priority Review blueprint for public sector reform referencing our May 2016 report, Delivering Services Online, to highlight the significant savings available to government through doing business online rather than in person.

Looking forward

Better practice guidance

In 2018-19, we will be working to further secure the impact of our work through better practice guidance to assist the broader public sector. Through better practice guides we are aiming to assist agencies and local governments to perform at their most efficient level, encouraging them to adopt better practices to transform and improve business processes.

Hand-in-hand with this initiative is our focus on improving the effectiveness of audit committees. We will do this through specific better practice guidance as well as increased interaction and awareness-raising of the cost effective governance benefits from a high functioning audit committee.

Certification of financial statements

For the reporting period ended 30 June 2018

The accompanying financial statements of the Office of the Auditor General have been prepared in compliance with the provisions of the Financial Management Act 2006 from proper accounts and records to present fairly the financial transactions for the financial year ended 30 June 2018 and the financial position as at 30 June 2018.

At the date of signing we are not aware of any circumstances which would render the particulars included in the financial statements misleading or inaccurate.

JUSTINE MEZZATESTA  
CHIEF FINANCE OFFICER  
9 August 2018

CAROLINE SPENCER  
ACCOUNTABLE AUTHORITY  
9 August 2018
Independent Auditor's Report

To the Parliament of Western Australia

Office of the Auditor General

Report on the Financial Statements

Opinion

We have audited the financial report of the Office of the Auditor General ("the Office"), which comprises the Statement of Financial Position as at 30 June 2018, the Statement of Comprehensive Income, Statement of Changes in Equity, Statement of Cash Flows, and the Summary of Consolidated Account Appropriations and Income Estimates for the year then ended, a summary of significant accounting policies and other explanatory notes.

In our opinion, the financial statements are based on proper accounts and present fairly, in all material respects, the operating results and cash flows of the Office of the Auditor General for the year ended 30 June 2018 and the financial position at the end of that period. They are in accordance with Australian Accounting Standards, the Financial Management Act 2006 and relevant Treasurer's instructions.

Basis for Opinion

We conducted our audit in accordance with Australian Auditing Standards. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Report section of our report. We are independent of the Office in accordance with the auditor independence requirements of the Auditor General Act 2006 and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 119 Code of Ethics for Professional Accountants ("the Code") that are relevant to our audit of the financial report. We have also fulfilled our other ethical responsibilities in accordance with the Code.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.
Independent Auditor's opinion

**Key Audit Matters**

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the financial report of the current period. These matters were addressed in the context of our audit of the financial report as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

<tr>
<td></td>
<td>• Assessing the appropriateness of the disclosures included in Notes 4 and 6.</td>
</tr>
</tbody>
</table>
### Key Audit Matter

**Provisions – Employee Entitlements**

Included in the Statement of Financial Position are provisions of $3.895 million, of which $1.128 million is current and $0.772 million is non-current. The provisions consists of employee benefits, including annual and long service leave.

The nature of the operations of the Office require a significant amount of human resources. Therefore, these provisions were identified as a risk due to the quantitative significance of the balance, and the calculations required in estimating the balance.

### How The Key Audit Matter Was Addressed

Our procedures amongst others included:

- Obtaining the client schedules for each class of provision and agreed the amounts to the general ledger;
- Testing of the design, implementation and effectiveness of the key processes and controls relating to payroll;
- Checking arithmetic calculations within each of these schedules;
- Testing a sample of employees’ movements in entitlements to supporting documentation;
- Reviewing the actuarial assessment of annual and long service leave;
- Testing the provisions for completeness by comparing the listing to payroll records; and
- Assessing the appropriateness of the disclosures included in Note 3.1(b).
Independent Auditor's opinion

Key Audit Matter  How The Key Audit Matter Was Addressed

Intangible Assets

During the year the Office continued to develop a human resources management information system. Components of this system became operational during the year, with other components remaining in development. The Office has recognised directly attributable costs to this asset, for which the assumptions utilised in making this assessment requires judgements to be made.

Our procedures amongst others included:

- Obtaining schedules supporting the amounts recognised as intangible assets;
- Critical assessment of the judgements of what costs were considered directly attributable in accordance with AASB 130 Intangible Assets;
- Testing of a sample of the additions of intangibles during the year;
- Consideration of the status of intangibles in development, and the useful life of the phases that were completed during the year and amortised; and
- Assessing the appropriateness of the disclosures included in Note 5.2.

Other information

The Auditor General is responsible for the other information. The other information comprises the information included in the Office’s annual report for the year ended 30 June 2018, but does not include the financial statements, the audited key performance indicators and our auditor’s report thereon.

Our opinion on the financial statements does not cover the other information and accordingly we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.
Independent Auditor's opinion

Independent Auditor's Report
To the Parliament of Western Australia
Office of the Auditor General (Continued)

Responsibilities of the Auditor General for the Financial Statements

The Auditor General is responsible for keeping proper accounts, and the preparation and fair presentation of the financial statements in accordance with Australian Accounting Standards, the Financial Management Act 2009 and the relevant Treasurer's Instructions, and for such internal control as the Auditor General determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial report, the Auditor General is responsible for assessing the Office's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting.

Auditor's Responsibilities for the Audit of the Financial Statements

As required by the Auditor General Act 2006, our responsibility is to express an opinion on the financial statements based on our audit. The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but it is not a guarantee that an audit conducted in accordance with Australian Auditing Standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements.

As part of an audit in accordance with the Australian Auditing Standards, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial report, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal controls relevant to the audit in order to design audit procedures that are appropriate for the circumstances, but unless otherwise stated not for the purpose of expressing an opinion on the effectiveness of the Office's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Auditor General.
Independent Auditor's report

To the Parliament of Western Australia

Office of the Auditor General

(Continued)

Independent Auditor's opinion

Conclude on the appropriateness of the Auditor General's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Office's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial report or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Office to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the financial report, including the disclosures, and whether the financial report represents the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with the Auditor General, we determine those matters that were of most significance in the audit of the financial report of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Controls

Opinion

We have undertaken a reasonable assurance engagement on the design and implementation of controls exercised by the Office of the Auditor General. The controls exercised by the Office of the Auditor General are those policies and procedures established by the Auditor General to ensure that the receipt, expenditure and investment of money, the acquisition and disposal of property, and the incurring of liabilities have been in accordance with legislative provisions (the overall control objectives).

Our opinion has been formed on the basis of the matters outlined in this report.

In our opinion, in all material respects, the controls exercised by the Office of the Auditor General are sufficiently adequate to provide reasonable assurance that the receipt, expenditure and investment of money, the acquisition and disposal of property, and the incurring of liabilities have been in accordance with legislative provisions during the year ended 30 June 2016.
Independent Auditor's opinion

Independent Auditor's Report
To the Parliament of Western Australia
Office of the Auditor General (Continued)

Responsibilities of the Auditor General

The Auditor General is responsible for designing, implementing and maintaining controls to ensure that the receipt, expenditure and investment of money, the acquisition and disposal of public and other property, and the incurring of liabilities are in accordance with the Financial Management Act 2006, relevant Treasurer's instructions and other relevant written law.

Auditor's Responsibilities

As required by the Auditor General Act 2006, our responsibility is to express an opinion on the suitability of the design of the controls to achieve the overall control objectives and the implementation of the controls as designed. We conducted our engagement in accordance with Standard on Assurance Engagements ASAE 3150 Assurance Engagements on Controls issued by the Australian Auditing and Assurance Standards Board. That Standard requires that we comply with relevant ethical requirements and plan and perform our procedures to obtain reasonable assurance about whether, in all material respects, the controls are suitably designed to achieve the overall control objectives and the controls, necessary to achieve the overall control objectives, were implemented as designed.

An assurance engagement to report on the design and implementation of controls involves performing procedures to obtain evidence about the suitability of the design of controls to achieve the overall control objectives and the implementation of those controls. The procedures selected depend on our judgement, including the assessment of the risk that controls are not suitably designed or implemented as designed. Our procedures included testing the implementation of those controls that we consider necessary to achieve the overall control objectives.

We believe that the evidence obtained is sufficient and appropriate to provide a basis for our audit opinion.

Limitations of Controls

Because of the inherent limitations of any internal control structure it is possible that, even if the controls are suitably designed and implemented as designed, once the controls are in operation, the overall control objectives may not be achieved so that fraud, error, or noncompliance with laws and regulations may occur and not be detected. Any projection of the outcome of the evaluation of the suitability of the design of controls to future periods is subject to the risk that the controls may be unsuitable because of changes in conditions.
Independent Auditor's opinion

Report on the Key Performance Indicators

Opinion

We have undertaken a reasonable assurance engagement on the key performance indicators of the Office of the Auditor General for the year ended 30 June 2018. The key performance indicators are the key effectiveness indicators and the key efficiency indicators that provide performance information about achieving outcomes and delivering services.

In our opinion, in all material respects, the key performance indicators of the Office of the Auditor General are relevant and appropriate to assist users to access the Office's performance and fairly represent indicated performance for the year ended 30 June 2018.

Auditor General’s Responsibility for the Key Performance Indicators

The Auditor General is responsible for the preparation and fair presentation of the key performance indicators in accordance with the Financial Management Act 2006 and the Treasurer’s Instructions and for such internal controls as the Auditor General determines necessary to enable the preparation of key performance indicators that are free from material misstatement, whether due to fraud or error.

In preparing the key performance indicators, the Auditor General is responsible for identifying key performance indicators that are relevant and appropriate having regard to their purpose in accordance with Treasurer’s Instruction 504 Key Performance Indicators.

Auditor’s Responsibility

As required by the Auditor General Act 2006, our responsibility is to express an opinion on the key performance indicators. The objectives of the engagement are to obtain reasonable assurance about whether the key performance indicators are relevant and appropriate to assist users to assess the Office’s performance and whether the key performance indicators are free from material misstatement, whether due to fraud or error, and to issue an auditor’s report that includes our opinion. We conducted our engagement in accordance with the Standard on Assurance Engagements ASAE 3000 Assurance Engagements Other than Audits or Reviews of Historical Financial Information issued by the Australian Auditing and Assurance Standards Board. That standard requires that we comply with relevant ethical requirements relating to assurance engagements.
Independent Auditor’s Report

To the Parliament of Western Australia
Office of the Auditor General (Continued)

An assurance engagement involves performing procedures to obtain evidence about the amounts and disclosures in the key performance indicators. It also involves evaluating the relevance and appropriateness of the key performance indicators against the criteria and guidance in Treasurer’s Instruction 904 for measuring the extent of outcome achievement and the efficiency of service delivery. The procedures selected depend on the auditor’s judgement, including the assessment of the risks of material misstatement of the key performance indicators. In making these risk assessments we obtain an understanding of the internal control relevant to the engagement in order to design procedures that are appropriate in the circumstances.

We believe that the audit evidence obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and Quality Control Relating to the Reports on Financial Statements, Controls and Key Performance Indicators

We have complied with the independence requirements of the Auditor General Act 2006 and the relevant ethical requirements relating to assurance engagements. In accordance with ASQC 1 Quality Control for Firms that Perform Audits and Reviews of Financial Reports and Other Financial Information, Other Assurance Engagements and Related Services Engagements, we maintain a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Matters Relating to the Electronic Publication of the Audited Financial Statements and Key Performance Indicators

This auditor’s report relates to the financial statements and key performance indicators of the Office of the Auditor General for the year ended 30 June 2018 included on the Office’s website. The Auditor General is responsible for the integrity of the Office’s website. This audit does not provide assurance on the integrity of the Office’s website. The auditor’s report refers only to the financial statements and key performance indicators described above. It does not provide an opinion on any other information which may have been hyperlinked to/from these financial statements or key performance indicators. If users of the financial statements and key performance indicators are concerned with the inherent risks arising from publication on a website, they are advised to refer to the hard copy of the audited financial statements and key performance indicators to confirm the information contained in this website version of the financial statements and key performance indicators.

Note 9.8 ‘Explanatory statement’ provides details of any significant variations between estimates and actual results for 2018 and between the actual results for 2018 and 2017.
Notes to the financial statements

1: Basis of preparation
The Office of the Auditor General (the Office) is a WA Government entity and is controlled by the State of Western Australia, which is the ultimate parent. The Office is a not-for-profit reporting entity.

A description of the nature of our operations and principal activities has been included in the ‘Overview’ which does not form part of these financial statements. These annual financial statements were authorised for issue by the Accountable Authority on 9 August 2018.

Statement of compliance
These general purpose financial statements have been prepared in accordance with:

- Financial Management Act 2006 (FMA)
- The Treasurer’s Instructions (the Instructions or TI)
- Australian Accounting Standards (AAS) including applicable interpretations
- Where appropriate, those AAS paragraphs applicable to not-for-profit entities have been applied.

The Financial Management Act 2006 and Treasurer’s Instructions take precedence over AAS. Several AAS are modified by the Instructions to vary application, disclosure format and wording. Where modification is required and has had a material or significant financial effect upon the reported results, details of that modification and the resulting financial effect are disclosed in the notes to the financial statements.

Basis of preparation
These financial statements are presented in Australian dollars applying the accrual basis of accounting and using the historical cost convention. All values are rounded to the nearest thousand dollars ($’000).

Judgements and estimates
Judgements, estimates and assumptions are required to be made about financial information being presented. The significant judgements and estimates made in the preparation of these financial statements are disclosed in the notes where amounts affected by those judgements and/or estimates are disclosed. Estimates and associated assumptions are based on professional judgements derived from historical experience and various other factors that are believed to be reasonable under the circumstances.

2: Office outputs
How the Office operates
This section includes information regarding the nature of funding the Office receives and how this funding is utilised to achieve the Office’s objectives.

2.1 Office objectives
Mission
The Office’s mission is to help improve public sector performance and accountability by reporting independently to Parliament.

The Office is partly funded by Parliamentary appropriation. It also charges for certain audit services to agencies and fees are based on full cost recovery. The financial statements encompass all funds through which the Office controls resources to carry out its functions.

Services
The Office is responsible for the delivery of one service: Public Sector Auditing. This comprises the external audit of the Western Australian public sector through audits of financial statements, controls and key performance indicators and audits of efficiency and effectiveness of public sector operations.

All income, expenditure, assets and liabilities are in relation to the delivery of this service.
3: Use of our funding

Expenses incurred in the delivery of services

This section provides additional information about how the Office's funding is applied and the accounting policies that are relevant for an understanding of the items recognised in the financial statements. The primary expenses incurred by the Office in achieving its objectives and relevant notes are:

<td>8,418</td>
</tr>
</tbody>
</table>

3.1(a) Employee benefits expenses

Financial disclosure

Wages and salaries                             | 15,024 | 14,026 |
Superannuation – defined contribution plans(a) | 1,422  | 1,371  |

(a) Defined contribution plans include West State Superannuation Scheme (WSS), Gold State Superannuation Scheme (GSS), Government Employees Superannuation Board Schemes (GESBs) and other eligible funds.

Accounting Policy

Wages and salaries: Employee expenses include all costs related to employment including wages and salaries, fringe benefits tax, leave entitlements.

Superannuation: The amount recognised in profit or loss in the Statement of comprehensive income comprises employer contributions paid to the GSS (concurrent contributions), the WSS, the GESBs, or other superannuation funds. The employer contribution paid to the Government Employees Superannuation Board (GESB) in respect of the GSS is paid back into the Consolidated Account by the GESB.

3.1(a) Employee benefits expenses (continued)

GSS (concurrent contributions) is a defined benefit scheme for the purposes of employees and whole-of-government reporting. It is however a defined contribution plan for Office purposes because the concurrent contributions (defined contributions) made by the Office to GESB extinguishes the Office’s obligations to the related superannuation liability.

The Office has no liabilities under the Pension Scheme (a defined benefit pension scheme closed to new members since 1987) or the GSS. The liabilities for the unfunded Pension Scheme and the unfunded GSS transfer benefits attributable to members who transferred from the Pension Scheme, are assumed by the Treasurer. All other GSS obligations are funded by concurrent contributions made by the Office to the GESB.

The GESB and other fund providers administer public sector superannuation arrangements in Western Australia in accordance with legislative requirements. The Office makes contributions to GESB or other fund providers on behalf of employees in compliance with the Commonwealth Government’s Superannuation Guarantee (Administration) Act 1992. All the superannuation schemes are defined contribution plans. Eligibility criteria for membership in particular schemes for public sector employees vary according to commencement and implementation dates.

</tbody>
</table>

#### Accounting policy

Provisions are made for benefits accruing to employees in respect of wages and salaries, annual leave and long service leave for services rendered up to the reporting date and recorded as an expense during the period the services are delivered. Provisions are liabilities of uncertain timing or amount and are recognised where there is a present legal or constructive obligation as a result of a past event and when the outflow of resources embodying economic benefits is probable and a reliable estimate can be made of the amount of the obligation. Provisions are reviewed at the end of each reporting period.

**Annual leave**

Annual leave is not expected to be settled wholly within 12 months after the end of the reporting period and is therefore considered to be ‘other long-term employee benefits’. The annual leave liability is based on remuneration rates current as at the end of the reporting period. An actuarial assessment of annual leave undertaken by PricewaterhouseCoopers Actuaries at 30 June 2018 determined that the liability using the short-hand measurement technique above was not materially different from the liability using the present value of expected future payments. The provision for annual leave is classified as a current liability as the Office does not have an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period.
3.1(b) Employee related provisions (continued)

**Long service leave**

A liability for long service leave is recognised after an employee has completed 4 years (2017: 4 years) of service based on remuneration rates current as at the end of the reporting period. An actuarial assessment of long service leave undertaken by PricewaterhouseCoopers Actuaries at 30 June 2018 determined that the liability measured using the short-hand measurement technique above was not materially different from the liability determined using the present value of expected future payments. This calculation is consistent with the Office’s experience of employee retention and leave taken. Unconditional long service leave provisions are classified as current liabilities as the Office does not have an unconditional right to defer settlement of the liability for at least 12 months after the end of the reporting period. Pre-conditional and conditional long service leave provisions are classified as non-current liabilities because the Office has an unconditional right to defer settlement of the liability until the employee has completed the requisite years of service.

Several estimations and assumptions used in calculating the Office’s annual leave and long service leave provisions include expected future salary rates, discount rates, employee retention rates and timing of expected future payments. Changes in these estimations and assumptions may impact on the suitability of the short-hand measurement techniques and the carrying amounts of the annual leave and long service leave provisions.

**Purchased leave**

The provision for purchased leave relates to public service employees who have entered into an agreement to self-fund up to an additional 10 weeks leave per calendar year. The provision recognises the value of salary set aside for employees and is measured at the undiscounted amounts expected to be paid when the liabilities are settled.

**Employment on-costs**

Employment on-costs, including workers’ compensation insurance, are not employee benefits and are recognised separately as liabilities and expenses when employment to which they relate has occurred. Employment on-costs are included as part of ‘Note 3.2 Other expenditure’. The related liability is included in ‘Employment on-costs provision’.

---

<td>33</td>
</tr>
<tr>
<td>Gains</td>
<td>13</td>
<td>–</td>
</tr>
</tbody>
</table>

4.1 Income from State Government (continued)

Accounting policy

Service appropriations are recognised as revenues in the period in which the Office gains control of the appropriated funds. The Office gains control of appropriated funds at the time those funds are deposited into the bank account or credited to the ‘Amounts receivable for services (Holding Account)’ held at Treasury.

Assets or services received free of charge or for nominal cost that the Office would otherwise purchase if not donated, are recognised as income at the fair value of the assets or services where they can be reliably measured. A corresponding expense is recognised for services received. Receipts of assets are recognised in the Statement of Financial Position.

4.2 User charges and fees

Financial disclosure

Audit fees

<tbody>
<tr>
<td>Audit fees</td>
<td>18,984</td>
<td>16,945</td>
</tr>
</tbody>
</table>

Accounting policy

Revenue is recognised and measured at the fair value of consideration received or receivable. Revenue is recognised for the major business activities as follows:

Sale of goods – Revenue is recognised when the significant risks and rewards of ownership transfer to the purchaser and can be measured reliably.

Provision of services – Revenue is recognised by reference to the stage of completion of the transaction. For audits conducted in-house, the percentage completed is estimated from the percentage of budget hours completed.

For contract audits, the percentage completed is estimated on the basis of actual invoices received from contract audit firms, supplemented by their estimate of subsequent work completed but not yet billed.
4.2 User charges and fees (continued)
Net appropriation determination – The Treasurer may make a determination providing for prescribed receipts to be retained for services under the control of the Office. The Office retained $19.0 million in 2018 ($17.0m in 2017) from the following:
- Assurance and audit fees
- Government vehicle scheme
- Other Office revenue

4.3 Other revenue

</tr>
</tbody>
</table>
5.1 Property, plant and equipment (continued)

Accounting policy

Items of property, plant and equipment costing $5,000 or more are recognised as assets and the cost is depreciated over their useful lives. Items of property, plant and equipment costing less than $5,000 are immediately expensed direct to the Statement of Comprehensive Income other than where they form part of a group of similar items which are significant in total.

Property, plant and equipment are initially recognised at cost. For items of property, plant and equipment acquired at no cost or for nominal cost, the cost is the fair value at the date of acquisition.

All items of property, plant and equipment are stated at historical cost less accumulated depreciation and accumulated impairment losses.

5.2 Intangible assets

Financial disclosure

<td>Computer software in development – at cost</td>
<td>151</td>
<td>176</td>
</tr>
<tr>
<td>Total</td>
<td>340</td>
<td>469</td>
</tr>
</tbody>
</table>

Reconciliations of the carrying amounts of intangible assets at the beginning and end of the reporting period are set out in the table below:

<table>
<thead>
<tr>
<th></th>
<th>2017</th>
<th>2018</th>
</tr>
</thead>
<tbody>
<tr>
<td>Carrying amount at start of period</td>
<td>114 49</td>
<td>293 176</td>
</tr>
<tr>

<td>(78) (78)</td>
</tr>
<tr>
<td><strong>Carrying amount at end of period</strong></td>
<td><strong>293 176</strong></td>
<td><strong>469</strong></td>
</tr>
</tbody>
</table>

Acquisitions of intangible assets costing $5,000 or more and internally generated intangible assets costing $50,000 or more are capitalised. The cost is amortised over their useful lives. Costs incurred below these thresholds are immediately expensed to the Statement of Comprehensive Income. Intangible assets are initially recognised at cost. For assets acquired at no cost or for nominal cost, the cost is their fair value at the date of acquisition.

Expenditure relating to the development of computer software is capitalised when it meets the criteria outlined in the relevant Australian Accounting Standards. Management has exercised judgement in determining the costs that are directly attributable to the development of computer software and require capitalisation. Key estimates and assumptions concerning the future are based on historical experience and various other factors that have a significant risk of causing a material adjustment to the carrying amount of the assets within the next financial year.
5.3 Depreciation and amortisation expense

Accounting policy
Depreciation for property, plant and equipment is calculated using the straight line method, using rates which are reviewed annually. Estimated useful lives for each class of depreciable asset are: Office and computer equipment – 2 to 10 years.

Amortisation for intangible assets with finite useful lives is calculated for the period of the expected benefit (estimated useful life which is reviewed annually) on the straight line basis. All intangible assets have a finite useful life and zero residual value. The expected useful lives for intangible assets are: Software – 3 years.

Financial disclosure
Depreciation – office and computer equipment  262   186
Amortisation – intangible assets  155   145
Total  417   331

5.4 Impairment of assets

Accounting policy
Property, plant and equipment and intangible assets are tested for any indication of impairment at the end of each reporting period.

Financial disclosure
During the financial year, the decision was made to discontinue work on the timekeeper element of the People Practice and Management Project. As the economic benefits of this component of the project will not be realised, an impairment loss has been recognised.

An amount of $77,885 in computer software in development has been written down.

There were no indications of impairment to property, plant and equipment or intangible assets at 30 June 2018. ($Nil as at 30 June 2017).

6: Other assets and liabilities

This section sets out those assets and liabilities that arose from the operations of the Office and includes other assets utilised for economic benefits and liabilities incurred during normal operations:

<table>
<thead>
<tr>
<th></th>
<th>2018</th>
<th>2017</th>
</tr>
</thead>
<tbody>

<tr>
<td>Payables</td>
<td>6.4</td>
<td>1,180</td>
</tr>
</tbody>
</table>

6.1 Receivables

Financial disclosure

Current
Accrued revenue  8,310  6,810
GST receivables  204   141
Amounts receivable for employees seconded  54   52
Salary over-payments  –   5
Total  8,568  7,008

Accounting policy

Receivables are recognised at original invoice amount less an allowance for any uncollectable amounts (i.e. impairment). The collectability of receivables is reviewed on an ongoing basis and any receivables identified as uncollectable are written-off against the allowance account. The allowance for uncollectable amounts (doubtful debts) is raised when there is objective evidence that the Office will not be able to collect the debts. The carrying amount is equivalent to fair value as it is due for settlement within 30 days.

Accrued revenue includes amounts receivable for work-in-progress. For audits conducted in-house, the percentage completed is estimated from the percentage of budget hours completed. For contract audits, the percentage completed is estimated on the basis of actual invoices received from contract audit firms, supplemented by their estimate of subsequent work completed but not yet billed.
6.2. Amounts receivable for services (Holding Account)

</tr>
</tbody>
</table>

Accounting policy

Accrued salaries represent the amount due to staff but unpaid at the end of the financial year. Accrued salaries are settled within a fortnight of the financial year end. The Office considers the carrying amount of accrued salaries to be equivalent to its fair value.

Payables are recognised at the amounts payable when the Office becomes obliged to make future payments as a result of a purchase of assets or services. The carrying amount is equivalent to fair value, as settlement is generally within 30 days.

7: Financing

This section sets out the material balances and disclosures associated with the financing and cash flows of the Office.

7.1 Cash and cash equivalents

For the purpose of the Statement of cash flows, cash and cash equivalent (and restricted cash and cash equivalent) assets comprise cash on hand and short-term deposits with original maturities of 3 months or less that are readily convertible to a known amount of cash and which are subject to insignificant risk of changes in value.

7.1.1 Reconciliation of cash and cash equivalents

Reconciliation of cash and cash equivalents

7.2 Commitments

**Accounting policy**

The Office holds operating leases for office accommodation, certain equipment and motor vehicles. Lease payments are expensed on a straight line basis over the lease term as this represents the pattern of benefits derived from the leased items.

**Financial disclosure**

**Non-cancellable operating lease commitments**

Commitments for minimum lease payments are payable as follows:

<table>
<thead>
<tr>
<th></th>
<th>2018</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$'000</td>
<td>$'000</td>
</tr>
<tr>
<td>Within 1 year</td>
<td>2,111</td>
<td>2,315</td>

<td>8,680</td>
<td>15</td>
</tr>
<tr>
<td>Later than 5 years</td>
<td>11</td>
<td>–</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>10,802</td>
<td>2,330</td>
</tr>
</tbody>
</table>

The Office has entered into a Memorandum of Understanding (MoU) with the Department of Finance’s Building Management and Works division for leasing floor space at Albert Facey House. The MoU is not a legally binding agreement, however, it has been agreed that all parties will comply with the terms and conditions as if they were legally enforceable obligations. It covers a 5-year occupancy period from 1 July 2018. Rent is payable monthly in arrears. Contingent rent provisions within the MoU require that the minimum lease payments shall be increased by any increase in market indices from 1 July 2019 and bi-annually thereafter.

The commitments below are inclusive of GST where relevant:

**Capital expenditure commitments**

Capital expenditure commitments for development of a new human resources management information system additional to the amounts reported in the financial statements, are payable as follows:

<table>
<thead>
<tr>
<th></th>
<th>2018</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$'000</td>
<td>$'000</td>

</tr>
<tr>
<td>Later than 5 years</td>
<td>–</td>
<td>–</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td>34</td>
<td>91</td>
</tr>
</tbody>
</table>

**Other expenditure commitments**

Audit services contracted through private sector audit firms at the end of the reporting period but not recognised as liabilities, are payable as follows:

<table>
<thead>
<tr>
<th></th>
<th>2018</th>
<th>2017</th>
</tr>
</thead>
<tbody>
<tr>
<td></td>
<td>$'000</td>
<td>$'000</td>
</tr>
<tr>
<td>Within 1 year</td>
<td>4,230</td>
<td>2,519</td>
</tr>
<tr>

<td>–</td>
<td>48</td>
</tr>
<tr>
<td>Later than 5 years</td>
<td>–</td>
<td>–</td>
</tr>
</tbody>
</table>

Later than 5 years

8: Risks and contingencies
This note sets out the key risk management policies and measurement techniques of the Office

8.1. Financial risk management (continued)
(a) Financial risk management objectives and policies
The Office has limited exposure to financial risks. The Office’s overall risk management program focuses on managing the risks identified below.

Credit risk arises when there is the possibility of the Office’s receivables defaulting on their contractual obligations resulting in financial loss to the Office. The maximum exposure to credit risk at the end of the reporting period in relation to each class of recognised financial assets is the gross carrying amount of those assets inclusive of any allowance for impairment as shown in the table at Note 8.1(b) ‘Financial instrument disclosures’ and Note 6.1 ‘Receivables’.

Credit risk associated with the Office’s financial assets is minimal because the main receivables are the amounts receivable for services (Holding Account) and audit receivables. The Office does not have any significant credit risk as services are provided only to government agencies. In addition, receivable balances are monitored on an ongoing basis with the result that the Office’s exposure to bad debts is minimal. At the end of the reporting period there were no significant concentrations of credit risk, other than in respect of government agencies.

Liquidity risk arises when the Office is unable to meet its financial obligations as they fall due. The Office is exposed to liquidity risk through its trading in the normal course of business.

The Office has appropriate procedures to manage cash flows including drawdown of appropriations by monitoring forecast cash flows to ensure that sufficient funds are available to meet its commitments.

The Office has no borrowings.
8.1. Financial risk management (continued)

(b) Financial instrument disclosures

Credit risk

The following table discloses the Office’s maximum exposure to credit risk and the ageing analysis of financial assets. The Office’s maximum exposure to credit risk at the end of the reporting period is the carrying amount of financial assets as shown below. The table discloses the ageing of financial assets that are past due but not impaired and impaired financial assets (if any). The table is based on information provided to senior management of the Office.

The Office does not hold any collateral as security or other credit enhancement relating to the financial assets it holds.

(a) The amount of receivables excludes the GST recoverable from the ATO (statutory receivable).

**Fair values**

All financial assets and liabilities recognised in the Statement of financial position are recognised at amounts that represent a reasonable approximation of fair value unless otherwise stated in the applicable notes.
9: Other disclosures
This section includes additional material disclosures required by accounting standards or other pronouncements, for the understanding of this financial report.

Key management personnel

<td>–</td>
<td>1</td>
</tr>
<tr>
<td>270,001 – 280,000</td>
<td>1</td>
<td>–</td>
</tr>
<tr>
<td>300,001 – 310,000</td>
<td>–</td>
<td>1</td>
</tr>
<tr>
<td>440,001 – 450,000</td>
<td>1</td>
<td>1</td>
</tr>
</tbody>
</table>

Total compensation of senior officers: 1,913 $’000 in 2018 and 1,920 $’000 in 2017.

9.2 Related party transactions
The Office is a wholly-owned public sector entity that is controlled by the State of Western Australia.

Related parties of the Office include:
- all Ministers and their close family members, and their controlled or jointly controlled entities;
- all senior officers and their close family members, and their controlled or jointly controlled entities;
- other departments and statutory authorities, including their related bodies, that are included in the whole of government consolidated financial statements;
- associates and joint ventures that are included in the whole of Government consolidated financial statements; and
- the Government Employees Superannuation Board (GESB).

Significant transactions with Government-related entities:
- service appropriation (Note 4.1);
- capital appropriation (Note 9.3);
- audit fee income (Note 4.2);
- office lease rentals and monthly outgoings (Notes 3.2 and 7.2);
- motor vehicle lease expenses (Notes 3.2 and 7.2);
- services received free of charge (Note 4.1).

Significant balances with Government-related entities at year end include:
- Amounts receivable for services (Holding Account) (Note 6.2); and
- accrued revenue receivable (Note 6.1).

Material transactions with other related parties:
- superannuation payments to GESB (Note 3.1a).

The Office had no material related party transactions with Ministers, Senior Officers or their close family members or their controlled or jointly controlled entities. Refer to Note 9.1 for disclosure of compensation of key management personnel.
9.3. Equity

Financial disclosure

Contributed equity
Balance at start of period 8,331 8,081

Contributions by owners
Capital appropriation 300 250
Total contributions by owners 300 250
Balance at end of period 8,631 8,331

Accumulated surplus
Balance at start of period 4,149 3,662
Result for the period 1,010 487
Balance at end of period 5,159 4,149

Total Equity at end of period 13,790 12,480

Accounting policy
The Western Australian Government holds the equity interest in the Office on behalf of the community. Equity represents the residual interest in the net assets of the Office.

AASB Interpretation 1038 Contributions by Owners Made to Wholly-Owned Public Sector Entities requires transfers in the nature of equity contributions, other than as a result of a restructure of administrative arrangements, to be designated by the Government (the owner) as contributions by owners (at the time of, or prior to transfer) before such transfers can be recognised as equity contributions.

Capital appropriations have been designated as contributions by owners by TI 955 Contributions by Owners made to Wholly Owned Public Sector Entities and have been credited directly to Contributed Equity.

9.4 Services provided free of charge
During the year no audit services were provided by the Office free of charge to departments, statutory authorities and request audits:

Chowerup Cemetery Board – 3
Dwellingup Cemetery Board – 3

9.5 Remuneration of auditor
An independent auditor is appointed by the Governor under section 38(2) of the Auditor General Act 2006 to audit the accounts, financial statements, controls and performance indicators of the Office with the fee being paid by this Office. Remuneration in respect of the audit for the current financial year is as follows:

Auditing the accounts, financial statements, controls and key performance indicators 39 41

9.6 Events occurring after the end of the reporting period
There were no events occurring after the end of the reporting period that warrant disclosure.

9.7 Supplementary financial information
During the current and previous financial years, there were no:
• write-offs by the Office;
• losses through theft, defaults and other causes; and
• gifts of public property provided by the Office.
9.8 Explanatory statement

All variances between estimates (original budget) and actual results for 2018, and between the actual results for 2018 and 2017 are shown below. Narratives are provided for major variances, which are greater than:

- 5% and $483,000 for the Statements of Comprehensive Income and Cash Flows
- 5% and $335,000 for the Statement of Financial Position.

Office of the Auditor General – Annual Report 2017-18
9.8 Explanatory statement (continued)

Major estimate and actual variance narratives

Statement of comprehensive income

1. Employee benefits expense is greater than the estimate by $1,017,000 (6.6%). During the year the Office commenced the financial audit of 46 local government entities. Additional staff resources were required to conduct 3 in-house audits and undertake contract management activities of 43 contracted out audits. The estimate has included a long standing understatement in employee benefits expense, which has been corrected in the 2018-19 budget and forward estimates through a once off adjustment of $700,000 between employee benefits and supplies and services. The actual result is more closely aligned to the new revised employee benefits expense estimate.

2. Supplies and services expense is lower than the estimate by $638,000 (8.5%) as a result of the following:
   • A long standing overstatement in contractor expenses in the estimates was addressed in the 2018-19 budget and forward estimates through a once off adjustment ($700,000) between employee benefits and supplies and services.
   • Additional private sector audit contracts of $470,000 to undertake the financial audits of local government entities.
   • Underspend in other contracts and services of $408,000.

3. Revenue from user charges and fees is greater than the estimate by $953,000 (5.3%) mainly due to the recognition of an additional $704,000 of revenue relating to the financial auditing of local government entities.

Statement of financial position

4. The carrying amount of property, plant and equipment is over the estimate by $381,000. This is the result of the estimate having a combination of a lower estimated opening carrying amount ($369,000) and additional estimated depreciation ($165,000), offset by higher estimated purchases of computer hardware of $153,000.

Statement of cash flows

5. Payment of employee benefits is greater than the estimate by $947,000 (6.2%). During the year the Office commenced the financial audit of 46 local government entities. Additional staff resources were required to conduct 3 in-house audits and undertake contract management activities of 43 contracted out audits. In addition, a long standing understatement in employee benefits expenses in the estimates has been addressed through a once off adjustment of $700,000 between employee benefits and supplies and services.

6. Payments for supplies and services is lower than the estimate by $993,000 (13.8%). A long standing overstatement in contractor expenses in the estimate was addressed through a once off adjustment of $700,000 between employee benefits and supplies and services. Increases in services and contracts include expenses incurred in undertaking financial audits of 43 local government entities contracted out to private sector audit firms. A portion of contracted work ($435,000) is recognised as accrued expenses to be paid in the next financial year.

7. Payments for the purchase of assets reduced by $613,000. In 2017-18 the Office spent $351,000 primarily on replacement laptops ($102,000), audio visual devices ($145,000) and software projects ($86,000).

In the prior financial year, $964,000 was spent on:
   • software development ($206,000 spent on the completion of the payroll component, and $164,000 on the timekeeper, reporting and training and development components); and
   • computer hardware with the upgrade of laptops, replacement of the firewall and the purchase of LED digital display screens ($554,000).
### Future impact of Australian Accounting Standards not yet operative

The Office cannot early adopt an Australian Accounting Standard unless specifically permitted by TI 1101 Application of Australian Accounting Standards and Other Pronouncements or by an exemption from TI 1101. Where applicable, the Office plans to apply the following Australian Accounting Standards from their application date.

<table>
<thead>
<tr>
<th>Standard</th>
<th>Description</th>
<th>Operative for reporting periods beginning on/after</th>
</tr>
</thead>
<tbody>
<tr>
<td>AASB 9</td>
<td>Financial Instruments (and related revisions to other Standards)</td>

<tr>
<td>AASB 15</td>
<td>Revenue from Contracts with Customers</td>
<td>1 Jan 2019</td>
</tr>
<tr>
<td>AASB 16</td>
<td>Leases</td>
<td>1 Jan 2019</td>
</tr>
<tr>
<td>AASB 1058</td>
<td>Income of Not-for-Profit Entities</td>
<td>1 Jan 2019</td>
</tr>
</tbody>
</table>

- **AASB 9**
  - This Standard supersedes AASB 139 Financial Instruments: Recognition and Measurement, introducing a number of changes to accounting treatments.
  - The Office has not yet determined the potential impact of the Standard.

- **AASB 15**
  - This Standard establishes the principles that the Office shall apply to report useful information to users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows arising from a contract with a customer. The Office’s income is primarily derived from ‘User charges and fees’. The Office has not yet determined the potential impact of the Standard on ‘User charges and fees’ and ‘Other revenue’.

- **AASB 16**
  - This Standard introduces a single lessee accounting model and requires a lessee to recognise assets and liabilities for all leases with a term of more than 12 months, unless the underlying asset is of low value.
  - Whilst the impact of AASB 16 has not yet been quantified, the Office currently has operating lease commitments for $10.8m. The Office anticipates most of this amount will be brought onto the statement of financial position at their present value, excepting amounts relating to short-term or low-value leases. Interest and amortisation expense will increase and lease rental expense will decrease.

- **AASB 1058**
  - This Standard clarifies and simplifies the income recognition requirements that apply to not-for-profit (NFP) entities, more closely reflecting the economic reality of NFP entity transactions that are not contracts with customers. Timing of income recognition is dependent on whether such a transaction gives rise to a liability, a performance obligation (a promise to transfer a good or service), or an obligation to acquire an asset. Income derived from appropriations will be measured under AASB 1058. The Office has not yet determined the potential impact of the Standard.
Certification of Key Performance Indicators

For the year ended 30 June 2018

I hereby certify that the key performance indicators are based on proper records, are relevant and appropriate for assisting users to assess the Office of the Auditor General's performance, and fairly represent the performance of the Office for the financial year ended 30 June 2018.

CAROLINE SPENCER
ACCOUNTABLE AUTHORITY
9 August 2018
Performance indicators

The Office of the Auditor General (OAG) exists to serve the public interest by providing Parliament with independent and impartial information regarding public sector accountability and performance. The OAG reports directly to Parliament and ultimately the people of Western Australia.

Through our desired outcome, ‘an informed Parliament on public sector accountability and performance’ we provide oversight of government achievement of its 4 goals, including responsible financial management and better service delivery.

Key effectiveness performance indicators

Our key effectiveness performance indicator is:

The extent that the OAG is effective in informing Parliament about public sector accountability and performance is measured by the number of tabled reports compared to targets for each of the following categories of audit matter:

- Service delivery – reports tabled
- Economic development – reports tabled
- Social and environment – reports tabled
- Governance – reports tabled.

A crucial element of this indicator is the establishment of a 3-year target for each category of report. The current target over 3 years encompasses the financial years 2015-16 to 2017-18. Table 23 shows our actual performance against this 3-year target. While we aim to meet these report targets, we are also concerned with the quality of our reports and will not sacrifice this requirement in order to achieve a quantitative measure.

Table 23 also shows the number of reports tabled in the preceding 4 years, and our performance in 2017-18.

We achieved our 3-year target overall, and in 3 of the 4 categories. The only category where we did not achieve the target was in Economic development, where we fell 2 short of the target.

The variances in our actual to target, reflects:

- the Auditor General’s decision to choose audit topics that in our view at the time would better inform Parliament and the community
- the diversion of resources to opinions on ministerial notifications under section 82 of the Financial Management Act 2006 (FM Act). The reviews of these notifications are a legislative obligation and use the same resources as planned performance audit reports.

The total actual reports over 3 years was greater than the target mainly due to the impact of the unplanned section 82 reports, which are included in the Governance category.
Our topic selection process aims to provide Parliament with advice and assurance across all 4 categories of public sector activity. Our targets are 1 factor in our selection of topics. Other factors include the significance of identified issues and matters referred to us by Parliament. For this reason, our category targets may not always be met in any 1 year.

Key efficiency performance indicators

The key efficiency performance indicators measure the overall efficiency in delivering the OAG’s service ‘Public Sector Auditing’. The OAG is responsible for undertaking external audit of the Western Australian public sector. This is done through audits of controls, financial statements, key performance indicators, efficiency and effectiveness, and reporting the results to Parliament.

Our key efficiency performance indicators are:

- total audit cost per million dollars of gross government expenditure
- attest (financial) audit cost per million dollars of gross government expenditure
- performance audit cost per million dollars of gross government expenditure
- average number of days taken after balance date to issue financial audit opinions.

The gross government expenditure value incorporates total public sector expenditure together with expenditure by universities, superannuation boards and other entities we audit, but whose expenditure is not reported within total public sector expenditure. The estimated actual total public sector expenditure from the Government Mid-Year Financial Projections Statement is used rather than actual total public sector expenditure as the actual results are not available at the time these key performance indicators are produced. The estimated total public sector expenditure is considered a reasonable estimate of actual total public sector expenditure.

Although the audit costs in these efficiency indicators include the costs of local government audits, gross government expenditure for 2017-18 does not include expenditure by local governments. This approach has been adopted because the OAG became responsible for local government audits in late 2017 and it is currently in an initial transition phase. Revisions to these indicators will be considered for future reporting.

The audit costs used to calculate the key efficiency indicators are extracted from the OAG’s Financial Management Information System. The proportion of total cost assigned to financial and performance audits is based on recorded direct hours charged to audits and an activity based allocation of OAG overhead.

</tbody>
</table>

Table 24: Key efficiency performance indicators 2013-14 to 2017-18
The increases in total audit cost, attest (financial) audit cost and performance audit cost per million dollars of gross government expenditure compared to the prior year of 12.2%, 13.4% and 9.1% respectively were due mainly to 2 factors:

1. audit costs increased because more audits were performed due to the OAG’s audit mandate expanding during the year to include local government financial and performance audits

2. there was a 3.8% decrease in gross government expenditure.

The increase in attest (financial) audit cost per million dollars of gross government expenditure compared to the target of 7.2% was due to the additional local government financial audits performed that were not included in the original target.

The performance audit cost per million dollars of gross government expenditure was 11.4% below the target. Our desired strategy was not achieved largely because funding for performance audits has not matched our target to direct 30% of overall audit effort towards performance audits. The actual result was 26%.

Section 64 of the FM Act requires Ministers to table agency annual reports, including the audit opinion on the financial statements, controls and key performance indicators in Parliament within 90 days of the end of a financial year. Accordingly, we have adopted an efficiency indicator which measures the average number of days taken after balance date to issue financial audit opinions. Our target has been set with regard to this statutory requirement for all financial audits.

The favourable variance between the 2017-18 actual and target was due to agencies preparing financial statements and key performance indicators in a more timely manner and efficiency improvements achieved in the audit process.
Other financial disclosures

Pricing policies
We have based our fee model on our legislation and Department of Treasury guidelines. Using this model, we invoice agencies and local governments only for financial audits. However, our fees also incorporate a loading to recover one-third of our narrow scope performance audits, the focus of which is on governance and has a strong relevance to financial accountability.

Fees are based on the hours required to undertake each financial audit. Where a contractor conducts the audit on our behalf, we base the fees on the contractor’s fees. The model also assumes:

- full recovery of direct costs including salary, superannuation and training
- full recovery of identified overheads with these costs being spread over all financial audit engagements.

Capital works
During 2017-18 we continued our ongoing asset replacement program. Capital projects this year included:

- upgraded LED digital display screens ($145,500)
- laptop replacement program ($115,665)
- software projects – completion of the HR system training and development component ($28,500) and continued development of reporting functionality ($75,550)
- upgraded portable monitors ($9,700)
- new scanning equipment ($6,500).

Table 25: The OAG’s staff profile

Staff development
We are committed to the development of our people and have an extensive program that delivered in excess of 9,800 hours of in-house and external training. As the result of our commitment to professional development and staff training we are recognised by CPA Australia and Chartered Accountants Australia and New Zealand. More information on our program is outlined in the Learning and Professional Development section (page 26).

Workers compensation
During the financial year 1 compensation claim was recorded. The claim was in relation to an Occupational Safety and Health incident (page 125). This is an increase on 2016-17, when no compensation claims were recorded.
Governance disclosures

Contracts with senior officers

At the date of reporting, no senior officers, or firms of which senior officers are members, or entities in which senior officers have substantial interests, had any interests in existing or proposed contracts with OAG other than normal contracts of employment of service.

Other employment

Under schedule 1, clause 3 of the Auditor General Act 2006 (AG Act), the Auditor General must not, except so far as authorised by law or by resolutions of both Houses of Parliament, hold certain offices, places or positions referred to in the Constitution Acts Amendment Act 1899. The schedule also prohibits the Auditor General from engaging in any paid employment outside the duties of the OAG.

At no time while acting as the Auditor General or since my appointment to that office have I engaged in any paid employment outside the duties of my office. I am also a member of the State Records Commission, as authorised by the State Records Act 2000, section 58n(a).

– Caroline Spencer.

At no time while acting as the Auditor General did I engage in any paid employment outside the duties of that office. I was also a member of the State Records Commission, as authorised by the State Records Act 2000, section 58n(a).

– Colin Murphy.

Unauthorised use of credit cards

OAG officers hold corporate credit cards where their functions warrant use of this facility. Despite each cardholder being reminded of their obligations annually under the Office’s credit card policy, one employee inadvertently used the corporate credit card for their personal lunch. The matter was not referred for disciplinary action as the Chief Finance Officer noted prompt advice and settlement of the personal use amount, also that the nature of the expenditure was immaterial and characteristic of an honest mistake.

* Remuneration reported excludes travel expenses incurred as per Public Sector Commissioner’s Circular 2009-20 – Reimbursement of Travel Expenses for Members of Government Boards and Committees

^ Mr Pearson commenced as independent Chair on 22 June 2018 and did not receive any remuneration in 2017-18.

Table 27: Remuneration of the OAG Audit and Risk Management Committee Independent Chair

Other legal requirements

Expenditure on advertising

In accordance with section 175ZE of the Electoral Act 1907, the OAG incurred the following expenditure in recruitment advertising, conducting surveys and our contribution to the ACAG benchmarking survey.

The total expenditure for 2017-18 was $54,887.00.

Expenditure was incurred in the following areas (ex-GST):

<table>
<thead>

Disability Access and Inclusion Plan

We are now into the second year of our Disability Access and Inclusion Plan (DAIP) 2017-2021. The DAIP outlines our commitment to ensuring that people with disability, their families and carers have:

- ready access to our services, information and facilities
- the same opportunities to obtain and maintain employment with us.

We regularly review our recruitment processes to address any barriers to access and inclusion in employment. For employees with existing or emerging disabilities, we work with them and their health professionals to support their work and contribution to the OAG.

In our annual DAIP progress report to the Disability Services Commission, we reported on 23 strategies across 7 outcomes, all of which have been implemented, and 6 of which rated as highly effective. We also present this information to employees and Executive regularly.
Strategies

Outcome 1
People with disability have the same opportunities as other people to access the services of, and any events organised by the OAG.

Ensure people with disability have an opportunity to comment on access to services.
Monitor and redevelop an Access and Inclusion Policy to support equitable access to services.
Incorporate DAIP objectives in strategic business planning, budgeting processes, procedures and policies.
Ensure employees awareness of our DAIP, relevant policies and strategies.
Ensure accessibility to events conducted by, or on behalf of the OAG.

Outcome 2
People with disability have the same opportunities as other people to access the buildings and other facilities of OAG.

Ensure office accessibility is maintained to meet legislative and access standards.
Ensure signage is clear and easy to read.
Information access options are available.
Parking – close to public transport, parking and taxi stands.

Outcome 3
People with disability receive information from OAG in a format that will enable them to access the information as readily as other people are able to access it.

Community awareness of information availability in alternative formats upon request.
Improve employee awareness of:
• accessible information needs
• obtaining information in other formats.
Ensure specialist support is available at meetings when requested.
Ensure web page design incorporates W3C Web Content Accessibility guidelines.
Office receptionists are adequately trained in client service for people with disability.
Ensure printed information accessibility for people with disability.

Outcome 4
People with disability receive the same level and quality of service from our employees as other people.

Employee awareness raising of disability, access issues and relevant legislation through regular professional development.
Ensure client service skills for people with disability.
Raise new employees awareness of disability, access issues and relevant legislation.

Outcome 5
People with disability have the same opportunities as other people to make complaints to the OAG.

Ensure accessibility of OAG’s referral system and policy.
Ensure employee capability to support complaints from people with disability.

Outcome 6
People with disability have the same opportunities as other people to participate in any public consultation we may carry out.

Ensure public consultation processes are available to people with disability, their families and carers.

Outcome 7
People with disability have the same opportunities as other people to obtain and maintain employment with a public authority.

Employment processes are open, transparent and free from bias.
Employee needs are assessed and met for episodic and long-term disability.

Table 29: Disability Access and Inclusion Plan 2017-2021
Compliance with public sector standards and ethical codes

Our policies and procedures are designed to meet compliance requirements of public sector standards, public sector code of ethics and public sector standards in human resource management. Our Code of Conduct specifies the standards of employee behaviour considered directly relevant to our unique role and responsibilities. Additionally, our audit employees must adhere to the professional standards required of auditors.

We inform our employees of these standards and requirements at their induction into the Office; publish all documents on our intranet; and present regular information updates for all employees.

Our Human Resources (HR) team provides consultancy and support services in relation to the public sector human resource standards, particularly in recruitment and selection processes, through panel membership, specialist advice and guidance. All applicant correspondence includes details on accessing public sector standards, and all recruitment and appointment processes are independently reviewed to ensure compliance.

There were no breaches of standards lodged in the past year.

Records management

In compliance with the *State Records Act 2000* our Recordkeeping Plan provides an accurate reflection of our recordkeeping systems, disposal programs, policies and procedures. It is currently under review and will be completed by December 2018. The plan acknowledges our responsibility to ensure all employees are aware of their compliance responsibilities and provided with training in these areas.

We run mandatory e-learning courses in Recordkeeping Awareness and instructor-led information management systems training. These courses are now integrated with our HR system making planning for refresher courses more efficient. Once a year, we also run a specialised graduate training program, educating graduates on their recordkeeping responsibilities and how to use our information systems to ensure compliance.

Over the year, our Information Management team received 1,088 internal ServiceDesk requests, which they resolved in a timely manner. We also received and processed 92 new requests for access to our portal from audited entities to download or upload information. By using ServiceDesk we are able to track and report on common issues and implement any required changes to systems. The data also helps us provide focused training sessions, for specific user groups or individuals, on issues or emerging topics.

To complement our formal instructor-led training on recordkeeping requirements, employees have access to interactive online multimedia training presentations, video demonstrations and quick reference guidebooks. Our mix of formal, informal and self-guided training packages has proven to be both effective and appreciated by employees. We regularly review training and support programs to ensure compliance with the *State Records Act 2000*. 
Government policy requirements

Occupational safety and health and injury management

Occupational safety and health (OSH) is a priority at all times, in all circumstances. We are committed to providing and maintaining a safe and healthy work environment and are fortunate that our employees work in a low risk environment. We do not take this for granted and all employees receive online OSH training.

We have designated and trained OSH safety officers and all of our practices comply with our legislative responsibilities under the Occupational Safety and Health Act 1984, Workers’ Compensation and Injury Management Act 1981 and all policy requirements in Western Australia.

We had 1 OSH incident this year and achieved the target of 80% of managers trained in their OSH responsibilities.

Table 30: Our OSH performance in 2017-18 against targets

1. This indicator examines a 3-year trend and as such the comparison base is to be 2 years prior to the current reporting period (2015-16).
2. The current reporting year is 2017-18.
3. The reduction may be calculated over a 3-year period.
Statement of commitment

The OAG is committed to ensuring the health and wellbeing of employees, visitors and contractors by providing a safe workplace, eliminating hazards that could result in injury or disease and implementing initiatives to improve employee welfare.

The Office will do this by:

- implementing and maintaining safe systems of work
- undertaking risk management activities to identify, eliminate and/or manage risks in the workplace
- providing and maintaining safe systems for the use, handling, storage and transportation of plant, equipment and hazardous substances
- consulting with employees to enhance the effectiveness of the OSH Management System
- providing all employees with appropriate OSH training, information, instruction and supervision
- providing adequate resources including finances to facilitate our OSH responsibilities
- complying with OSH legislation, regulations and relevant Australian standards.

Accountability

Auditor General

The Auditor General has responsibility for the implementation and review of our OSH policy; delegation of OSH management responsibilities; and the provision and allocation of appropriate resources.

Executive Management

The Executive Management Group has responsibility for ensuring their areas of responsibility are compliant with relevant legislation, regulations, standards and OSH plans and policies.

Assistant Auditor General Business Services will ensure:

- sufficient resources are available to meet the OAG’s OSH commitment
- safe systems of work are implemented and used
- OSH issues are addressed as they arise
- OSH consultative and communication mechanisms are established
- appropriate resources are available to meet the OAG’s OSH responsibilities
- compliance with relevant OSH legislation regulations and standards
- all employees undertake the required OSH induction training.
Supervisors and managers will:

- ensure work area(s) are without risk to employees’ health and safety
- ensure all employees adhere to OSH policies and safe work procedures
- ensure all hazards and incidents are reported in accordance with legislative requirements; and timely corrective actions are implemented
- ensure resources are available to meet the OAG’s OSH responsibilities
- ensure their areas of responsibility comply with relevant OSH legislation, regulations and standards.

Employees

All employees are responsible for ensuring their work area is without risk to the health and safety of themselves and others; they complete their work in the safest manner possible; they adhere to OSH policies and procedures; hazards and incidents are reported as they are identified; and they complete all training in OSH as required.

Visitors and contractors

Visitors and contractors to the Office should take reasonable care to protect the safety and health of themselves and others. They should report all accidents and incidents to security or supervisors as soon as possible and in the event of an emergency follow the emergency evacuation procedures.

Contractors are required to comply with all applicable legislation and the Office’s OSH policies and procedures; are responsible for taking reasonable care while on our premises and cooperating with actions taken to protect the health and safety of themselves and others.

Strategic goals

Table 31 shows our annual strategic goals, targets and indicative results for OSH and injury management performance.
### Outcome: Systems of work

The Office of the Auditor General will have systems, policies, procedures and practices that ensure the health and well-being of employees, visitors and contractors.

#### 1. effective OHS System
- **Deliverable:** system records incidents and accidents and is fit for purpose
- **Target:** 100% incidents and accidents recorded for analysis
- **2017-18 Indicative Results:**
  - 100% incidents and accidents were recorded for analysis
  - 100% incidents and accidents were addressed

#### 2. appropriate policies, procedures and plans
- **Deliverable:** review policies, procedures and plans
- **Target:** all reviewed biennially + at need
- **2017-18 Indicative Results:**
  - 100% relevant policies, procedures and plans were reviewed as required

### Consultation, communication and training

The Office of the Auditor General will involve employees in OSH to ensure mutual commitment and understanding of workplace health and wellbeing.

#### 3. engaged Office Consultative Committee
- **Deliverable:** regular meetings of representative members
- **Target:** quarterly scheduled + at need
- **2017-18 Indicative Results:**
  - quarterly meetings held

#### 4. notifications through regular communication channels
- **Deliverable:** PD Day sessions, Intranet announcements
- **Target:** at least quarterly notices
- **2017-18 Indicative Results:**
  - notices published regularly – at least quarterly

#### 5. employee awareness and training
- **Deliverable:** OSH Awareness training for employees
- **Target:** 100% of employees trained appropriately for role(s)
- **2017-18 Indicative Results:**
  - 80% of employees trained

#### 6. ergonomic employee set-ups
- **Deliverable:** better practice ergonomic practices
- **Target:** 100% new employee preventative assessments
- **2017-18 Indicative Results:**
  - 49 assessments conducted as intensive one-off

#### 7. visitor and contractor safety
- **Deliverable:** visitors and contractors supervised for OSH and managed for evacuations
- **Target:** 100% visitors and contractors supervised for OSH and managed for evacuations
- **2017-18 Indicative Results:**
  - 100% visitors and contractors supervised for OSH and managed for evacuations

### Compliance

The Office of the Auditor General will ensure compliance with relevant legislation, regulations and standards.

#### 8. reporting compliance
- **Deliverable:** reporting to ARMC
- **Target:** quarterly ARMC reports
- **2017-18 Indicative Results:**
  - quarterly ARMC reports delivered

#### 9. safe and hazard free workplace
- **Deliverable:** workplace hazard inspections
- **Target:** annual inspections
- **2017-18 Indicative Results:**
  - annual inspection conducted

#### 10. appropriate resourcing
- **Deliverable:** assessment and provision of resources
- **Target:** quarterly assessment of and for resourcing
- **2017-18 Indicative Results:**
  - assessment conducted

---

**Table 31: Our annual strategic goals, targets and results for OSH and injury management performance**

* Executive approved the OAG OSH and injury management statement of commitment and annual strategic goals in July 2018. However, we are able to provide indicative results against these new goals as we have maintained a long term commitment to OSH and injury management. We will report on these goals annually.
Appendix 1: Our strategic plan

The Executive Management Group (Executive) endorsed our Strategic Plan in February 2016. The new Auditor General and our Executive team are working towards a full review of our existing Strategic Plan (page 23) to take into account evolving priorities for the OAG. This includes the 2018-19 activities highlighted throughout this report. We are aiming to have completed this review by the end of 2018.

Appendix 3: Glossary

Accountability is traditionally established when Parliament confers responsibility on public sector agencies to account through a Minister of the Crown for all that is done in the exercise of their authority, the manner in which it is done and the ends sought to be achieved.

Across government benchmarking audits (AGBA) build on the annual assurance audits and are aimed at providing an indication to Parliament and agency management of how agencies are performing relative to each other on selected key control activities.

Agency means a department, a sub-department or a statutory authority as defined in the Financial Management Act 2006.

Annual Report on State Finances is a report prepared in accordance with the Government Financial Responsibility Act 2000 that provides the state’s public sector financial results for the financial year and outlines material differences between these results and the financial forecasts contained in the State Budget for that financial year.

Assurance audit or financial audit is audit work performed to enable an opinion to be expressed on the financial statements of an entity. For most entities, it also includes audit work to enable an opinion to be expressed on their controls and key performance indicators.

Audit includes to examine, investigate, inspect and review.

Auditor General’s report is the vehicle used to report to Parliament the results of audits and examinations conducted under sections 12 to 20 of the Auditor General Act 2006.

Clear audit opinion is expressed when the audit concludes, based on the audit evidence obtained, that, in all material respects, the financial statements are free from material misstatement, the key performance indicators are relevant and appropriate and fairly represent indicated performance, or controls are adequate.

Compliance audits are audits that provide information about agency compliance with legislation, public sector policies and good practice.

Corporatised entities operate under enabling legislation in a similar manner to companies under the Corporations Act 2001.

Department means a department of the public sector established under the Public Sector Management Act 1994.

Effectiveness indicators are key performance indicators that provide information on the extent to which agency level government desired outcomes have been achieved, or contributed to, through the delivery of services.

Efficiency indicators are key performance indicators that generally relate services to the level of resource inputs required to deliver them.

Financial statements are a structured set of financial information including explanatory notes derived from accounting records to communicate for a period of time an entity’s financial performance and cash flows, and at a point of time its financial position, that is useful to a wide range of users in making economic decisions.

Focus area audit are audits which assess how well agencies perform common business practices and related controls. They are carried out as an extension of our annual financial audits.

A follow-up audit reviews the extent to which recommendations from the previous performance audit have been implemented, generally 3 to 5 years after tabling a report.

A follow-on audit examines the progress in implementing recommendations from a previous report and has additional scope in covering significant issues or developments in the area or activity.

Key performance indicator (KPI) is information about critical or material aspects of service performance or outcome achievement.

Key performance indicator audit is an audit performed to enable an opinion to be expressed about whether or not the key performance indicators are relevant and appropriate having regard to their purpose and fairly represent indicated performance.
Management letter is a letter to senior management of an agency or other entity that conveys the audit findings and results of an audit. It may include recommendations for improvements in controls and other matters.

Matters of significance (MoS) are the ‘key messages’ in Auditor General’s reports defined as the issues a general parliamentary reader would take away from the report after the detail of specific findings and recommendations has receded into the background.

Outcomes are the effect, impact, result on or consequence for the community, environment or target clients of government services.

Performance audits are audits that examine efficiency and effectiveness of public sector agencies or specific areas within an agency or across a number of agencies.

Service means the supply of an activity or good to a user external to the entity providing the service. Services comprise programs and outputs.

Statutory authority means a person or body specified in Schedule 1 of the Financial Management Act 2006. These agencies are established by Parliament under legislation for specified purposes.

Sub-department means an entity in respect of which a declaration under section 56(2) of the Financial Management Act 2006 has effect.

Treasurer’s Instructions are prescribed requirements at a minimum level with respect to matters of financial administration that have the force of law and must be observed by public sector agencies under the Financial Management Act 2006.
Over 180 years of audit in Western Australia

The origins of the OAG date back to the first months of settlement of the Swan River colony in 1829. In May, before even landing on shore, Captain Stirling formed ‘a Board of Counsel and Audit in the management of the property of the Crown, and of public property within the settlement’.

This started out as a voluntary role: ‘… I am to acquaint you that his Excellency expects from your zeal the performance of the service required of you without reward of remuneration beyond the satisfaction you will derive from the fulfilment of a duty of this confidential nature’.

Stirling commanded the Office of the Commissioners of the Board of Counsel and Audit be opened ‘for the despatch of business’ on 12 August 1829. But they were very humble beginnings, operating out of a tent on the site chosen for the Town of Perth.

The Swan River Colony’s first Auditor, Captain Mark Currie, was appointed 1 July 1831, paid 300 pounds per annum, and was responsible to the Colonial Office through the Governor.

Western Australia has had 19 Auditors General. The current Auditor General, Caroline Spencer is the first female appointed to the role.
Boab tree outside Broome Court House, which was one of the state sector sites the Auditor General visited when presenting at the Local Government Professionals North West Conference in Broome (page 5)
